Rare Guillain-Barre Syndrome

By Guillain-Barre Syndrome, the CDC advises that if you have the following symptoms, you should seek medical attention:

- Weakness or numbness in your limbs
- Muscle weakness that gets worse over several hours or days
- Difficulty breathing
- Problems with swallowing
- Fever or chills
- Rapid heart rate

If you or someone you know has any of these symptoms, please call 9-1-1 immediately. If you are not experiencing any of these symptoms, it is important to stay at home and practice social distancing.
