Syphilis is on the rise in California

GET TESTED

Prevent Congenital Syphilis

If you are pregnant, get prenatal care and get tested for syphilis.

You need to be tested at least twice during each pregnancy:

First Visit
Third Trimester*
Delivery†

*Between 28 and 32 weeks, ideally at 28 weeks.
†Please ask your doctor if you should be tested for syphilis at delivery.

If you are sexually active, even if you are not pregnant, get tested for syphilis.
