F 000	INITIAL COMMENTS  The following reflects the findings of the California Department of Public Health during an abbreviated survey for the investigation of complaint #CA00683530.  Representing the Department of Public Health: Health Facilities Evaluator Nurse, 38970	F 000			
F 660 SS=D	Discharge Planning Process CFR(s): 483.21(c)(1)(i)-(ix)  §483.21(c)(1) Discharge Planning Process The facility must develop and implement an effective discharge planning process that focuses on the resident's discharge goals, the preparation of residents to be active partners and effectively transition them to post-discharge care, and the reduction of factors leading to preventable readmissions. The facility's discharge planning process must be consistent with the discharge rights set forth at 483.15(b) as applicable and: (i) Ensure that the discharge needs of each resident are identified and result in the development of a discharge plan for each resident. (ii) Include regular re-evaluation of residents to identify changes that require modification of the discharge plan. The discharge plan must be updated, as needed, to reflect these changes. (iii) Involve the interdisciplinary team, as defined by §483.21(b)(2)(ii), in the ongoing process of developing the discharge plan. (iv) Consider caregiver/support person availability and the resident's or caregiver's/support	F 660	1. The resident in question is no longer at the skilled nursing facility.  2. The Administrator audited all discharges of residents year to date and did not find any other issues.  3. The Administrator met with the Inter-Disciplinary Team and in-serviced them on their requirements to plan, communicate and facilitate (in conjunction with the resident/RP) a safe and appropriate discharge for residents leaving the facility, and all appropriate documentation throughout the process. In addition, given current circumstances, wherever possible, facilities and/or individuals needing to evaluate a current resident prior to admission to their facility will be allowed to do so prior to the resident being discharged from our facility and admitted to their care. An LIC 602A (Physician's Report for RCFE) will be completed and shared with the individual evaluating the resident to ensure that they are aware of all of the resident's needs.  4. Over the next 90 days the Administrator will daily (Monday through Friday) audit all discharge plans to ensure that they are developed with the resident/RP, safe and appropriate. Any issues will be corrected immediately, and all findings will be reported to the Quality Assurance committee.	4/1/20	8/31/20

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 15 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is required to continued program participation.

F 600	Continued From page 1 person(s) capacity and capability to perform required care, as part of the identification of discharge needs. (v) Involve the resident and resident representative in the development of the discharge plan and inform the resident and resident representative of the final plan. (vi) Address the resident's goals of care and treatment preferences. (vii) Document that a resident has been asked about their interest in receiving information regarding returning to the community. (A) If the resident indicates an interest in returning to the community, the facility must document any referrals to local contact agencies or other appropriate entities made for this purpose. (B) Facilities must update a resident's comprehensive care plan and discharge plan, as appropriate, in response to information received from referrals to local contact agencies or other appropriate entities. (C) If discharge to the community is determined to not be feasible, the facility must document who made the determination and why. (viii) For residents who are transferred to another SNF or who are discharged to a HHA, IRF, or LTC, assist residents and their resident representatives in selecting a post-acute care provider by using data that includes, but is not limited to SNF, HHA, IRF, or LTC standardized patient assessment data, data on quality measures, and data on resource use to the extent the data is available. The facility must ensure that the post-acute care standardized patient assessment data, data on quality measures, and data on resource use is relevant and applicable to the resident's goals of care and treatment preferences. F 660	Continued From page 6 [Resident 1] left the facility with stable condition at 12 [p.m.] via wheelchair, escorted by CNA with all belongings and medications.  Review of Resident 1's general acute care hospital (GACH) medical record revealed a note titled, "Clinical Social Services Crisis Services Progress Note," dated 4/1/20, at 7:29 p.m., which indicated Resident 1 was brought in to the emergency department at 7 p.m. by the operator of the room and board. The note indicated, "... [Name of room and board operator] stated that patient is in need of a locked facility as he cannot currently care for himself..."	F 660			
	A GACH note titled "Clinical Case Management Assessments," dated 4/3/20, at 9:15 a.m., and written by the GACH discharge planner (DCP) indicated the owner of the room and board returned Resident 1 to the emergency department after picking him up four hours prior, and was unwilling to take him back to the room and board. The note indicated the DCP contacted the skilled nursing facility's Admissions Department requesting to have Resident 1 return after his failed admission to the room and board. The note indicated the skilled nursing facility refused to accept Resident 1 stating the resident was assaultive to their staff and would benefit from a locked facility.  A facility care plan for Resident 1, dated 4/16/20 (16 days after Resident 1 left the facility), indicated "[Resident 1] desire to RETURN HOME." The goal indicated "[Resident 1] will D/C [discharge] TO [name of room and board] safely and as planned with all services and education completed." The approaches indicated "...Arrange for my local agencies of [name of agency] for my

The ORB stated she was restricted from going into the facility to conduct her assessment of the resident because of the facility's policy restricting non-essential visitors during a pandemic. The ORB stated she was not informed of the resident's need for a locked facility, and that he required a 1:1 sitter during his stay at the skilled nursing facility. The ORB stated her room and board home had care givers on-site 24 hours per day and was experienced with dementia type illnesses. The ORB stated Resident 1 became aggressive toward staff and other residents soon after arriving to the room and board. The ORB stated she became concerned about Resident 1's aggressive behavior and took him to the emergency department. The ORB stated she decided to take Resident 1 back to her room and board home with his new prescription for an anti-psychotic medication, but returned him four hours later for his increasing physical aggression. The ORB stated she found it too difficult to care for Resident 1 because she was in her final trimester of pregnancy, and needed her sleep. The ORB stated the other tenants in the home expressed fear and concern about Resident 1's aggressive behavior.</p> <p>During an interview with Resident 1's RP on 7/31/20, at 3:45 p.m., the RP stated she informed the facility's SSD of a recommendation made by Resident 1's primary care physician to place</p>	F 660

F 660	<p>Continued From page 7</p> <p>Resident 1 in a locked facility for long-term care. The RP confirmed the SSD presented her with the option of discharging Resident 1 to a room and board, and stated she agreed so long as the room and board could provide 24 hour nursing care and was a locked facility. The RP stated the SSD told her Resident 1 needed to be discharged by the end of the month, and that the room and board had alarms on the doors and could handle people with dementia.</p> <p>During an interview with the SSD on 8/4/20, at 11:30 a.m., the SSD stated the room and board had 24 hour care givers, had alarms on all doors to the outside, specialized in dementia care, and was available to low-income people. The SSD stated she felt Resident 1 would do well in a small, family-run home.</p> <p>During a follow-up interview with the ORB on 8/5/20, at 1:30 p.m., the ORB stated the SSD described Resident 1 as a very nice guy, he lived alone with no one to care for him, his family lived away, he suffered from dementia, he needed assistance with his activities of daily living, and that he had a fall and broke his hip. The ORB stated the SSD never told her the resident had a sitter for his entire stay at the facility, was frequently trying to get out of bed, staff had difficulty re-directing him to bed, he was an elopement risk, and he was non-compliant with care instructions. The ORB stated she would not have accepted him into her room and board had she known this information about Resident 1. The ORB stated, on the day she went to the skilled nursing facility, she was not permitted to go passed the lobby due to their visitor restriction policy. The ORB stated the SSD met her in the lobby and gave her a face sheet (a document that</p>	F 660

The RP stated the SSD did not inform her that the ORB was pregnant and had young children living in her room and board. The RP stated she would not have agreed to send Resident 1 to the home had she known this information, and stated Resident 1 was not comfortable living in a home with children. The RP stated she received a call from the ORB two hours after Resident 1's arrival informing her that Resident 1 was in the backyard trying to get out. The RP stated the ORB called again 20 minutes later to inform the RP she was taking the resident to the emergency department because she could not re-direct him back into the home. The RP stated the ORB told her she would not have accepted him had she known he was like this.</p> <p>During a follow-up interview with the SSD on 8/10/20, at 1:45 p.m., the SSD stated she sent a referral for Resident 1 to a local skilled nursing facility because it was a locked facility for residents with dementia. The SSD stated the locked facility denied the referral. The SSD stated the interdisciplinary team met daily to review each residents' progress, and that RPs did not necessarily participate but were notified of any changes. The SSD stated the ORB was not permitted to go passed the facility lobby due to a policy restricting non-essential visitors during to a pandemic, and the SSD stated she considered the ORB a non-essential visitor.
