Tips

Clinic staff do not represent the Tribes.

If you are ever invited to a tribal community event- go- help cook- make it a priority.

Relationships are everything- give them time.

Don't promise more than you can deliver.

Follow through on commitments

Care Model for the Indian Health System

A stylized illustration of a bright yellow sun with a white circle in the center, partially obscured by white, fluffy clouds. The sun and clouds are positioned at the top of the frame against a blue background.

Thank You
