\* Total include counts for the entire year selected; year to date (YTD) counts include cases reported with an onset date between January 1 through July 22. Totals and YTD counts for the current year will be the same.  
 † Counties with no cases reported between 2010-2018 are excluded from the table above. City health jurisdictions (Berkeley, Pasadena, and Long Beach) are excluded from county total.  
 ‡ Los Angeles data are partially reported for 2018.  
 Note: This report should be viewed as a preliminary "snapshot" of pertussis activity. Because data are preliminary, the information may be updated in later reports as additional case reports are received.
