

Timothy Tickfinder and his dog Bullseye

Check for ticks!

Timothy checks himself, Bullseye and other members of his family for ticks regularly.

How to remove a tick:

1. Grab the tick close to your skin with the tweezers or a tissue and pull straight out.
2. Wash where the tick bit you.
3. Wash your hands.
4. If you get sick after a tick bite you should go to the doctor.

Sometimes nymphs and adult ticks accidentally bite a person instead of an animal.

Timothy is sure to follow these tips to avoid getting bitten by ticks

- ✓ Wear bug spray.
- ✓ Wear light-colored clothes because it is easier to see ticks on them.
- ✓ Wear long pants and a long-sleeved shirt.
- ✓ Tuck your pants into your socks or boots and tuck in your shirt.
- ✓ Stay on trails.
