- Column B shows the number of investigations PCB completed during the reporting period, regardless of the date PCB received the complaint.
- Column C shows the difference between complaints received and complaints completed during the respective reporting period (C=A-B). When the value of Column C is positive, the number of open cases increased during that reporting period. When the value of Column C is negative, the number of open cases decreased.
- Column D shows the number of complaints received during the reporting period for which PCB had not completed an investigation as of September 30, 2015.

Diversion allows PCB to monitor work performance and require participation in counseling, education, and/or treatment programs. If the certificate holder does not agree to participate in a diversion program or does not comply with the terms and conditions of diversion, PCB may proceed with suspension or revocation of the certificate.

Table Notes:

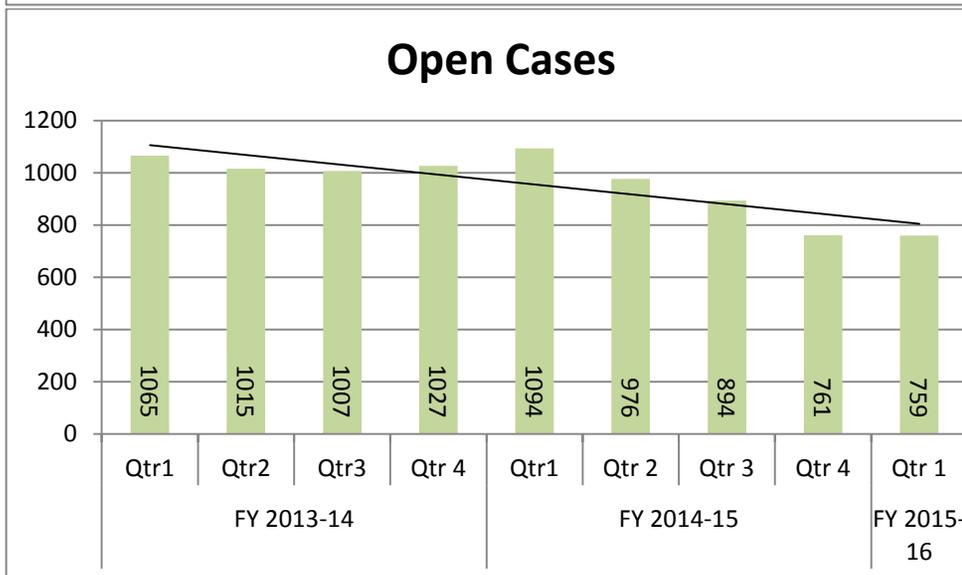

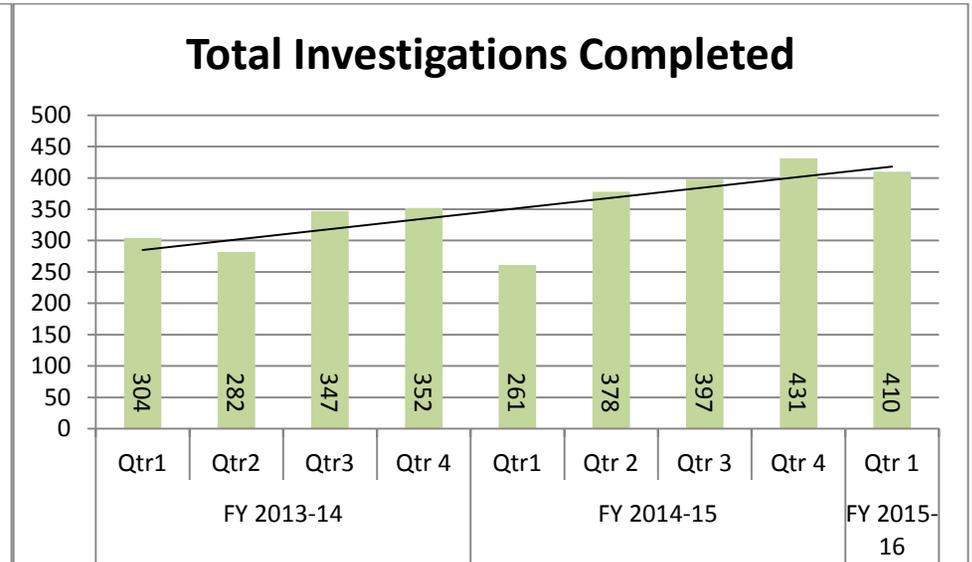

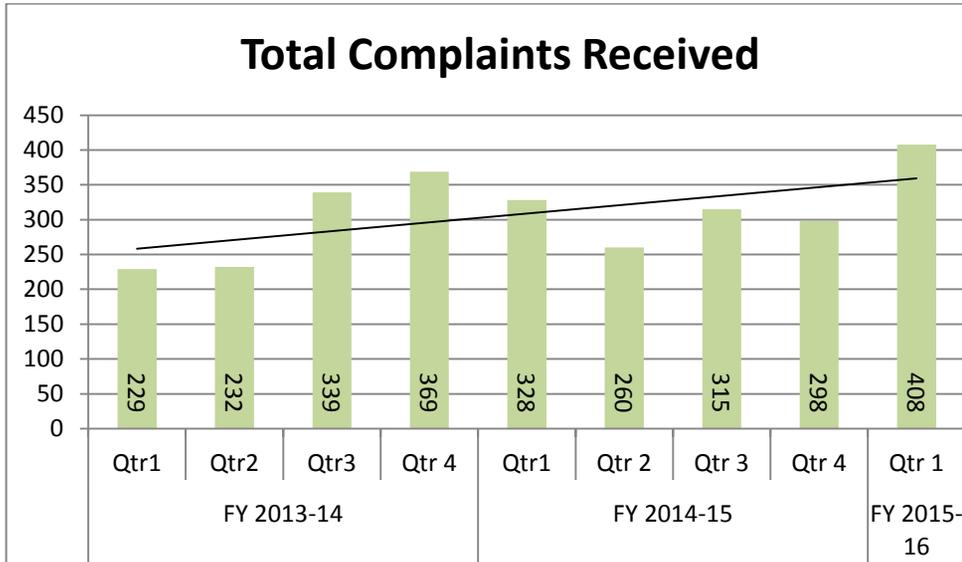

- Column A shows the number of new complaints PCB received during the respective reporting period.
- Column B shows the number of complaint investigations PCB completed in a given reporting period, regardless of the date PCB received the complaint.
- Columns C, D and E show the number and type of disciplinary actions PCB took based on a completed investigation in a given reporting period.
- Column F shows the total number of complaint investigations resulting in disciplinary actions ($F=C+D+E$).
- Column G shows percentage of completed investigations that resulted in disciplinary actions ($G=F/B$).
- Column H shows the number of complaint investigations completed in a given reporting period for which PCB took no disciplinary action ($H=B-F$).
