NOTICE OF APPROVAL OF REGULATORY
ACTION

Government Code Section 11349.3

OAL Matter Number: 2018-0427-01

OAL Matter Type: Regular (S)

The Department of Public Health proposed amendments to regulations concerning radiologic technology to clarify that whole body composition procedures (the measurement of total and regional whole body fat and lean tissue mass) are within the existing scope of the X-ray bone densitometry permit category. The amendments also change references to X-ray bone densitometry to dual energy X-ray absorptiometry, or DEXA, for consistency with industry and international usage.

OAL approves this regulatory action pursuant to section 11349.3 of the Government Code. This regulatory action becomes effective on 10/1/2018.
