

Improving Eligibility and Consent Documentation

September 20, 2012

teamwork

teamwork

Improving Data Collection

- The State Office of AIDS (OA) works with providers to improve the quality of data that is collected and entered into ARIES.
- Today we're going to discuss documentation of :
 - HIV Status Documentation
 - ARIES Client Share/Non-Share Consent Form Documentation

Why is HIV Status Documentation Important?

- All Ryan White Providers must screen and document client eligibility for services in the client file and the program database-ARIES.
- There are two eligibility documentation requirements:
 1. **Proof of HIV status**
 2. Proof of Residence

Why is HIV Status Documentation Important?

- Under the law, RW programs must serve as the “payer of last resort” for eligible clients.
- Ensuring proper eligibility documentation is a major focus for HRSA.
- New monitoring standards focus on regular client eligibility screening and documentation.
- OA is required to monitor that all RW providers are in compliance with documenting client eligibility.

ARIES Client Share/Non-Share Consent Form and HIV Status Documentation in ARIES

- OA Programs require the ARIES Client Share/Non-Share Consent Form and HIV Documentation to be collected and entered into ARIES.

Eligibility Documents Data Elements	Required for		
	HIV Care Program	Medi-Cal Waiver Program	Housing Opportunities for People with AIDS
ARIES Consent form	X	X	X
HIV Documentation	X	X	X

*Please note that these requirements also apply to Ryan White Parts A, C, D, and F.

ARIES Client Share/Non-Share Consent Form

- Ensures that the client has consented to his or her personal information being entered into ARIES.
- Indicates whether or not the client will be a share or non-share client.
- Every agency that serves the client needs to retain its own form and enter it into ARIES...
 - For example, if Agency A and Agency B serve Client 1, both Agency A and Agency B need to have their own signed copies of the form in Client 1's chart and enter it into ARIES.

ARIES Client Share/Non-Share Consent Form

- Providers must ensure that clients renew the ARIES Consent Form once every three years.
- All providers should use the ARIES Consent Form dated July 2010, which is available at www.projectaries.org.

ARIES Client Share/Non-Share Consent Form

- A new form needs to be signed whenever clients change their share status. Each agency is responsible for identifying changes among their clients and obtaining new forms as needed. There are two ways to identify changes in share status:
 - Compare the share status on a client's "Agency Specifics" screen to the last signed consent form in the client's paper file.
 - Run the *Share Status Change Report*, which is located under Reports > Compliance, every 30 to 60 days. If there is a change, enter a Client Alert on the Agency Specifics screen to remind staff to obtain a new consent form when the client comes in for his or her next visit.

ARIES Client Share/Non-Share Consent Form

- Note that clients served in counties with “Local Share Mandates” are all share clients, with some exceptions.
- Providers under Local Share Mandates should obtain their county-specific ARIES Consent Forms from their administrative agencies.
- For information on becoming a “Local Share Mandate” county please review ARIES Policy Notice C6 – Local Share Mandate at:
<http://www.cdph.ca.gov/programs/aids/Documents/APN-C6.pdf>

ARIES Client Share/Non-Share Consent Form

- Local Share Mandate Counties include:
 - San Bernardino/Riverside
 - San Diego
 - San Francisco
 - San Mateo
 - Santa Clara

HIV Documentation

- Ensures that providers have confirmed and documented the client's HIV status as part of client eligibility determination.
- In ARIES, this can include:
 - “HIV Letter of Diagnosis”
 - “Proof of Diagnosis”
- Note that you can select “Proof of Diagnosis” for other acceptable means of HIV proof, such as a confirmatory lab result.

HIV Documentation

- “HIV Letter of Diagnosis” or “Proof of Diagnosis” is generally collected at client intake and needs to be entered into ARIES one time only.
- For non-share clients, each agency needs to retain and enter its own HIV Letter of Diagnosis.
 - For example, if Agency A and Agency B serve Client 1, who is non-share, both Agency A and Agency B need to have documentation of HIV diagnosis in Client 1’s chart and enter it into ARIES.

HIV Documentation

- For share clients, however, only one agency that serves the client needs to retain proof of HIV status.
 - For example, for a share client, if Agency A and Agency B serve Client 1, Agency A can have the client's proof of HIV+ status, and Agency B can rely on Agency A's record in ARIES in determining the client's eligibility.
 - In the above scenario, Agency B should also print out a paper copy of the Client 1's Eligibility Documents screen in ARIES and place it in the client's chart.

Entering Eligibility Documents

- We will review the steps for entering eligibility documents for a client in ARIES.
- We will also give tips for collecting this information accurately.

Begin by searching for the client record.

DEMO DEMO DEMO DEMO DEMO DEMO DEMO

Client Search

To find a client, or to check if a client is new to your agency, enter in some or all of the following information. You may use the wildcard *.

Last Name

First Name

Middle Initial

Client ID

SSN

Date of Birth

Display results

Search Related/Affected Individuals

Note: The screen shots displayed show dummy data from our ARIES Test system.

Click "Search"

If the client record is found, ARIES brings you to the Demographics tab.

The document entered appears on this screen

When "Pending" is "Yes," the "Edit" button appears

When entering eligibility document data...

- DO NOT edit an existing ARIES Consent Form record that has expired.
- DO NOT enter sensitive data (e.g. mental health, substance abuse, legal, etc.) in the Source and Notes fields.

But please do...

- Run the “Pending Eligibility Documents” report (under the Report > Client menu), and go back and edit document records with a “Pending” status and update accordingly.
- If client HIV documentation is retained at another agency, print out your share clients’ Eligibility Documents screen in ARIES and place it in their charts.
- Enter clients’ share status in the ARIES Consent Form Notes field.

Cleaning up eligibility document data...

- We hope these guidelines help improve data quality moving forward.
- However, some of your records may need some attention. We have designed a fix-it report that will help you find records in your agency that need corrected and/or updated eligibility document data.

The Fix-It Eligibility Documents Report

- We will now demonstrate how to run the Eligibility Documents Fix-it Report.
- This report will list your clients served within a specified date range along with specific error messages that relate to the ARIES Client Share/Non-Share Consent Form and HIV Documentation.

To locate the **Fix-It: Eligibility Documents** report, go to Reports and select the **Client** menu.

The screenshot shows a web application interface. At the top, there is a navigation bar with the following items: < Back, Home, Find, New, Reports, Shortcuts, Help, Logout. Below this is a yellow banner with 'DEMO' repeated. A dropdown menu is open under 'Reports', showing options: Client, Services, Finance, Management, Cross Tab Wizard, and Compliance. A red arrow points from a text box to the 'Client' option. Below the navigation bar is a purple banner with 'CONTACT INFORMATION ARIES'. The main content area shows a client profile for 'Zach A Ashton' with a warning icon. The profile includes contact information, phone numbers, residence, mailing address, and emergency contact details. A blue box with a white border contains the text 'Click on "Client" under "Reports"'. To the right of this box is a small icon of a mobile phone.

The **Fix-It: Eligibility Documents** report is located towards the bottom of the Client report page.

[Fix-It: Eligibility Documents](#)

Lists clients served within a date range and whether there is a Diagnosis Document at ANY agency (not required for R/A) and an ARIES Consent Form at THIS agency not more than 3 years old. NOTE: Current Consent Form has "7/10" in the footer.

[ARIES ID and Primary Staff Person](#)

Lists all clients by ARIES ID including the name of the Primary Staff Person

[RSR Enrollment Status](#)

Shows a client's ARIES Enrollment Status and how that status will be reported on the RSR. Use a Service Date Range that matches your RSR reporting period, and "=1" for Is Ryan White Funded. The report lists all clients served, those with an Unknown RSR Status are listed first.

[Fix-It: Insurance](#)

Lists clients served within a date range and any problems with Insurance.

[Fix-It: Poverty Level](#)

Lists clients served within a date range and any problems with Household Income, Household Size, or Household Poverty Level

[Fix-It: Race and Ethnicity](#)

Lists clients served within a date range and any problems with Race 1 or Hispanic Ethnicity

Click on "Fix-It:
Eligibility Documents"

Click on the report to run. Input your specified dates on the Report Filter Value page.

The screenshot shows a web application interface with a navigation bar at the top containing links: < Back, Home, Find, New, Reports, Shortcuts, Help, Logout. Below the navigation bar is a yellow banner with the word 'DEMO' repeated. The main content area is titled 'Report Filter Values' and contains the following elements:

- A dropdown menu set to 'Between'.
- Two date input fields: the first contains '8/1/2011' and the second contains '7/31/2012', separated by an ampersand '&'.
- A 'Display' field containing the number '9999'.
- A 'results' label and a checkbox for 'Display print format'.
- Two buttons: a yellow 'Report >' button and a blue 'Export' button.

Four instructional callout boxes are overlaid on the interface:

- A box at the top left says 'Enter service filter dates.' with red arrows pointing to the date input fields.
- A box at the top right says 'Be sure that this "end date" field is either today's date or close to it!' with a red arrow pointing to the '7/31/2012' field.
- A box at the bottom left says 'Enter the number of records to display.' with a red arrow pointing to the 'Display' field.
- A box at the bottom right says 'When done, click "Report"' with a red arrow pointing to the 'Report >' button.

At the bottom left of the interface, there is a link labeled 'Contact Information'.

The Fix-It: Eligibility Documents Report

- Once generated, a report will be displayed that shows all the records for the clients served by your agency during the specified date range.
- Error messages will indicate which records need attention and why.
- The report will look something like this...

Sample Fix-It: Eligibility Documents Report

100045533	Escobar, Serenity M																

16 records, generated 8/13/2012 1:26:30 PM
Criteria: Service Line Item Service Date BETWEEN '9/1/2011' AND '8/31/2012'

Fix-It: Eligibility Documents Report Error Messages

<u>Error Message</u>	<u>Error Message Definition</u>
Missing Consent Form	The client's record does not have an ARIES Consent Form at your agency.
Missing Diagnosis Document	The client's record does not have HIV Documentation at <u>ANY</u> agency for Share Clients and at <u>YOUR</u> agency for Non-Share Clients. (Note: Related/Affected clients are excluded from this error)
Missing Diagnosis Document (check Basic Medical Screen's CDC Disease Stage Source)	Meets the Missing Diagnosis Document criteria above, but the Source field for CDC Disease Stage contains, "Letter of Diagnosis" or "Medical Record" or "Lab Results."
Expired Consent Form	The most-recent ARIES Consent Form entered has expired; the form has a date that is more than 3 years prior to the <u>run date</u> of the report.

Next Steps: Running the Fix-It Report

- If you receive error messages it could be possible that:
 - Your agency has obtained the paper ARIES Consent form and/or HIV Diagnosis Letter but has not entered it electronically into ARIES yet.
 - The “Source” field for “CDC Disease Stage” on the Basic Medical screen is completed and staff thought this was sufficient to meet the minimum data requirements for program eligibility; it is not however. It is required to track HIV Documentation on the Eligibility Documents screen.
 - Your agency did not realize that clients needed to be re-consented every three years.

Next Steps: Running the Fix-It Report

- Note that the Fix-It report calculates the expiration date for ARIES Consent Forms.
- In addition, when determining if a consent form has expired, the report compares the calculated expiration date to “today’s date,” not the “end date” of the report criteria, which is why we always recommend that your “end date” for the report criteria always be close to “today’s date.”

Next Steps: Running the Fix-It Report

- Please run the report.
- Look up the clients with error messages using their ARIES ID.
- Locate and/or gather the necessary documents referenced in the error message.
- Then update ARIES accordingly.

Questions & Answers

- Do you have any questions?
- Additional Resources:
 - This presentation as well as the Revised ARIES Consent Form will be posted in the Training section of www.projectaries.org.
 - The **ARIES User Manual** can be accessed by pressing the F1 button while in ARIES.
 - The ARIES Help Desk can be reached at **866-411-ARIES (2743)**.

Thank you!

- Thank you for participating! We hope that this has been a productive use of your time.
- Together we can improve ARIES data quality!
