

CACDC Workgroup Status Report

October 2012

Name	Electronic Lab Reporting Chair, Michele Cheung
Charge	<p>To review Section 2500 and 2505 reportable disease lists in conjunction with current CalREDIE disease name dictionaries and summarize issues affecting LHJ processing of reports that may arise with ELR implementation.</p> <p>To develop consensus among LHJs for diseases for which an automated/altered process would be warranted.</p>
Current Progress	<ul style="list-style-type: none"> • First meeting (conference call) 9/17/2012 <ul style="list-style-type: none"> ○ LHJs, STD controllers, PHL, CDER, CDPH STD all represented ○ Discussed diseases to include on survey for possible auto-import/close/report (hep B, hep C, chlamydia, gonorrhea) • Survey drafted and sent to workgroup <ul style="list-style-type: none"> ○ Comments to be incorporated and then Survey Monkey drafted for workgroup review
Challenges	<ul style="list-style-type: none"> • Will be difficult to get consensus from LHJ • Not all have understanding of CalREDIE/ELR process so wording of survey difficult
