TO: ADAP COORDINATORS
ADAP ENROLLMENT WORKERS IN LOS ANGELES, RIVERSIDE,
SAN BERNARDINO, AND SANTA CRUZ COUNTIES

SUBJECT: IMPORTANT UPDATE FOR ADAP ENROLLMENT APPLICATION
PROCESSING

The Low Income Health Program (LIHP) is a new program administered by the California Department of Health Care Services (DHCS) that is being established at the county level in California. This program is part of DHCS's "Bridge to Reform" Section 1115 Waiver proposal. The Federal Bridge to Reform Waiver authorizes a health care initiative expanding coverage to uninsured adults, 19 to 64 years of age, with incomes up to 200 percent of the federal poverty level (FPL), legal residents, and not otherwise eligible for Medi-Cal.

LIHP consists of two benefit levels, the Medicaid Coverage Expansion (MCE) (required of all LIHPs) and the Health Care Coverage Initiative (HCCI) (optional) programs. Both MCE and HCCI provide health care benefits (e.g., medical and medication) to eligible adults. It is important to note that **individuals with private insurance or Medicare are eligible for MCE**, but do not qualify for HCCI.

For more information regarding LIHP, please visit DHCS' website at:
<http://www.dhcs.ca.gov/provgovpart/Pages/LIHP.aspx>.

LIHP Screening and Application for ADAP Clients

As stated in the December 22, 2011, ADAP Management Memo No. 2011-06
(<http://www.cdph.ca.gov/programs/aids/Documents/ADAPMM201106LIHP.pdf>), as an

interim process, ADAP Enrollment Workers in all counties were to inform Ramsell (the ADAP statewide pharmacy benefits manager) of any ADAP clients that had become enrolled in LIHP by using the Client Update Form. Effective July 1, 2012, this interim process is no longer necessary for ADAP clients that are enrolling or recertifying in the following counties: **Los Angeles, Riverside, San Bernardino, and Santa Cruz**. On July 1, 2012, the ADAP enrollment/recertification process, accomplished through Ramsell, will begin tracking client eligibility status for LIHP. For clients enrolled in LIHP prior to July 1, 2012, the ADAP Enrollment Workers should have updated Ramsell with this information as the information became available.

New enrollment forms that include LIHP-related questions will be activated on the Ramsell ADAP enrollment website in your county on July 1, 2012. These forms will require the ADAP Enrollment Worker to determine if the client may be eligible for LIHP and track the client's LIHP application process as described below. The new forms will be activated on July 1, 2012, in the four LIHP counties specified above.

Any ADAP applicant who may qualify for LIHP must be referred to apply to LIHP. Enclosed for your reference are LIHP Overviews for each of the four counties, which include county-specific eligibility criteria. Each ADAP enrollment site should use these eligibility criteria to define their own local LIHP screening criteria. Note that the counties use a variety of program names for their LIHP (see table below).

County	Name of County LIHP
Los Angeles	Healthy Way LA
Riverside	Riverside County HealthCare
San Bernardino	ArrowCare
Santa Cruz	MediCruz Advantage

ADAP Enrollment Workers who do not refer an ADAP applicant to apply for LIHP must indicate the reason for the LIHP non-referral (e.g., income exceeds FPL, county has a LIHP enrollment cap, etc.) and obtain proof substantiating the non-referral reason.

The ADAP applicant has 30 days after the date of initial ADAP application/recertification to provide proof of LIHP application. (Note: this is consistent with the 30-day grace period allowed for ADAP clients that must apply to Medi-Cal.) During this period, the client will continue to be eligible for ADAP services. Failure to provide the required proof within 30 days will result in ADAP eligibility suspension until such proof is provided. If the client presents at an ADAP pharmacy, the client will receive a last fill for a 30-day supply of medication. (Please see the enclosed document, LIHP Screening during ADAP Enrollment and Recertification in Counties Currently Screening ADAP Clients for

LIHP.) Once s/he has provided that proof of LIHP application, a **LIHP application processing grace period** is established based on how long it typically takes the county LIHP to complete the processing of LIHP applications and make an eligibility determination. The grace periods for the counties are:

County	Grace Period In Calendar Days
Los Angeles	90 days
Riverside	60 days
San Bernardino	60 days
Santa Cruz	45 days

During the LIHP application processing grace period, the ADAP applicant will have interim eligibility and receive ADAP services. Prior to the end of the grace period, the ADAP applicant must provide proof of their LIHP eligibility determination and the ADAP Enrollment Worker must reflect this in Ramsell. Failure to provide the required proof within the county specific grace period listed above will result in ADAP eligibility suspension until such proof is provided. If the client presents at an ADAP pharmacy, the client will receive a last fill for a 30-day supply of medication. Once the Enrollment Worker updates Ramsell with the date of LIHP enrollment, the client will no longer have access to medications through ADAP and must be referred to a LIHP pharmacy to obtain their medications. If the ADAP applicant provides a valid denial for LIHP eligibility, the grace period is removed and ADAP eligibility is maintained. Failure to cooperate with the LIHP application process or requirements is not a valid reason for denial. Documentation of LIHP enrollment or valid denial must be maintained in the ADAP client file.

If the LIHP application grace period has expired and the LIHP application has not been processed by the county, the client must provide proof that the LIHP application/eligibility determination is still pending. The ADAP Enrollment Worker must request a grace period extension/justification for the pending LIHP application, using the ADAP Update Form. The LIHP application grace periods will be reviewed by the Office of AIDS (OA) prior to approval. If OA finds that a LIHP application processing grace period listed in the preceding table subsequently changes, then OA will adjust the grace period for that county.

Ramsell's Website

Effective July 1, 2012, the Ramsell secure website for ADAP enrollment processing will track LIHP screening in the identified LIHP counties. ADAP Enrollment Workers will be

required to answer the client questions pertaining to LIHP and provide updates as the client moves through the LIHP screening and application process.

The ADAP paper application has also been updated and contains all of the LIHP screening questions that must be completed by ADAP Enrollment Workers in the identified LIHP counties. Access to the updated application can be obtained in the "Forms" section of the Ramsell secure website at: www.publichealthrx.com.

If you have questions regarding the Ramsell secure website or the application form, please contact a Ramsell Client Support Representative at 1 (888) 311-7632, option 8.

Mandatory Enrollment Worker Training for LIHP Screening

The California Department of Public Health, OA, and Ramsell will be conducting four Webinar trainings for all ADAP Enrollment Workers located in the four counties that will initiate ADAP LIHP Screening on July 1, 2012. The training will provide ADAP Enrollment Workers with technical assistance and instructions for completing the new LIHP screening process that has been incorporated into the ADAP enrollment process. The one and one-half hour training, plus additional time allowed for questions and answers, will review both the manual and electronic application processes.

Ramsell will send Webinar training registration very soon. You must register in order to attend the Webinar training. If you have any additional questions, please contact a Ramsell Client Support Representative at 1 (888) 311-7632, option 7. Training dates and times are as follows:

Friday, June 22, 2012	9:30 - 11:30 a.m.
Tuesday, June 26, 2012	1:30 - 3:30 p.m.
Thursday, June 28, 2012	9:30 - 11:30 a.m.
Monday, July 2, 2012	1:30 - 3:30 p.m.
