* Total include counts for the entire year selected; year to date (YTD) counts include cases reported with an onset date between January 1 through July 8. Totals and YTD counts for the current year will be the same.

† Counties with no cases reported between 2014-2018 are excluded from the table above. City health jurisdictions (Berkeley, Pasadena, and Long Beach) are excluded from county total.

‡ Los Angeles data are partially reported for 2018.

Note: This report should be viewed as a preliminary "snapshot" of pertussis activity. Because data are preliminary, the information may be updated in later reports as additional case reports are received.
