DON'T BRING ZIKA HOME

USE EPA-REGISTERED INSECT REPELLENT.

REMOVE STANDING WATER AROUND YOUR HOME.

WEAR PROTECTIVE CLOTHING.

AVOID GOING TO AREAS AT-RISK FOR ZIKA.

Zika is a virus that is spread through the bite of an infected mosquito, or unprotected sex with an infected partner. Most people don’t get symptoms. But symptoms can include fever, rash, joint pain and/or red eyes. While there is no treatment or vaccine for Zika, you can protect yourself, your family, and your community.
