

Scrambled Song Lyrics

It's time to wash up after working in the barn. But, oh no! Someone mixed up the lyrics to the *Handwash Hoedown* song. Can you help put the words to the song in the right order so everyone's hands go from dirty to clean? Use scissors to cut out the bars of soap, then paste them in the right order on the hands below. Don't forget to color in the hands and soap as you go!

Once you've
scrubbed up to
your wrists, then
let it all rinse down

Rub the soap into
your palms, then go
and scrub the backs

Now that is
how you do the
handwash...
hoedown!

Interlock your
fingers, it's too
early to relax

Circle round your
thumbs, it's a move
that never fails

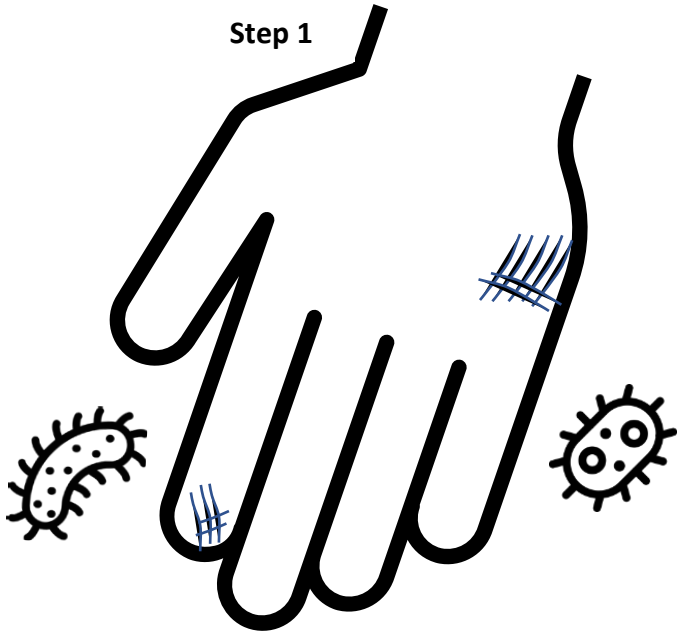

Clasp your hands
together and clean
under your nails
