

Name: _____ Date: _____

Word Scramble

A gang of microbes has jumbled up the letters in the words below.

See if you can unscramble the letters to fix the words.

(If you need help, hints are provided upside-down for each word or phrase.)

1. OLVNE ULF

A "new" type of flu.

2. RGSEM

Tiny microbes that can make you sick.
Ick!

3. EWINSI

A fancy word for "pig".

4. ENEZES

Achoo! An animal with a respiratory
germ might have this sign of being sick.

5. ROES HOTTAR

Ouch! Some respiratory germs make it
hard to swallow.

6. SONILOAIT

To protect other animals, a sick animal
might be placed here, all alone.

7. AVOINNACTIC

A veterinarian can protect an animal from
disease by giving this shot. Get the point?

8. TOCONOIZ SAIDSEES

Germs that are shared between
humans and animals can cause these.
