Executive Summary**Budget Changes and Requests**

The California Department of Public Health (CDPH) Licensing and Certification (L&C) Program has a total estimated budget of \$186.902 million in Fiscal Year (FY) 2013-14 which is an increase of \$4.276 million (2.3% increase) from FY 2012-13. This increase is due to the Major Assumptions approved in the 2013/14 November Estimate in the amounts of \$1.2 million for the Healthcare Associated Infections Program Public Reporting Contract and \$200,000 to reclassify three positions in the Staffing Audits Section to Staff Counsel positions. The remaining increase of \$2.876 million is due to adjustments to the baseline budget made by the Department of Finance: see Page 22 for the summary of changes and the Change in Governor's Budget table below.

L&C requests no additional funding or position authority for Current Year (CY) 2012/13. For Budget Year (BY) 2013/14, L&C requests to eliminate the Nursing Home Administrator Program (NHAP) appropriation and to increase the L&C Special Fund (SF) Appropriation by \$342,000 to support NHAP expenditures. In addition, the L&C Estimate includes a request for 21 positions in BY that will be supported with existing resources within the current L&C SF appropriation.

L&C Current Year 2012/13 Request

	General	Federal	Special	Reimbursement	NHAP	Special Deposit	TOTAL
2012/13 Governor's Budget Authority	\$ 3,700,000	\$ 75,648,000	\$ 86,179,000	\$ 12,916,000	\$ 325,000	\$ 3,858,000	\$ 182,626,000
Total May Revision Estimate Required Funding	3,700,000	75,648,000	86,341,000	12,916,000	163,000	3,858,000	182,626,000
Current Year 2012/13 Request	\$ -	\$ -	\$ 162,000	\$ -	\$ (162,000)	\$ -	\$ -

The transfer of \$162,000 from the NHAP Fund will be absorbed by the Special Fund in CY.

L&C Budget Year 2013/14 Request

	General	Federal	Special	Reimbursement	NHAP	Special Deposit	TOTAL
2013/14 Governor's Budget Authority	\$ 3,700,000	\$ 76,182,000	\$ 88,637,000	\$ 13,116,000	\$ 342,000	\$ 4,925,000	\$ 186,902,000
Total May Revision Estimate Required Funding	3,700,000	76,182,000	88,979,000	13,116,000	-	4,925,000	186,902,000
Budget Year 2013/14 Request	\$ -	\$ -	\$ 342,000	\$ -	\$ (342,000)	\$ -	\$ -

Federal Fund: Centers for Medicare and Medicaid Services (CMS) has not made a final decision on the Federal Fiscal Year (FFY) 2013 grant award nor on the sequestration reduction. Based on communication from CMS to date (April 5, 2013), the sequestration reduction is anticipated to be 2.5% - 3% of FFY 2012 grant awards.

Change in Governor's Budget

CY 2012/13 Compared to BY 2013/14	\$ -	\$ 534,000	\$ 2,458,000	\$ 200,000	\$ 17,000	\$ 1,067,000	\$ 4,276,000
--	-------------	-------------------	---------------------	-------------------	------------------	---------------------	---------------------

Nursing Home Administrator Program Fund Abolishment

The shift of \$135,000 in CY and \$342,000 in BY from the NHAP Fund 0260 to the L&C Special Fund 3098 is required due to the passage of AB 1710, which abolished the NHAP Fund as of January 1, 2013. The NHAP costs are to be charged to the L&C Special Fund and L&C is requesting to move the associated NHAP budget authority to the L&C Special Fund.

Position Summary

	2013/14 MAY REVISION						
	FY 2012/13			FY 2013/14			Request BY 2013/14
	Total Required*	Adjustments**	Adj. Total***	Total Required*	Adjustments**	Adj. Total***	
L&C Positions****	1,151.59	(122.64)	1,028.95	1,151.59	(101.37)	1,050.22	21.27

Total State Positions	1,198.06	(133.11)	1,064.95	1,198.06	(111.84)	1,086.22	21.27
Total State HFENS	533.48	(97.98)	435.50	533.48	(82.35)	451.13	15.63

* The number of positions required to complete 100% of the state and federal mandated workload.

** Due to the current fiscal climate, adjustments are made to not request additional positions for CY 2012/13 or BY 2013/14.

*** The current position authority.

**** Does not include Los Angeles County contract positions.

See Page 21 for the complete position summary.

Introduction

Program Overview:

Health care facilities in California are licensed, regulated, inspected, and/or certified by a number of public and private agencies at the state and federal levels, including the California Department of Public Health (CDPH) Licensing and Certification Program (L&C) and the United States Department of Health and Human Services' Centers for Medicare and Medicaid Services (CMS). CMS contracts with L&C to ensure that facilities accepting Medicare and Medi-Cal payments meet federal requirements. L&C is responsible for ensuring health care facilities comply with state laws and regulations. In addition, L&C oversees the certification of nurse assistants, home health aides, hemodialysis technicians, and the licensing of nursing home administrators.

Estimate Overview:

The Estimate considers all L&C programmatic, fiscal and workload factors and incorporates all working documents and analyses via detailed and major assumptions. Each assumption addresses a separate issue and is fully assessed and evaluated transparently.

This Estimate package consists of:

- **Appropriation Summary by Fund**-a summary of the appropriation and adjustments as it relates to Current Year (CY) and Budget Year (BY). See Pages 5 and 6.
- **Fiscal Summary**-a high level summary by CY and BY which shows the enacted budget changes to the estimate from the previous estimate and any funding/position requests. See Pages 7-11.
- **Detailed Summary**-summaries of Headquarters and Field Operation's (includes LAC and State Facilities Unit) activities and positions by CY and BY and requests as compared to the enacted budget. The detail rolls up to the Executive Summary. See Pages 12-19.
- **Position Summary**-summary of Headquarters and Field Operation's (includes LAC and State Facilities Unit) positions for CY and BY that are required to complete 100% of the L&C workload and adjustment to not request additional positions. See Page 20.
- **Major Assumptions**-a narrative of new, revised or discontinued assumptions which are driven by changes in federal or state requirements, workload changes, new processes or practices or other factors. See Pages 22-24.
- **Detailed Assumptions**-a detailed list of programmatic and workload variables used to build this Estimate. See Pages 25-32.
- **Headquarters Detail**-a description and cost analysis for each program component in headquarters. The detail rolls up to the Detailed Summary. See Pages 33-76.
- **Field Operations Detail**-a description and cost analysis by facility type for Field Operations (available via CD). The detail rolls up to the Detailed Summary.

* Adjustments made to not request additional positions for CY 2012/13 or BY 2013/14 due to the current fiscal climate.

SUMMARY ENDNOTES

Endnotes to the Fiscal Summaries

- 1 Adjustment to baseline cost due to cost calculation and allocation changes.
- 2 Adjustment to baseline cost due to Misc. Baseline Adjustments.
- 3 Adjustment to baseline cost due to General Salary Increase, Other Emp. Comp. Adjustments, and Sec 3.60 PERS Rate Adjustment.
- 4 Adjustment to align the "Adjustment to Not Request Additional Funding" from the November Estimate.
- 5 Adjustment to baseline cost due to General Salary Increase, Other Emp. Comp. Adjustments, and Sec 3.60 PERS Rate Adjustment, Misc. Baseline Adjustments, and Lease Revenue Debt Service Adjustments.
- 6 Adjustment to baseline cost due to Other Emp. Comp. Adjustments, Sec 3.60 PERS Rate Adjustment, Limited Term Pos/ Expiring Programs, One-Time Cost Reductions, and Misc. Baseline Adjustments.

Endnotes to the Detailed Summaries

- 7 Adjustment to baseline cost due to cost calculation and allocation changes.
- 8 Adjustment to baseline cost due to Misc. Baseline Adjustments.
- 9 Adjustment to baseline cost due to General Salary Increase, Other Emp. Comp. Adjustments, and Sec 3.60 PERS Rate Adjustment.
- 10 Adjustment to baseline cost due to Other Emp. Comp. Adjustments, Sec 3.60 PERS Rate Adjustment, Limited Term Pos/ Expiring Programs, One-Time Cost Reductions, and Misc. Baseline Adjustments.
- 11 Adjustment to baseline cost due to Other Emp. Comp. Adjustments, Sec 3.60 PERS Rate Adjustment, and Misc. Baseline Adjustments.
- 12 Adjustment to baseline cost due to Other Emp. Comp. Adjustments, Sec 3.60 PERS Rate Adjustment, Limited Term Pos/ Expiring Programs, One-Time Cost Reductions, and Misc. Baseline Adjustments.

FUTURE FISCAL ISSUES AND MAJOR ASSUMPTIONS

Introduction

Health care facilities in California are licensed, regulated, inspected, and/or certified by a number of public and private agencies at the state and federal levels, including the California Department of Public Health (CDPH) Licensing and Certification Program (L&C) and the United States Department of Health and Human Services' Centers for Medicare and Medicaid Services (CMS). CMS contracts with L&C to ensure that facilities accepting Medicare and Medi-Cal payments meet federal requirements. L&C is responsible for ensuring health care facilities comply with state laws and regulations. In addition, L&C oversees the certification of nurse assistants, home health aides, hemodialysis technicians, and the licensing of nursing home administrators.

L&C has incorporated all development phases into the Estimate and will make requests based on normal growth. Until directed to do otherwise, the L&C program will continue to use the Budget Change Proposal process as a budgetary vehicle for requesting programmatic changes as follows:

- Program changes that are not workload driven
- One-time funding requests
- Requests for non-continuous appropriations

The L&C Program is comprised of the following Headquarters and Field Operations Staff:

Headquarters

Headquarters is comprised of three main components: (1) operational costs for the L&C non-field operations branches including Policy and Enforcement Branch (PEB), Administrative Services Branch (ASB), Systems Technology and Research Branch (STAR), Professional Certification Branch (PCB), Life Safety Code (LSC)/Emergency Preparedness and Disaster Response Branch (EPDRB), and Healthcare Associated Infections (HAI); (2) the base; and (3) the adjustments to the base. The base estimate is the anticipated level of expenditures assuming there will be no changes in direction. The adjustments to the base are the estimated fiscal impacts of new mandates and policies or any program changes which are either anticipated to occur at some point in the future, or have occurred so recently that they are not yet fully reflected in the historical data base.

Field Operations

Field Operations is comprised of three main components: (1) field operational costs for the L&C District Offices including LSC, State Facilities Unit, Centralized Applications Unit, Staff Education and Quality Improvement Section, and costs for the Los Angeles County (LAC) contract, (2) the base, and (3) the adjustments to the base. The base estimate is the anticipated level of expenditures assuming there will be no changes in

direction. The adjustments to the base are the estimated fiscal impacts of normal growth or any program changes which are either anticipated to occur at some point in the future, or have occurred so recently that they are not yet fully reflected in the historical data base.

Federal fund amounts are subject to the funding allocation provided by the CMS grant award, and workload is prioritized according to Tier. Federal funding available at this time covers only the Tier 1 & 2 workload which will be completed during Current Year (CY) and Budget Year (BY). The costs to fully fund the CY and BY workload are presented for display purposes only in the Executive Summary tables and in the Estimate detail. Bottom-line adjustments in the Executive Summary tables offset the increases for which federal funding is not available. The LAC contract is also subject to the same federal funding thresholds in addition to the contracting amounts negotiated between L&C and LAC. The Estimate is based on funding all federal workload; however, adjustments are made to assume only Tier 1 and 2 workloads are completed, to coincide with the funding allocation provided by CMS.

FUTURE FISCAL ISSUES

1. Standard Average Hours (SAH)

The FY 2014-15 November Estimate will include a three-year average for calculating the SAHs each activity type takes to complete. Moving from a one year to a three-year average will allow for greater consistency between SAHs when quantifying workload.

2. Chaptered Legislation

Senate Bill (SB) 135: Hospice Facilities

SB 135 was chaptered into law establishing a new hospice health facility category. The establishment of the facility category aligns California with the federal allowance of a hospice facility and provides standards by which the facilities must maintain compliance. Most standards are congruent with the federal standards. As with all health care facilities licensed by CDPH, the law allows the department to adopt regulations to establish standards determined to be necessary. Until such time a determination for more specific state regulations is made, hospice facilities will be required to comply with those identified in SB 135 and specified federal standards.

The enrolled bill report factored in the need for a limited term position to draft regulations for this new facility category. The department does not identify the urgency of these regulations within the current or budget year; would like to reserve the right to ask for resources later once the program is up and running and more experience is gained from the operation of this new licensure category.

Assembly Bill (AB) 377: Hospital Pharmacy

AB 377 was chaptered into law permitting a hospital pharmacy to repackage/re-label drugs for delivery to another pharmacy or hospital under common ownership located within a 75-mile radius.

The fiscal impact of AB 377 made a liberal estimation that all hospitals under common ownership would take advantage of this allowance which would generate a considerable increase in the workload of L&C pharmaceutical staff. Because it is unknown how many hospitals will actually take advantage of this option, the department does not want to inflate the need for immediate resources for the budget year; however, the department wishes to reserve the right to ask for resources later if many hospitals establish a centralized hospital packaging pharmacy.

3. STAR-Staffing Audits Section (SAS)

The SAS ensures Skilled Nursing Facilities (SNF) comply with the State's required nursing hours per patient day (NHPPD) by conducting unannounced audits and investigating complaints about SNF staffing levels. This workload was established in the original FY 2010-11 May Revise Letter (MRL) titled: HQ-03, Quality and Accountability Payment System for Freestanding Skilled Nursing Facilities, and was based on conducting only a single 3.2 staffing audit annually in all free-standing SNFs. In addition, the SAS may assess administrative penalties when a SNF fails to meet the NHPPD requirements pursuant to Section 1276.5 of the Health and Safety Code (HSC). When a penalty is assessed, the facility may file an appeal. L&C has determined that the workload to conduct quality assurance and appeals are necessary.

The SAS will continue to review all audit and appeal workload activities mandated under Assembly Bill 1629 (Chapter 875, Statutes of 2004) and Senate Bill 1312 (Chapter 895, Statutes of 2006), now HSC sections 1279 and 1422 and would like to reserve the right to ask for resources later to meet any workload needs as necessary.

NEW MAJOR ASSUMPTIONS

There are no new major assumptions to report at this time.

DISCONTINUED MAJOR ASSUMPTIONS

There are no discontinued major assumptions to report at this time.

DETAILED ASSUMPTIONS

Fiscal Years 2012/13 and 2013/14

1. Authority Methodology:

- Licensing Authority- The provisions of Health & Safety (H&S) Code Sections 1254, 1282 and 1417 require the L&C program to license health facilities that do business in California.
- Certification Authority- CDPH's contract with the federal Centers for Medicare and Medicaid Services (CMS), as well as provisions of California's Medicaid State Plan, requires L&C to certify facilities for participation in Medicare (Title XVIII) and /or Medi-Cal (Title XIX). In conducting these activities, L&C develops and enforces state licensure standards, conducts inspections to assure compliance with federal standards for facility participation in Medicare and /or Medi-Cal, and responds to complaints against providers licensed by CDPH.

2. Facility Counts:

- A health facility means any facility, place, or building that is organized, maintained, and operated for the diagnosis, care, prevention, and treatment of human illness, physical or mental, including convalescence and rehabilitation and including care during and after pregnancy, or for any one or more of these purposes, for one or more persons, to which the persons are admitted for a 24-hour stay or longer.
 - a. Facilities are counted by facility type i.e. SNF (Skilled Nursing Facility), General Acute Care Hospital (GACH), Home Health Agency (HHA), etc.
 - b. Only active and open main facilities are counted for purposes of this Estimate.
 - c. For some facility types, there may be a difference in the number of licensed facilities versus the number of certified facilities. This is due to some facilities being licensed only or certified only. Additionally, there may be minor discrepancies due to the use of a different data source required by CMS and/or the timing of data reconciliation activities.

3. Survey Activities:

- Licensing survey activities are based on state mandated requirements. Only licensed and licensed/certified facilities are covered in the state survey requirements. State licensing survey includes the following activities performed by surveyors:
 - a. Re-licensure
 - b. Re-licensure - Follow-up
 - c. Initial Licensure
 - d. Initial Licensure - Follow-up
 - e. Complaint Investigations/Entity Reported Investigation (ERI)
 - f. Field Visits
- Certification survey activities are based on federal CMS Tiered activity requirements. Only certified facilities and licensed/certified facilities are covered

in the federal CMS survey requirement. Federal certification survey includes the following activities performed by surveyors:

- a. Re-certification
- b. Re-certification – Follow-up
- c. Initial Certification
- d. Initial Certification – Follow-up
- e. Life Safety Code
- f. Life Safety Code – Follow-up
- g. Complaint/ERI Investigation – Certification
- h. Complaint Validation
- i. Validation
- j. Validation – Follow-up
- k. Informal Dispute Resolution
- l. Federal Hearings
- m. Pre-Referral Hearings
- n. Monitoring Visits

4. Surveyor Timekeeping System

The provisions of H&S Code Section 1266(d) require L&C to capture and report workload data by category (survey activity and facility type) which prompted the development and implementation of the Surveyor Timekeeping System (STS). In June 2011 the STS system was automated and renamed to Time Entry and Activity Management (TEAM). The TEAM system captures data on the number of survey counts and the total hours spent for each survey activity to determine the standard average hours it takes to accomplish specific workload. The L&C Program used TEAM FY 11/12 data to develop the Estimate workload for FYs 2012/13 and 2013/14.

5. Workload Survey:

- Survey workload is either state mandated (licensing survey) or federal CMS mandated (certification survey).
- The annual workload is calculated based on a methodology that includes facility count, annualized survey frequency rate, and the standard average hours for each activity.

6. Standard Average Hours (SAH):

SAH are the annualized average hours each activity type takes to complete. The SAH are derived from the L&C TEAM system.

7. Workload Hours:

Annualized survey frequency rate is determined by the corresponding State or Federal mandated survey requirements multiplied by the standard average hours.

8. Surveyor Personnel Years

It is assumed there are 1,800 hours per personnel year (PY). In FY 2011/12, an average of 75%, or 1,343 hours per PY, were associated with direct survey activities. The remaining 25%, or 457 hours per PY, were used for administrative activities. Therefore, total estimated survey workload hours were divided by the

direct surveyor hours per position of 1,343, and the relative percentage of administrative hours (25%) were added before dividing total estimated workload hours by 1,800 hours (standard annual hours per personnel year).

9. Position Classification Costing

- Salaries for Headquarters and Field Operations Administrative staff are based on the mid-step salary range and varying rates of travel reflected in the OE&E costs in Attachment B. Salaries for L&C surveyor position classifications [Health Facilities Evaluator Nurse (HFEN), Health Facility Evaluator (HFE) I and Consultants] costs are based on the maximum salary range. Operating Expense and Equipment (OE&E) costs are based on standard costs for the Department and include high travel for all surveyors and additional training costs of \$2,217 per HFEN Surveyor. Salaries for supervisory and clerical staff are based on the mid-step salary range and have high travel and no travel respectively. Attachment A provides salary and benefit rates and total OE&E costs by classification. Below are the OE&E Costs Chart used for this estimate.

Operating Expenses and Equipment

STANDARD COSTS	2012/13	2013/14
General Expense	\$ 3,300	\$ 3,300
Printing	1,700	1,700
Communications	1,300	1,300
Travel – Light	3,000	3,000
Travel – Medium	7,500	7,500
Travel – High	13,000	13,000
Training	300	300
Facilities	10,300	10,300
Data Center	300	300
Office Automation		
HFEN Training	\$ 2,217	\$ 2,217

- Cost factors for Los Angeles County (LAC) surveyor and supervisory classifications are based on the current salary levels for FY 2012/13 as listed in agreement #12-10082.

10. Staffing Ratios:

State Ratios:

- L&C: The allocation of the HFE II Supervisor positions is computed using a (1:6) ratio: 1 HFE II Supervisor for every 6 HFENs.
- L&C: The allocation of the Program Technician (PTII) is computed using a (1:6) ratio: 1 PTII for every 6 of the combined HFENs/HFE II Supervisor.

Federal Ratios:

- L&C: The allocation of the HFE II Supervisor positions is computed using a (1:5) ratio: 1 HFE II Supervisor for every 5 HFENs.
- L&C: The allocation of the Program Technician (PTII) is computed using a (1:5) ratio: 1 PTII for every 5 HFENs.

Los Angeles County (LAC) Ratios:

- Position classification ratios are based on the compliment of current staff percentages as listed in the current LAC agreement. Current levels are (12:1) for HFENs to Supervising Health Facilities Evaluator Nursing, and (5:1) for HFENS to Word Processor II positions.

11. OE&E Standard Training Cost Supplement for HFENs:

Turnover for HFENs in FY 2011/12 was 20%. This percentage was applied to the OE&E costs of \$2,217 per HFEN and divided by all HFENs being requested. This amounts to a \$400 adjustment for training per HFEN.

12. All surveyor workload and related administrative costs through LAC Contract #12-10082 is displayed separately. The current amount of \$26,951,252 serves as the base for LAC. See Appropriation Summary by Fund for detail.**13. The FY 2012/13 complaint workload is consistent with the complaint workload in FY 2011/12.****14. FY 2012/13 and 2013/14 Federal Grant amounts are estimated. The FY 2012/13 Federal Grant will be approved in the Spring of 2013, and the FY 2013/14 May Revise will reflect the approved Federal Grant amount.****15. Workload calculations and costs are displayed by each facility type, and footnotes are entered throughout the displays and summaries. For footnote legend information, see Attachment A, "Footnote Legend."****16. All Nursing Home Administrator Program Costs are charged to the L&C Special Fund, 3098, beginning in FY 2013/14.****Changes to Detailed Assumptions from 2013/14 November Estimate to the 2013/14 May Revision Estimate**

- Item 16 was added to acknowledge that the Nursing Home Administrator Program Fund (NHAP), 0260, was abolished pursuant to Assembly Bill 1710 (Chapter 672, Statutes of 2012), and those costs will be redirected to the L&C Special Fund, 3098, beginning in FY 2013-14.

FOOTNOTE LEGEND**Attachment A****Footnotes to the Headquarters and Field Operations Detail.**

- a / Based on ELMS open and active list of licensed only, certified only, and licensed/certified main facilities as of 07-01-2012.
- b / Number of activities are based on mandated and projected workloads for both licensing and certification.
- c / Workload hours are calculated based on surveyor activities multiplied by the Standard Average Hours (SAH). SAH is based on average total hours per activity item and is determined by dividing the total activity hours (i.e., direct activity hours including facility admin hours) by the number of survey activities or complaints.
- d / Surveyor personnel years (PY) are calculated based on 1,800 hrs. per PY.
- e / HFE I positions are used to perform life safety code surveys only.

Administrative Services Branch (ASB)

Administrative Services Branch (ASB) provides administrative, operational, personnel and fiscal services to the Licensing and Certification (L&C) program. ASB consists of the Personnel Liaison and Business Services Section, managed by a Staff Services Manager II which includes the Personnel Liaison Unit and the Business Services Unit; and, the Fiscal Operations Section, managed by a Staff Services Manager II which includes the Budget and Fiscal Services Unit and the Grant and Fiscal Assessment Unit. ASB is responsible in providing personnel management and business services for the L&C program, including resources for hiring practices, supervision, performance management, purchasing process, communications, fleet administration and facilities management. ASB also provides fiscal and budgetary/estimate services and support to L&C including federal grant development and administration, licensing fees, and administrative penalties and citation revenue collection.

ASB - Fiscal Operations Section**Budget and Fiscal Services Unit**

The Budget and Fiscal Services Unit (BFSU) ensures the integrity of the Licensing and Certification Program through the management and oversight of budgets, fee development, and estimates. BFSU serves the L&C Headquarters and Division Offices directly and serves as a fiscal liaison with the CDPH Budget and Accounting Offices, the Department of Finance, Health and Human Services Agency, Legislature, Legislative Analyst's Office and the public.

Grant and Fiscal Services Unit

The Grant and Fiscal Assessment Unit (GFAU) ensures the fiscal integrity of the Licensing and Certification (L&C) Program through the management and oversight of timekeeping, facility license renewals, CMS federal grant, and monetary penalty assessments. GFAU serves the licensed and certified health care facilities so that they can legally do business in California. The unit works with staff from L&C Headquarters and Division Offices regarding fees, citations and the federal grant and serves as a fiscal liaison with the CDPH Budget, Accounting and Legal Offices, the Department of Finance, Health and Human Services Agency, Legislature, Legislative Analyst's Office, the Centers for Medicare and Medicaid Services and the public.

ASB - Personnel Liaison and Business Services Section**Personnel Liaison Unit**

The Personnel Liaison Unit (PLU) serves Licensing and Certification (L&C) Headquarters and 14 District Offices by processing all Requests for Personnel Action (RPA) in the hiring of new employees to State service, inter-departmental transfers and promotions.

Business Services Unit

The Business Services Unit serves the L&C Headquarters and District Office staff and is the operational liaison between L&C District Offices, CDPH Accounting Offices, Program Support Branch, and Department of General Services. Operational functions include, but are not limited to, invoice processing and monitoring, facility operations and fleet administration management, telecommunications, ergonomic evaluation coordination, CalATERS management oversight, and monitoring the L&C Main Switch Phone Line.

Policy and Enforcement Branch (PEB)

The Policy and Enforcement Branch consists of two Sections, the Policy Section and the Certification and Regulations Section. The mission of the Branch is two-fold: 1) to promote Statewide standardization and consistent application of regulatory requirements governing health care facilities licensed by the Licensing and Certification Program and 2) to maintain effective oversight of requests for Medicaid-certified healthcare facilities. The Branch accomplishes its mission by writing bill analyses for proposed legislation, adopting state licensing regulations, developing policies and procedures and health care facility notices, and providing timely processing and tracking of Medicaid certification requests and associated certification enforcement actions.

PEB - Certification and Regulation Section

The Certification and Regulation Section provides two levels of services to health care providers to promote the highest quality of care.

The first level of service is provided by the Provider Certification Unit (PCU). PCU certifies health care providers based on applicable state and federal statutes, regulations, rules, policy, procedures and specific standards that govern the Medi-Cal certification program. PCU is the final checkpoint, ensuring that health facility providers wishing to be reimbursed with Medi-Cal funds meet all applicable Title XIX standards. PCU is also responsible for tracking Title XIX enforcement actions against licensed and licensed-exempt (with federal certification requirements) health facilities that fail to meet the Title XIX certification regulations. PCU issues decertification notices, notifies Medi-Cal of decertification actions, and represents the Division in administrative hearings related to these actions.

The second level of service is provided by the Registered Nurse Unit (RNU). RNU analyzes legislation, writes regulations, researches departmental policies and procedures and makes independent determinations of the need for regulatory requirements for more than 30 different health facility categories. To maintain consistent compliance with all levels of program requirements, RNU provides educational offerings to internal and external stakeholders on reporting laws, rules, and regulations as well as clinical issues related to Home Health Care, Skilled Nursing Care and Long Term Care in relation to the requirements of the Outcome and Assessment Information Set (OASIS) and Resident Assessment Instrument (RAI)/Minimum Data Set (MDS) programs.

PEB - Policy Section

CDPH's L&C Program responsibility extends to more than 30 types of health care facilities and providers. The Policy Section initially researches and then writes bill analyses for legislative proposals impacting the health facility categories overseen by the L&C Program, which includes providing expert information for legislative testimony and responding to legislative and administrative inquiries. In addition to these inquiries, the Policy Section responds to inquiries from stakeholders and the public from across the United States. The Policy Section consults with medical professionals, legal services, provider associations, advocates, program staff and sources nationwide, as appropriate, in the development of recommendations for the adoption or the development of guidance, policies and procedures. The Section's All-Facility Letters or other guidance advises the public and health care facilities of program changes or implementation of new statutory provisions. This section also conducts research and analysis into healthcare program needs, statutory and regulatory authority, and their impact on the public, providers and patients/residents.

STAR - Research & Data Management Section

The Research and Data Management Section focuses on providing complex scientific research studies of major scope on policy issues relative to licensed and certified facilities and personnel licensed by the California Department of Public Health. The section prepares policy and scientific research reports for publication as well as a scientific technical consultation on identifying, analyzing and further defining health issues in collaboration with county and state agencies. The section benefits L&C and public health in general by identifying issues in the near term, intermediate term, and long term that affect the delivery of healthcare systems and regulated entities in California. It maintains databases and analytic tools that provide L&C with data and information for making decisions on a department-wide basis.

STAR - Program Application Systems Support (PASS) Section

Program Application Systems Support (PASS) provides timely and quality IT customer service to L&C headquarters and district offices. PASS coordinates the activities between the section's three units (Federal System Support (FSU), Technical Support Unit (TSU) and Certification & Licensing Application System Support Unit (CLASS) to ensure seamless support (interfacing between network, desktop and automated systems) is provided to L&C IT users. PASS oversees the daily operation in maintaining and supporting L&C's IT assets (servers, desktops/laptops, printer and standard desktop software) and automated systems support activities performed within the Section.

PCB - Aide/Technician Certification Section (ATCS)

The Aide and Technician Certification Section's (ATCS) mission is to ensure nurse assistants, home health aides, and hemodialysis technicians have the skills and competency required to meet the needs of residents/patients. ATCS certifies nurse assistants (CNAs), home health aides (HHAs) and hemodialysis technicians (CHTs) and maintains a registry for these categories of health care workers. ATCS is also responsible for review, approval/disapproval, and oversight of CNA/HHA/CHT training programs, competency evaluation programs, and continuing education providers.

PCB - Criminal Background Section

The Criminal Background Section's (CBS) mission is to enhance resident's health and safety by reducing the ability of a nurse assistant, certified nurse assistant, home health aide, direct care staff with an Intermediate Care Facility, and specific individuals associated to Home Health Agencies (HHA) and Adult Day Health Care Centers (ADHC) with a criminal record to work in a health care field regulated by the California Department of Public Health (CDPH).

The Criminal Background Section (CBS) is comprised of the Criminal Background Investigation Unit (CBIU), Criminal Background Clearance Unit (CBCU), and the Criminal Conviction Unit (CCU). The CBS is responsible for retrieving and analyzing the criminal offender record information (CORI) received from the California Department of Justice to identify the type of criminal conviction(s) and if the criminal conviction(s) impacts the criminal record clearance approved/denied by the CBS.

PCB - Aide/Technician Certification Section (ATCS)

The Aide and Technician Certification Section's (ATCS) mission is to ensure nurse assistants, home health aides, and hemodialysis technicians have the skills and competency required to meet the needs of residents/patients. ATCS certifies nurse assistants (CNAs), home health aides (HHAs) and hemodialysis technicians (CHTs) and maintains a registry for these categories of health care workers. ATCS is also responsible for review, approval/disapproval, and oversight of CNA/HHA/CHT training programs, competency evaluation programs, and continuing education providers.

Citation Review Unit

The Citation Review Unit provides the legal support needed for AA citations that were issued to long-term care facilities, which includes reviewing disputes made on findings from investigations of complaints received by CDPH and conducting hearings for formal appeals. An AA citation is a violation that has been “determined to have been a direct proximate cause of death of a patient or resident of a long term care facility.” In any action to enforce an AA citation, the California Department of Public Health (CDPH) must prove that the 1) violation was a direct proximate cause of death, and 2) the death resulted from an occurrence of a nature that the regulation was designed to prevent (Health and Safety Code Section 1424(c)).

Temporary Manager Activities

-The California Department of Public Health, Licensing and Certification (L&C) Program , is statutorily authorized to appoint a Temporary Manager (TM) when specific serious quality of care and/or financial difficulties exist and it determines the current facility ownership does not have the ability to correct deficiencies.

-A TM is defined as the person, corporation, or other entity, appointed temporarily by the Department as a substitute facility manager or administrator with authority to hire, terminate, or reassign staff, obligate facility funds, alter facility procedures, and manage the facility to correct deficiencies identified in the facility’s operation [HSC Section 1325.5(b)].

-Upon appointment, the TM shall take all necessary steps and make best efforts to eliminate immediate danger of death or permanent injury to residents or complete transfer of residents to alternative placements [HSC Section 1325.5(d)].

-Pursuant to HSC Section 1325.5(j), the TM appointed pursuant to the HSC shall meet the following qualifications:

- (1) Be qualified to oversee correction of deficiencies on the basis of experience and education.
- (2) Not have been found guilty of misconduct by any licensing board.
- (3) Have no financial ownership interest in the facility and have no member of his or her immediate family who has a financial ownership interest in the facility.
- (4) Not currently serve, or within the past two years have served, as a member of the staff of the facility.
- (5) Be acceptable to the facility.

-When a District Office Manager identifies a long-term care facility(ies) (Any skilled nursing facility, intermediate care facility, intermediate care facility/developmentally disabled, intermediate care facility/developmentally disabled habilitative, intermediate care facility/developmentally disabled--nursing, or congregate living health facility licensed, pursuant to HSC §1326) with non-compliance that rise to either of the standards below, a Recommendation for Appointment of a Temporary Manager form and supporting documentation (2567s, citations, compliance history, etc) is submitted to the L&C Deputy Director and the Office of Legal Services for review and approval. Upon a signed written agreement between the Temporary and the Department, costs incurred are reimbursed from either the State Health Facilities Citation Fund or the Federal Health Facilities Citation Penalty Account.
