

Dear Grandparent:

The staff of the California Sudden Infant Death Syndrome Program and your local Public Health Nurse wish to express our deepest sympathy and concern on the loss of grandchild. We know this this is a sad and painful time for you and your grandchild's parents. We would like to offer our support and help. We are here to answer your questions and, if you wish, to put you in touch with others who have lost their baby to SIDS. It can be very comforting to talk to other people who have gone through the same experience as you are going through now.

We have enclosed a fact sheet and some pamphlets about SIDS for you to read when you are ready. We have been told by parents and family members that knowing the correct information about SIDS helped them better deal with their baby's death.

Please feel free to call your local Public Health Nurse at the number listed below if you would like more information or have questions.
