Traveling To or From California?  
Follow These Travel Guidelines

Traveling to or from California? Help prevent the spread of COVID-19 by following these travel guidelines. Read the [CDC’s Travel Guidance](https://www.cdc.gov/travel/covid-19.html).

**Follow CDC Travel Guidance**
All travelers arriving or returning to California from other states or countries should follow [CDC travel guidance](https://www.cdc.gov/travel/covid-19.html).

**Positive Test Result? Isolate and Take Precautions**
All travelers who test positive or develop symptoms of COVID-19 should isolate and follow [public health recommendations](https://www.cdc.gov/travel/covid-19.html).

**Delay International Travel Until You’re Up to Date on Your Vaccines**
If you’re traveling internationally, follow [CDC testing guidelines for international travel](https://www.cdc.gov/travel/covid-19.html) before and after your return to the U.S. Follow all CDC and [California masking guidelines](https://www.cdph.ca.gov/Programs/CID/DCD/COVID19/Pages/CaliforniaMaskingGuidelines.aspx). Stay informed of [CDC travel recommendations by destination](https://www.cdc.gov/travel/covid-19.html) that will warn you about high transmission rates in an area. Be sure to [stay up to date with your COVID-19 vaccinations](https://www.cdc.gov/travel/covid-19.html).

**If You Are NOT Up to Date on Your Vaccines, But Choose to Travel Domestically, Test Before and After**
If you are not up to date on your vaccines, but choose to travel domestically (within the U.S.), test within 3 days before and 3–5 days after travel. If you had a confirmed COVID-19 infection in the past 90 days (approximately 3 months), you do not need to test before or after traveling or stay home after you returned from travel.

**Always Wear a Mask on Public Transportation (Regardless of Your Vaccination Status)**
Masks are required AT ALL TIMES on public transportation (including airports, planes, trains, buses, stations, etc.) into, within, or out of the U.S. Read our [guidance for the face coverings](https://www.cdc.gov/travel/covid-19.html).
