Narrative

AHS will provide linguistically/culturally competent nutrition, physical activity, and SNAP education at AHS' main clinic site and at community sites in Chinatown and East Oakland.

**e. Summary of Research.**

*See Section A, pages 2-5.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention
- Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

- 80% of participants will demonstrate an increase in consumption of fruits and vegetables.
- 80% of participants will demonstrate an increase in knowledge of cooking skills to ensure healthy consumption and food preparation.

LOCAL PROJECT  
SYNOPSIS

- 80% of participants will identify 1-3 take-home goals/commitments/strategies to support ongoing healthy consumption of fruits and vegetables as well as meal planning skills.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

Asian Health Services will coordinate efforts within our health center, community partners in Oakland Chinatown and Saint Anthony's Church to support recruitment and attendance at nutrition education workshops and Healthy Heart Workshops.

Projected Unduplicate Number of Contacts: 615

Narrative

CAFF will conduct nutrition education with SNAP-Ed parents, children age zero to five, and staff at ten qualifying playgroup sites throughout Humboldt county. The program will operate within the existing First 5 playgroup structure and will utilize a key partnership with Humboldt County Office of Education’s (HCOE) Harvest of the Month to reach our goal of increased fruit and vegetable consumption among SNAP-Ed young children and their parents attending First 5 playgroups. Since children’s eating patterns become established during early childhood, educating parents about good nutrition can help establish healthy eating behaviors and prevent diet related disease later in life. Our intervention will include initial pre-surveys with staff and parents and build from there. We will conduct the Harvest of the Month program with children and their parents monthly at the playgroups and will disseminate accompanying nutrition resources. We will conduct biannual trainings with playgroup staff to increase their knowledge and capacity to positively influence families. Lastly, we will offer additional hands-on nutrition education opportunities through annual tours of farms, farmers' markets, and grocery stores. We foresee potential and probable program replication in other First 5 programs throughout the state.

**Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Pre/post surveys will identify base line information and steer the intervention showing a statistically significant increase in family fruit and vegetable consumption and/or in one or more factors related to fruit and vegetable consumption including knowledge, preference, awareness, self-efficacy, and skills.

Staff will attend biannual trainings demonstrating an increase in knowledge, self -efficacy, and social networks.

Children have increased knowledge, exposure, and consumption of fruits and vegetables through participation the Harvest of the Month program.

Ongoing Process Measures include: sign-in sheets, agendas, photos, material disseminaton, and verbal testimonials.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

CAFF will work collaboratively to implement our project building on past relationship with Humboldt's Office of Education and new partnership with First 5. Utilizing existing programs to implement our intervention, we will extend multi-organizational reach and help increase capacity by working together. Additionally, we will implement First 5's strategic plan and best practices. Combined evaluation will measure larger impact. Finally, we will be contributing to county efforts to combat obesity in the snap-ed population.

Narrative

Promote a healthy lifestyle through interactive nutrition education, physical activity and CalFresh at Familia Center pantry and affordable housing sites in the city of Santa Cruz. Familia Center proposes to expand the pantry program at our site to include nutrition education for 80 plus household participants accessing the twice-monthly food distributions. Included in the expansion plan are 3 public housing complexes totaling 190 households and one community center located in a low-income census tract. The plan includes recruiting and developing a core group of volunteers/health promoters, from among the participants of the pantry program, to assist with the project. The major goals of the project are to: 1) familiarize Latino immigrant households with variety of the vegetables grown in the Central Coast area and with their nutritional value 2) participants will make healthier food choice, and 3) engage participants of the pantry program as promotores/community nutrition advocates, 4) introduce and promote alternative types of physical activity such as yoga and 5) encourage enrollment in the CalFresh program.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention
- Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

In post surveys participants will report; increased knowledge of benefits of unfamiliar fruits and vegetables and will report increased use of said vegetables in everyday meals; Increased knowledge and use of alternative forms of physical activity.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

Familia Center is an active member of the Nutrition and Fitness Collaborative of the Central Coast and have utilized and borrowed materials to bring nutrition and fitness awareness to Familia participants.

11	<b>Database Coordinator</b>		Develops database used to track nutrition education, physical activity and food stamp promotion interventions in a variety of channels.
21	<b>Nutritionist/Nutrition Educator/Nutrition Aide</b>		Provides nutrition education to the neop eligible population. Specific duties include: one-on-one general nutrition education, delivery of general nutrition education in a classroom or group setting, staffing health fairs and other community or promotional events where nutrition education messages are delivered, distribution of linguistically and culturally appropriate nutrition education materials, documentation of educational and other encounters, assisting with writing project reports and preparation of quarterly reports, maintaining program reporting and tracking systems.
22	<b>Office Manager/Secretary/Admin Assistant</b>	<b>Admin Assistant</b>	Provides general clerical support to the Program. Assists in development and maintenance of a data collection system with emphasis on fiscal information. Arranges meetings and trainings, orders supplies and materials, creates correspondence, photocopies, etc.

## Prime Budget Justification

Prime Grantee Name: Community Bridges-Familia Center  
 Grant Number: 11-10160

### Operating Expenses

Budget Item	Description/Justification	Unit Cost	Quantity	Months	Total
Office Supplies	Flip charts, markers, paper, pens, folders, toner	\$400.00	1.00	1.00	\$400.00
Utilities	mo for electricity, gas, water, garbage prorated at 1.62 FTE	\$55.99	1.00	12.00	\$671.88
IT support	2.768 hours set up and training on use of equipment for final presentation	\$276.84	1.00	1.00	\$276.84
Printing	\$9.65/mo for copying of project materials, flyers, recipes	\$9.95	1.00	12.00	\$119.40
Telephone/internet	related project calls, searches, and email at 1.62 FTE	\$7.75	1.00	12.00	\$93.00
Janitorial Service	\$700 per month, prorated at 3.85% (1.62FTE+participant space)	\$26.95	1.00	12.00	\$323.40
<b>Total Operating Expenses:</b>					<b>\$1,884.52</b>

### Equipment Expenses

Budget Item	Description/Justification	Unit Cost	Quantity	FTE	Total
Air popcorn popper	For food demonstrations	\$20.00	1.00	1.00	\$20.00
Computer monitor	Monitor for 1 FTE	\$439.08	1.00	1.00	\$439.08
Projector	Final Presentations	\$500.00	1.00	1.00	\$500.00
Tripod Screen	Final Presentations	\$65.82	1.00	1.00	\$65.82
Laptop	Final Presentations	\$285.00	1.00	1.00	\$285.00
<b>Total Equipment Expenses:</b>					<b>\$1,309.90</b>

### Travel and Per Diem

Projected Unduplicate Number of Contacts: 500

Narrative

The Center for Nutrition & Activity Promotion (CNAP) proposes to increase preference for and consumption of healthy food via 90 hands-on nutrition education classes offered to more than 500 adults and children in three Butte County CX3 neighborhoods and the surrounding areas. Nutrition classes will utilize Cooking Matters™ curriculum for adults and families as well USDA's Eat Right When Money's Tight (ERWMT) materials. The Cooking Matters™ series offers 6 2-hour class in which participants prepare healthful recipes, taste test the prepared foods, and enjoy interactive and hands-on nutrition education activities. ERWMT is an hour long stand-alone adult nutrition education class that focuses on budget friendly, healthy choices and incorporates cooking demonstrations, recipe cost analysis, nutrition information and budgeting tips. Each ERWMT class features Harvest of the Month produce and participants leave with healthful recipes incorporating the produce and a free bag of food provided by the local Food Bank. All classes will be held in English, Hmong and Spanish throughout Butte County. During the first two years of the project, at least three class participants will be recruited to serve as community leaders and help deliver lessons and encourage community participation and relevance in years two and three.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Participants in the Get Cookin' series will complete a pre/post survey. We will compare the survey responses with matched control participant's surveys and face-to-face interviews. Additionally, we will obtain anecdotal comments from focus group participants and compare their comments with the control group. Lastly, participant leaders from the community will engage in a focus group. Surveys will capture Get Cookin' participants change in fruit & vegetable consumption, meal planning, budgeting and home meal preparation frequency. The focus group discussion will determine changes in awareness, barriers, dietary variety, and self-efficacy to prepare healthy meals as a result of the series.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

CSUC Research Foundation has worked with the Network under CNAP's Sierra Cascade Nutrition and Activity Consortium (SCNAC) program since 2004. CalFresh Outreach is under the CNAP umbrella and, as such, will be an effective partner in collaborative efforts to promote project participation. Community partners, including Chapman Neighborhood Association, WIC, Butte County Grange, Fit thru Five Collaborative, Collaboratively Creating Health Access (cChaos), and Oroville Hmong Cultural Center will assist in neighborhood resident participation recruitment. These same partners, particularly the Thermalito Grange, Chapman Neighborhood Association, cChaos, OPT for Healthy Living, North Valley Community Foundation, Community Action Agency food bank, and the Hmong Cultural Center will assist with sustainability efforts beyond Network funding.

## Budget Coversheet

Prime Grantee Name: CSU, Chico Research Foundation

Grant Number: 11-10155

Budget Categories	FFY 13 Total	FFY 14 Total	Difference	% Difference
1 Salaries	\$44,513.00	\$51,650.01	\$7,137.01	16.03%
2 Benefits	\$13,897.00	\$11,050.90	-\$2,846.10	-20.48%
3 Operating	\$2,404.00	\$9,571.68	\$7,167.68	298.16%
4 Equipment	\$0.00	\$0.00	\$0.00	0.00%
5 Travel & Per Diem	\$3,384.00	\$3,824.68	\$440.68	13.02%
6 Subcontractors	\$0.00	\$0.00	\$0.00	0.00%
7 Other Costs	\$7,834.00	\$6,559.32	-\$1,274.68	-16.27%
8 Indirect Costs	\$12,968.00	\$13,363.81	\$395.81	3.05%
<b>Totals:</b>	<b>\$85,000.00</b>	<b>\$96,020.40</b>	<b>\$11,020.40</b>	<b>12.97%</b>

Budget Categories	Reason for difference greater than 5%
1 Salaries	Increase is attributed to the addition of the research specialist to coordinate the required evaluation efforts and complete IOE reports
2 Benefits	The change reflects actual rates by position rather than the average rate that was used in FFY 13
3 Operating	Increase is attributed to the addition of training space in Chico at OPT for Healthy Living
4 Equipment	N/A
5 Travel & Per Diem	Travel locations were updated to match actual requirements this year for quarterly meetings
6 Subcontractors	N/A
7 Other Costs	Decreased because we are able to acquire curriculum for free, eliminating printing cost
8 Indirect Costs	N/A

Projected Unduplicate Number of Contacts: 1000

Narrative

The Education and Leadership Foundation (ELF) is partnering with the Fresno County Office of Education Migrant Education Program, Central Valley Health Network, and Univision Channel 21 to implement Choose Health: Nutrition and Physical Education for a Healthy Lifestyle. The Choose Health Project will promote increased fruit and vegetable consumption, healthy beverages consumption, daily physical activity, and increased participation in the SNAP. The project's target population will be six communities in rural Fresno County: Coalinga, Firebaugh, Kerman, Mendota, San Joaquin, and Tranquillity.

The Choose Health Project will present a series of four Nutrition lessons and a series of four physical activity lessons to a total of 1,000 participants over three years. Nutrition lessons will be conducted within the context of hands-on activities and demonstrations. Physical activity lessons will emphasize the importance of activity at home and work, and include physical activity demonstrations. Information about SNAP will be disseminated at two sessions held at the conclusion of the health series. Four Champions of Change from each community will be trained as health advocates to support project goals and sustain benefits of the program after the funding period.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention
- Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Key performance measures/indicators will consist of both outcome and process measures. The process indicators will focus on determining the fidelity of program implementation, ensuring that each activity or strategy is carried out according to the timeline as detailed in Scope of Work. The outcome indicators will determine the impact of the program by comparing data collected from multiple measures against measurable benchmarks related to performance goals over the three-year project period.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

The Education and Leadership Foundation, Fresno County Office of Education, and Central Valley Health Network are members of FCOE Migrant Education's Choose Health Collaborative. Additional partners include FCOE Safe and Healthy Kids, Health Net Community Solutions, CSU, Fresno's Department of Public Health, Valley Health Team, and UCSF's Latino Center. Partners working to improve the health of children and families through the promotion of healthy lifestyles. In addition, ELF will promote the proposed project as a "promising practice" through the Migrant Education Management Board, which represents 26 districts in Central California.

Narrative

FAME Assistance Corporation’s (FAC) *Champion Empowerment Program* is an eight-week “Train the Trainer” program located at three public housing projects in South Los Angeles, one of the most distressed and disadvantaged residential neighborhoods in Los Angeles County. Our “Train the Trainer” program will reach 40 participants annually. These students will be mentored and monitored as they each teach a series of two to three 1-hour nutrition education information sessions to members of their community. Each session will have three to four students, with each trained champion having the requirement to enroll a minimum of 10 students overall in their sessions. The *Champion Empowerment Program* will directly train 40 community nutrition educators, and indirectly teach a total of 400, in the area of nutrition education and access to healthy and affordable foods. Additionally, a community health engagement event will be offered at each public housing project to reach an additional 150 unduplicated NEOP eligible participants. Community residents at each housing site will play a fundamental role in implementing this project because they will be both trained champions serving as peer educators, participants attending the education programs offered by our trained champions, and organizers of the community health event. Their input will be crucial in implementing and evaluating the LFNE program and modifying the program to ensure greatest impact to the residents at each housing site.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- . Continuing, No adaptation or change in intervention  
. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Performance will be measured through full achievement of program goals and outreach numbers as reported on our annual ATF. Pre- and post- test surveys will be used. Written and verbal evaluation and feedback will be collected. Focus groups will be utilized to gather anecdotal data and perform community assessment.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

Program is offered at 3 public housing sites managed by the Housing Authority of Los Angeles City (HACLA). Coordination at each site includes HACLA program staff and other community groups active at each site, to combine efforts and maximize outreach (e.g., The Dream Center at Avalon Gardens, Boys & Girls Club at Mar Vista Gardens, and Motivated Mothers at Jordan Downs.

Narrative

Family HealthCare Network is proposing to provide 1,350 children and adults with nutrition education classes and increase physical activity in the isolated rural community of Goshen, Traver, New London/Dinuba, Cutler/Orosi and rural Tulare, California. With the support of the local community, this program will offer nutrition sessions through Family HealthCare Network Center Goshen site, CSET, Self-Help Enterprise (public housing), food distribution programs (Nutrition on the Go), and school sites in these communities. One Community Health Representative and three to four trained community Promotoras will deliver the nutrition education message through cooking demonstrations, taste tests, outreach promotions, interactive handouts, flip charts, and other activities to promote physical activity and improved nutrition. This program will offer resources to communities that currently have limited access to any nutrition education or physical activity opportunities.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention  
 Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Family Health Care Network will use sign in sheets, pre and post-test and focus groups to measure and assess the project's impact and effectiveness. Key indicators include: able to identify serving sizes, able to prepare healthy fruits and vegetables, identify ways to increase access to fruits and vegetables, able to understand My Plate; identify ways to be physically active at home and school/work, able to apply exercise safety, and others.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

Family HealthCare Network (FHCN) plans to participate in all Regional Network meetings and conferences sponsored by California Department of Public Health. The agency also plans to continue its participation with the following collaborative groups: Tulare County's Healthy Visalia collaborative, Tulare County Healthy for Life coalition, First 5's Health Advisory Group, Tulare County's CNAP group, Tulare County Nutrition Collaborative and other groups. For this program, FHCN will have signed agreements in place with school sites, CSET (Community Services Education and Training) and Self Help Enterprises and any other sites where educational classes will be held.

# FFY 2014 Budget Instructions

## Instructions for Completing Federal Fiscal Year (FFY) 2014 Budget Templates for the United States Department of Agriculture (USDA), Supplemental Nutrition Assistance Program Education (SNAP-Ed), Nutrition Education and Obesity Prevention (NEOP) Grant Program

Funding Source	2013-14 Funding Cycle	
	Begin Date	End Date
USDA / SNAP-Ed / NEOP	October 1, 2013	September 30, 2014

### Submission Instructions:

- Please send your completed budget workbook via e-mail to: [supportstaffassignments@cdph.ca.gov](mailto:supportstaffassignments@cdph.ca.gov).
- Please label your budget using the following naming convention:
  - LHD name FFY14 Budget (i.e. – Alameda FFY14 Budget)

### General Information:

- For your convenience, this workbook has been created in Excel 97-2003 and Excel 2010. Please be sure to use the program applicable to your computer.
- This workbook contains multiple tabs. These tabs include: Budget Cover Sheet (BCS), Prime Staffing Sheet, Prime Budget Justification, Sub Grant Staffing Sheet(s) and Sub Grant Budget Justification(s).
- All formula driven cells are locked and shaded. Cells that allow for typing remain white and will have blue text.
- LHDs must use the California Department of Human Resources (CalHR)/California Department of Public Health (CDPH) Travel Reimbursement Rates. See Travel Reimbursement Attachment in the FAP.
- Spell out acronyms the first time they are used in the budget.
- The template is locked due to formulas. If you need additional rows or assistance, please contact your CM.
- Cells are set to wrap text; however, in some cases the text will not automatically wrap. The budget justification will be formatted by your CM so that cells are expanded and text is displayed correctly before submission to USDA.

## INSTRUCTIONS FOR EACH TAB

### BCS Tab

- Please enter the Prime Grantee name and Grant Agreement number. This information will automatically populate on each tab of this workbook.
- **FFY 2013 Total** - Please enter this information which can be found on your approved FFY 13 plan budget effective 10/1/12-9/30/13.
- **FFY 2014 Total** - These numbers will self-calculate from the information entered into the Prime Budget Justification tab.
- **Reason for difference greater than 5%** - If there was an increase or decrease greater than 5% for any line-item, please enter the justification otherwise leave blank.

### Prime Staffing Tab

- ***Staffing Requirements:*** The size and expertise of the Local Health Department (LHD) staff will depend in large part by the funding level. Language specific and cultural competencies are needed for reaching California's diverse population, along with skills in marketing, health promotion, community organizing, policy, business, and retail. However, the California Department of Public Health (CDPH)/*Network* requires the minimum staffing for all LHDs receiving funds:
- ***Maximum Salary Guidelines:*** For school teachers/school administrators and for direct/non-executive personnel a \$78.30 (based on 1288 hours per year) hourly salary rate or a \$100,848 yearly salary. For administrative/executive/medical personnel a \$71.80 (based on 2,080 hours per year) hourly salary rate or a \$149,525 yearly salary. The maximum rates does not include benefit costs.
  - One full-time Project Director. The Project Director must have a Master of Public Health (M.P.H.) or equivalent degree.
  - Nutrition expertise, Registered Dietician (R.D.), must be part of the staffing of this grant agreement. Should the Project Director or other staff on this grant agreement not have this expertise, a minimum of .5 FTE is strongly recommended.
  - Evaluation expertise must be accessible to this grant agreement for ensuring ongoing and as needed competence for evaluating program effectiveness.
  - Adequate fiscal and administrative support.

## FFY 2014 Budget Instructions

- **Position/Title** – Click on the yellow tab titled "Job Descriptions" and locate the applicable job title/description and enter the corresponding number on the staffing sheet in column A; the title will automatically populate in column B. This should be one of the titles found on the list of USDA-approved generic position descriptions. [If the generic title differs from the employee's official title, list the official title in column C next to the USDA approved position title.](#) If you have a position that is not listed on the Job Descriptions tab, please enter the title and position description in the blank rows provided at the bottom of the page.
- **Position Name** - Please identify the employee's name associated with the position title. If vacant, please put "TBD".
- **Description of Job Duties** - Identify % of SNAP-Ed Time spent on Direct SNAP-Ed Delivery and % of SNAP-Ed Time spent on Mgmt/Admin Duties.  
**Administrative Duties** are expenses related to personnel positions that perform administrative duties (e.g., processing purchase orders, preparing invoices, collecting bi-weekly time logs (BWTL), and performing general clerical duties, such as answering phones, ordering supplies and preparing correspondence, etc.).  
**Direct Delivery Duties** are expenses related to personnel positions directly engaged in service/program delivery (e.g., nutrition education in the classroom, food stamp promotion, food demonstrations, community outreach activities, physical activity promotion, nutritional aspects of gardening, etc).
- **FTE** – This will automatically calculate based on the description of job duties. [Note: if an employee does not work an entire 12 months, or an employee is half time, their FTE should not be 1.0 or 100%. Their FTE should be prorated based on the percentage of time they will work throughout the grant year. \(i.e. An employee works 8 months out of the year and during those 8 months, they work 100% on SNAP-Ed. They would still only be budgeted for 80% of the year on this grant.\)](#)
- **Annual Salary** – List the salary only, not including benefits. When converting a monthly, semi-monthly, weekly or hourly salary to an annual salary please use the standard 52 week year at 2080 hours/year to make the calculation. Calculations should be based on actual salaries.
- **Benefit Rate** - List the percentage rate that your LHD uses for their benefits. This can be different for individual positions. [Identify what costs are included in the Benefit rate beneath the staffing table.](#)
- **SNAP-Ed Salary, Benefits and Wages, Federal Dollars only** – This column contains a formula which adds the Total Fringe \$ Request and the Personnel \$ Request.

### Prime Budget Justification Tab

#### Operating Expenses

- Space allocation must be prorated by Full Time Equivalent (FTE) when staff person is not dedicating 100% FTE to the *Network grant*. If costs are required to be prorated, please provide the basis of the prorating. Example: Postage of \$440 equals 1,000 stamps at 44 cents each for nutrition newsletter to SNAP-Ed eligible persons. Operating expenses should be prorated based on the FTE dedicated to SNAP-Ed. If 7.0 FTE is dedicated to SNAP-Ed in an office of 10.0 FTE staff and all ten staff members use operating expenses, then the operating expenses budgeted for SNAP-Ed should be 70 percent of the total operating expense budget for the office.
- **Budget Item:** This should be simple and to the point (i.e. Office Supplies).
- **Description:** This should summarize the budget item (i.e. Pens, Paper Pens, file folders, etc.) and should specify if this is per person, per month, etc.
- **Unit Cost:** This should be the cost per item, or per person, etc. as specified in the description (i.e. Description states \$150 per person).
- **Quantity:** This should be the number of items or number of people, etc.
- **Months:** This should be the number of months calculating the operating expense. If the calculation is not based on months, please keep the 1.0 in the cell otherwise the formula will not work with a blank cell.
- **Total:** This will automatically calculate.

# FFY 2014 Budget Instructions

## Equipment

➤ Equipment must be prorated by Full Time Equivalent (FTE) when staff person is not dedicating 100% FTE to the Network grant. If costs are required to be prorated, please provide the basis of the prorating. Example: Project Coordinator is 75% on budget; Copier for use by the Project Coordinator must be prorated based on the FTE. The Network would only reimburse for 75% of the copier. If staff is on reduced time base, but dedicated 100% to the Network with no other funding source for salary and benefits, prorating is not required.

- **Budget Item:** This should be simple and to the point (i.e. Computers, etc.).
- **Description:** This should summarize the budget item (i.e. Computer to complete activities outlined in the SOW, etc.).
- **Unit Cost:** This should be the cost per item (i.e. \$1500).
- **Quantity:** This should be the number of items (i.e. 12).
- **FTE:** Enter the number of FTE if the operating expense is meant to be prorated (If the cost is not being prorated, this must equal to 1.0).
- **Total:** This will automatically calculate.

## Travel & Per Diem

➤ Non-Network related travel must be prorated by Full Time Equivalent (FTE) when staff person is not dedicating 100% FTE to the Network grant. If costs are required to be prorated, please provide the basis of the prorating. Example: Project Coordinator is 75% on budget; travel by the Project Coordinator must be prorated based on the FTE. The Network would only reimburse for 75% of the travel costs. If staff is on reduced time base, but dedicated 100% to the Network with no other funding source for salary and benefits, prorating is not required.

- **Travel/Position Title:** This should be simple and to the point (i.e. mileage, name of conference/meetings, etc.) and also include the position title of the employee(s) traveling.
- **Location:** This should state City of event or in-county mileage, etc.
- **Trips:** This should state the number of trips for each travel line-item.
- **FTE:** This should specify the number of staff traveling. See above for proration rules.
- **Days:** This should specify the number of days for each travel line-item.
- **Nights:** This should specify the number of nights for each travel line-item.
- **Per Diem:** This should specify the amount of allowable per diem. This should be each day, not total trip as the formula will calculate for you. (See general information above for allowable rates).
- **Lodging:** This should specify the amount of allowable lodging, including tax. This should be each night, not multiple nights as the formula will calculate for you. (See general information above for allowable rates).
- **Air:** This should specify the amount of airfare, including tax. This should be total for roundtrip or oneway. This cell can also be used to calculate train fare.
- **Miles:** This should specify the number of miles for each travel line-item and should include total trip miles. The formula will calculate based on the current mileage reimbursement rate of \$.565.
- **Registration Fee:** This should be the cost to register for a conference or training, etc. This should be entered for one person even if the line-item is for multiple FTE as the formula will calculate based on FTE entered.
- **Other:** This can include parking, tolls, taxi, etc.
- **Total:** This will automatically calculate.

## Sub Grant(s)

➤ If there are Sub-grant services for over \$5,000, please complete a separate Sub-Grant Staffing sheet and Sub-Grant Budget Justification for each Sub-Grant over \$5,000. The templates are embedded in this workbook and include templates for up to 9 sub grants. Should you need additional templates, please ask your CM to add them to your workbook. The sub-grant templates should be completed following the same instructions as the Prime Budget Justification in this instructions tab.

- **Name:** This should be the Sub Grant(s) name and if unknown, should read "TBD". **Note: The Sub Grant name(s) will automatically populate on the Sub Grant budget justification tabs.**
- **Description:** This should summarize the work that will be performed by the Sub Grant(s).
- **Total:** Enter the total cost for the Sub Grant(s).

# FFY 2014 Budget Instructions

## Other Costs

- Other costs includes non-routine, occasional, or one-time expenses such as; publications, training, administrative or educational materials that are required for the delivery of critical program services, and food for demonstration/taste testing purposes only.
  - **Budget Item**: This should be simple and to the point (i.e. Food Demonstration Carts).
  - **Description**: This should summarize the use for the other cost budget item and provide a brief cost breakdown of all expenses including; price, number of items/participants, and time and number of events.
  - **Unit Cost**: This should be the cost per item (i.e. \$1500).
  - **Quantity**: This should be the number of items (i.e. 12).
  - **Misc.**: This is the basis of your calculation. Enter the number of Copies, Participants, Staff/FTE, number of food demos, etc. If the calculation is not based on one of these items, please keep the 1.0 in the cell otherwise the formula will not work with a blank cell.
  - **Total**: This will automatically calculate.

## Indirect Costs

- **Calculation Method**: Please describe the basis of calculation (i.e. personnel & fringe, total personnel, total direct costs, etc).
- **Percentage**: This should be your organizations standard indirect cost rate.
- **\$ amount of Method**: This should be the total of the calculation method identified.
- **Total**: This will automatically calculate.

## Total Costs

- **Total**: This will automatically calculate based on the information entered.

**USDA  
POSITION DESCRIPTIONS**

<b>Position Number</b>	<b>USDA Position Title</b>	<b>LHD Position Title</b>	<b>Position Description</b>
1	Accountant/Finance Analyst		Serves as internal auditor and controller. Assists with processing purchase orders, invoices, preparation of vouchers for payment as related to the Network program, as well as monitoring the budgets.
2	Administrative Coordinator		Provides administrative and office support for the project staff and is responsible for the reporting requirements.
3	Administrator (e.g., Director of Programs)		Administer the nutrition education grant agreement and budget, supervising nutrition education staff, attend nutrition education and scope of work related meetings, program planning and participating in the Regional collaborative. Coordinate grant agreement reporting requirements.
4	After School Coordinator/Assistant		Plan and facilitate nutrition education activities for recreation programming, in after school setting for different age groups of children; seniors, teen; special populations, such as mothers with young children and families; nutrition education for special events and workshops. Prepare instructional plans for youth camps and field trips; and nutrition education for special events and workshops. Prepare instructional plans for nutrition activities, collect data related to nutrition education programming, prepare documentation for nutrition education grant agreement; and helps prepare interim and final progress report .
5	Chief Executive Officer		Provides overall guidance for the operations, personnel, and fiscal responsibilities required by the nutrition project.
6	Community Liaison		Conducts nutrition education, physical activity promotion interventions in the community setting. Works with Community Based Organizations to increase the reach of nutrition education interventions to Nutrition Education Obesity Program eligible.
7	Computer Specialist		The Computer Specialist will provide assistance with the nutrition database and tracking system.
8	Contract Manager		Manages the nutrition education grant agreement including budgets, invoices, local share documentation reports, time studies, fiscal reporting and adherence to funding requirements.
9	Coordinator of Other Program (e.g., Teen program, Healthy Start, etc.)		Supervises, coordinates, facilitates nutrition education activities, workshops, special events related to the recreation and community center planning and working together with other community center groups. Supervises staff implementing the nutrition education grant agreement, prepares invoices, prepares and collects documentation, prepares progress reports
10	Curriculum Specialist		Develops curriculum for nutrition education and physical activity interventions in a variety of different channels/venues.
11	Database Coordinator		Develops database used to track nutrition education, physical activity and food stamp promotion interventions in a variety of channels.
12	Dental/Medical Assistant		Conduct one-on-one nutrition education interventions prior to primary care visit.
13	Dietician		Oversees and supervises the nutrition education program including project administration, project coordination, the development of the nutrition education component and materials and other nutrition and physical activity promotion programs.
14	Family Advocate		Provides nutrition education to students and their families, and recruits NEOP eligible for group nutrition/cooking classes. Provides nutrition, physical activity and food stamp promotion resources to students and their parents.

**USDA  
POSITION DESCRIPTIONS**

15	<b>Food Service Worker (e.g., Director, Manager, Asst., Server, Cook)</b>		Assists with planning and preparing healthy food taste tests in the school setting in conjunction with classroom based nutrition education intervention. Works with teachers to increase student, teacher and parent knowledge of the importance of consuming more servings of fruits and vegetables and being active daily. Compiles documentation on taste testing activities and all reporting required for nutrition grants. In some cases, supervises staff that carry out activities.
16	<b>Graphic Illustrator</b>		Develop local promotional nutrition education materials such as community flyers/ newsletters and/or to develop local nutrition/physical activity promotional/educational materials under the direction of the nutrition staff.
17	<b>Health Educator (including Health Aide, Health Promotion Instructor, etc.)</b>		Develop materials and facilitate health education in both group and individual settings. Teaches general nutrition, the importance of fruits and vegetables, and health benefits of proper nutrition and physical activity.
18	<b>Legal Counsel</b>		Assist with development of policies, approval of grant agreements and Memorandums of Understanding and providing legal advice specifically related to the implementation of nutrition education and physical activity promotion
19	<b>Medical Assistant</b>		Demonstrates safe food handling and personal hygiene to prevent food borne illness, provide nutrition-related services to staff, parents, and students and promotes physical activity within the context of nutrition education. (This does not include any medical nutrition therapy).
20	<b>Nurse/Nurse Supervisor/Nurse Aide RN</b>		Provides nutrition and physical activity promotion to students enrolled in nutrition education programs and their families. Supports nutrition education goals through interventions; local, regional, and statewide collaboration and interventions. (This does not include any medical nutrition therapy).
21	<b>Nutritionist/Nutrition Educator/Nutrition Aide</b>		Provides nutrition education to the neop eligible population. Specific duties include: one-on-one general nutrition education, delivery of general nutrition education in a classroom or group setting, staffing health fairs and other community or promotional events where nutrition education messages are delivered, distribution of linguistically and culturally appropriate nutrition education materials, documentation of educational and other encounters, assisting with writing project reports and preparation of quarterly reports, maintaining program reporting and tracking systems.
22	<b>Office Manager/Secretary/Admin Assistant</b>		Provides general clerical support to the Program. Assists in development and maintenance of a data collection system with emphasis on fiscal information. Arranges meetings and trainings, orders supplies and materials, creates correspondence, photocopies, etc.
23	<b>Pharmacist</b>		Promotes nutrition education and physical activity to NEOP eligible population through displays, distributing literature, and supervising staff to update nutrition education bulletin board.
24	<b>Physician</b>		Supervises professional staff including Dietitians, Nurses and Nutrition/Project Coordinators that provide nutrition education and promotes physical activity to NEOP eligibles in a variety of channels. Provides direction on strategic planning of nutrition and physical activity programs to NEOP eligible clients. In some cases, provides nutrition education to NEOP eligibles. (This does not include any medical nutrition therapy).
25	<b>Professor</b>		Coordinates, facilitates, modifies, develops, and demonstrates lessons on nutrition and promotes physical activity for the NEOP eligible community, and students with their families. Supports nutrition education Program goals and local, regional, and statewide collaboration.

**USDA  
POSITION DESCRIPTIONS**

<b>26</b>	<b>Program Assistant</b>		Assists the Project Coordinator with nutrition education program planning and development. Under the direction of Project Coordinator, works directly with individuals and small groups providing curriculum-based, prevention-oriented general nutrition education and physical activity targeted to NEOP eligibles.
<b>27</b>	<b>Project Coordinator</b>		Coordinate program staff and nutrition education activities; plan and follow through on outreach and educational events at health fairs, schools, and other promotional activities; work with schools, churches, farm worker organizations, and community organizations in planning and promoting good health through dissemination of nutrition education materials; actively acquire and develop culturally and linguistically competent nutrition curriculum and educational materials; to promote existing and/or to develop new physical activity promotional components of nutrition education; and expand our existing community outreach program to encompass nutritional components to increase community awareness and knowledge of good nutrition and healthy active lifestyles.
<b>28</b>	<b>Promotora</b>		Works with the Project Coordinator in NEOP communities to conduct nutrition education interventions and participate in local events to promote health eating and physical activity for NEOP eligibles.
<b>29</b>	<b>Recreation Leader</b>		Mentors and trains staff on integration of physical activity into nutrition education interventions. Coordinates one-time physical activity demonstrations. Chooses nutrition and physical activity resources to distribute with nutrition education interventions.
<b>30</b>	<b>Research Specialist</b>		Evaluates nutrition education, and physical activity promotion interventions in a variety of community channels. Methods can include process and impact evaluations, pre and post tests, surveys, focus/discussion roundtables, photo documentaries, case studies, etc.
<b>31</b>	<b>School Administrator (e.g., Principal, Superintendent)</b>		Provides oversight and coordination of the nutrition education conducted in participating classrooms of all schools.
<b>32</b>	<b>Teacher/Student Aide/Assistant</b>		Assists the Nutritionists, Health Educators, and Project Coordinator with nutrition education activities and community events that promote healthy eating and physical activity for low-income families, the target population, Food Stamp recipients and other similar households. 100% direct delivery of educational services.
<b>33</b>	<b>Teacher (preK-12 Classroom, PE, Speech, etc.)</b>		Coordinates, facilitates, modifies, develops, and demonstrates lessons on nutrition and promotes physical activity for students and their families. Supports nutrition education program goals through promotion; local, regional, and statewide collaboration; and close coordination with the Registered Dietitian to train staff.
<b>34</b>	<b>Translator</b>		Translates approved curriculum and materials into Spanish or other languages. Reviews translation for cultural appropriateness. Interprets nutrition education interventions (one-on-one and group) in the community for dietitians, health educators and others .
<b>35</b>	<b>Tutor</b>		Assist teachers and/or students with nutrition education and physical activity promotion.
<b>36</b>	<b>Web Designer</b>		Develops and maintains website containing nutrition education resources, gardening and health related topics and issues.

Narrative

RootDown LA's (RDLA) mission is to confront obesity and related health issues in South Los Angeles by first revolutionizing youth attitudes towards eating veggies, then transforming them into advocates for healthy food changes in their communities.

This year, RootDown LA is launching its You're Gonna Wanna Eat Your Veggies campaign to demonstrate that we can do in minutes, what nutrition educators have been attempting for decades – we get people to eat their veggies! The campaign will run in three communities, two in South Los Angeles and the third in the adjacent city of Inglewood, and will be led by Youth Leaders who are now training in basic nutrition, cooking, horticulture and entrepreneurial programs focused on building demand for fresh produce, connecting consumers to affordable supplies of fresh produce, and encouraging overall healthier lifestyles.

We will focus our campaign in three communities where we already have working partnerships with other organizations focused on food justice, economic development, community-supported agriculture, and cooperative education models. These communities, all of which have total populations comprised of at least 50% at or below 185% of the FPL are as follows:

1. Neighborhoods in South Central Los Angeles surrounding RDLA's Ralph Bunche House
2. The neighborhood surrounding WECAN's Urban Food Forest & Literacy Center
3. The Inglewood neighborhoods surrounding the Social Justice Learning Institute's Empowerment Community Garden

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

RDLA staff will maintain ATF and sign-in sheets to evaluate progress with Network programming commitments. Activity reports will be kept to qualitatively assess our activities. We will use Network approved pre and post surveys to assess how well we are meeting our goals: 1. Inspire and empower our target audience to increase their consumption of fruits and vegetables. 2. Assure that increased consumer demand is met with information about and access to fresh produce and food assistance programs in the community. 3. Encourage healthier lifestyles by modeling healthier food environments and promoting physical activity in conjunction with nutrition education.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

RootDown LA is fortunate to partner with organizations that share our larger vision and have complementary strengths and resources. Primary partners include the Coalition for Responsible Community Development, the Social Justice Learning Institute, the WECAN Foundation, and Jefferson High School – all organizations that share a mission to improve the health of individuals and communities by increasing consumption and availability of fresh foods in our South LA neighborhoods.

Narrative

Community-Based Multicultural Cooking project enables SYHC to modify the health center’s Salsita nutrition education program to include culturally relevant curricula tailored to African-American and Asian Pacific community members living in Central and Southeast San Diego. Salsita is a four week nutrition education and cooking class series for school-aged children and their families that targets the prevention and intervention of childhood obesity and other diet-related chronic diseases in the Latino community. The project will enable SYHC to modify Salsita’s successful syllabi to include innovative and culturally competent health education curricula that promotes fruit and vegetable consumption and physical activity. The modified classes would feature a different cultural theme each week to represent and be inclusive of the diverse communities of Central and Southeast San Diego. Years Two and Three consists of expanding the implementation of the classes to reach a greater service area and engage community residents in the Central and Southeast San Diego communities. In addition, we will focus on making the Multicultural Cooking curriculum a sustainable resource for the community through strategic partnerships and pursuing additional funding opportunities.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- . Continuing, No adaptation or change in intervention  
. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Qualitative and quantitative data to assess changes as a result of cooking class participation in: fruit and vegetable consumption; self-efficacy; access; and participation in physical activity.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

Community collaborations and partnerships with Southeast Farmers Market, Neighborhood House Assoc., Jackie Robinson YMCA, Town & Country Apartments, SDUSD after school programs, etc. Participation in regional collaboratives of the Network for Healthy California, local health department, Southeast San Diego Coalition, and the San Diego Nutrition and Physical Activity Collaborative.

POSITION DESCRIPTIONS**

<b>Position Number</b>	<b>USDA Position Title</b>	<b>Position Description</b>
3	<b>Administrator (e.g., Director of Programs)</b>	Administer the nutrition education grant agreement and budget, supervising nutrition education staff, attend nutrition education and scope of work related meetings, program planning and participating in the Regional collaborative. Coordinate grant agreement reporting requirements.
17	<b>Health Educator (including Health Aide, Health Promotion Instructor, etc.)</b>	Develop materials and facilitate health education in both group and individual settings. Teaches general nutrition, the importance of fruits and vegetables, and health benefits of proper nutrition and physical activity.

## Prime Budget Justification

Prime Grantee Name: San Ysidro Health Center  
 Grant Number: 11-10152

### Operating Expenses

Budget Item	Description/Justification	Unit Cost	Quantity	Months	Total
Office Supplies	Includes items necessary to administer the program, such as pens, pencils, staplers, staples, paper clips, printer paper, printer toner, tape, writing pads, file folders, etc. Office Supplies are budgeted at \$25/month/1.20FTE x 12 mo = \$360 year.	\$25.00	1.20	12.00	\$360.00
Rent	SYHC-approved Rental rate for 1.20 FTE is \$5,280 (\$366.66 x 12 months x 1.20 FTE = \$5,280).	\$366.66	1.20	12.00	\$5,279.90
Telephone Service	Monthly telephone utility charges for landline phones at \$45 x 12 months.	\$45.00	1.00	12.00	\$540.00
<b>Total Operating Expenses:</b>					<b>\$6,179.90</b>

### Equipment Expenses

Budget Item	Description/Justification	Unit Cost	Quantity	FTE	Total
N/A					\$0.00
<b>Total Equipment Expenses:</b>					<b>\$0.00</b>

### Travel and Per Diem

Travel/Position Title	Location	Trips	FTE	Days	Nights	Per Diem	Lodging	Air	Miles	Reg. Fee	Other	Total
Local Mileage	San Diego	120	1						10.00			\$678.00
Regional Network Meetings	Varies	3	1	2	1	\$40.00	\$84.00	\$200.00			\$56.66	\$1,261.98
Travel for Retrospective Report Presentation	Sacramento	1	2	2	1	\$40.00	\$84.00	\$200.00			\$56.50	\$841.00
<b>Total Travel and Per Diem:</b>												<b>\$2,780.98</b>

### Sub Grant(s)

Name	Description/Justification	Total
A   Dr. Sheila Castaneda	Evaluator will be responsible for evaluation during implementation of the project to ensure the activities are	\$2,000.00
<b>Total Sub Grant(s):</b>		<b>\$2,000.00</b>

## Prime Budget Justification

### Other Costs

Budget Item	Description/Justification	Unit Cost	Quantity	Misc.	Total
Cooking Class Food Samples	Food samples budgeted at \$2.50/participant (\$25.00 /class); with a total budget reflecting 20 cooking class series X 4 classes/series X 10 participants/class X \$2.50/participant.	\$2.50	800.00	1.00	\$2,000.00
Cooking Class Paper Goods	Paper goods budgeted at \$5.00/class; with a total budget reflecting 20 cooking class series X 4 classes/series.	\$5.00	80.00	1.00	\$400.00
Printing Class Materials	Copies of class materials including Network curriculum, recipes, resources, and nutrition education and physical activity promotion materials; class	\$5.00	200.00	1.00	\$1,000.00
Promotional Flyers	Class promotional materials and flyers to recruit participants budgeted at \$25/month x 12 months = \$300.	\$25.00	12.00	1.00	\$300.00
Cooking Class Supplies	Serving utensils, aprons, cutting boards, can opener, etc. budgeted at \$6/unit*100 units (10 units/series x 20 class series).	\$6.00	100.00	1.00	\$600.00
Cooking Class Equipment	Portable double burner, crock pot, George Foreman Grill, Toaster oven, and dollie cart to carry items includes items necessary to conduct food preparation and demonstrations.	\$88.08	5.00	1.00	\$440.40
Retrospective Report Materials	30 copies of presentation and Executive Report. 30 packets x \$25 = \$750.	\$25.00	30.00	1.00	\$750.00
<b>Total Other Costs:</b>					<b>\$5,490.40</b>

### Indirect Costs

Calculation Method	%	\$ of Method	Total
San Ysidro Health Center's federally approved indirect rate is 21.6 percent of total direct expenses. This rate covers indirect costs associated with the project such as human resources, accounting, and payroll.	21.60299%	\$74,011.34	\$15,988.66
<b>Total Indirect Costs:</b>			<b>\$15,988.66</b>

<b>Total Budget:</b>			<b>\$90,000.00</b>

- \_\_\_\_\_ Worksites
- Other (specify): \_\_\_\_\_
- 1 Other (specify): Temporary Shelter
- \_\_\_\_\_ Other (specify): \_\_\_\_\_

Projected Unduplicate Number of Contacts: 420

Narrative

The proposed project is an intensive nutrition education intervention aimed at providing the information, tools and support necessary to change longstanding, entrenched eating habits, thereby improving overall health and reducing documented disparities in obesity and chronic disease. Targeted communities and community members share socioeconomic attributes correlated with overall higher rates of obesity, diabetes, heart disease and cancer than the general population. The intervention will consist of a six session nutrition education series offered in weekly sessions or as scheduled by partners. Lack of access to fresh fruits and vegetables will be actively addressed through the promotion of local farmers markets, and community gardens. Evaluation activities will assess changes in fruit, vegetable and water consumption; physical activity; and nutrition knowledge.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention
- Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Objective 1: The number of SNAP eligible individuals per year will participate in a six session Healthy Habits nutrition education series by September 30, 2014.

Objective 2: The number of SNAP eligible individuals who participated in educational activities who will report a statistically significant increase in pre-to post-measures for fruit and vegetable consumption, water consumption and/or in one or more factors related to fruit and vegetable consumption by September 30, 2014.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

MAAC Head Start in North County will provide access to the parents of SNAP-eligible families at multiple program locations. The San Diego Hunger Coalition and Catholic Charities will provide CalFresh outreach, screening, and enrollment assistance. The LFNE Health/Nutrition Educator will promote CalFresh and refer participating families to Catholic Charities application assistors for SNAP screening and enrollment.

Projected Unduplicate Number of Contacts: 40,110

Narrative

The local health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Alameda County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Implement *Network* allowable nutrition education interventions and obesity prevention strategies in at least 50% of Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX<sup>3</sup>) assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX<sup>3</sup> or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

Continuing, No adaptation or change in intervention

Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

We will conduct both process and impact evaluations to measure performance. Key indicators for process evaluation will be sign in sheets, qualitative surveys, new partnerships, and reporting on organizational change. Key indicators to evaluate impact will be using the Network's Youth Survey among 5<sup>th</sup> grade students before and after 7 months of interventions. We will also administer pre and post Food Behavior Checklist surveys among our adult target population receiving a minimum of 5 nutrition education sessions.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Supplement:**

The following approaches will be used to evaluate organization or environmental changes. 1) For PSEs the RE-AIM evaluation framework will be used 2) Alameda County LHD will report semi-annually via Survey monkey 3) They will critically evaluate their accomplishments in their comprehensive annual report 4) Alameda County LHD will assess progress in the development of organizational capacity in the annual qualitative survey started in FFY2013 which will continue through FFY2016.

FFY 2014 will be the formative year for Alameda Co LHD to determine which PSEs they will select. They plan to work with youth serving organizations. Alameda County has an established CNAP. The

CNAP Plan will incorporate objectives that address the four State-level measurable objectives from the California SNAP-Ed Plan. Specific objectives for Alameda County's CNAP are as follows: to encourage, coordinate and promote consistent nutrition education and messaging among all FNS supplemental food/nutrition programs and to sustain effective partnerships and collaborative interventions that promote healthy eating and increased physical activity in Alameda County.

\*After each school name indicate all that apply with the following abbreviations: K-12 School (S), Preschool (PS), After School (A) & Parents (P)

**Alameda County Public Health Department**

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

X	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Mobilize community partnerships around healthy eating and active living.
X	Develop wellness policies in schools, after-school, or child care settings sites that support children and

	family nutrition and health.
X	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
X	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
TBD	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
TBD	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
X	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
X	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify:  In strategies marked TBD, we believe these may be selected, but plan to work with youth to conduct YPAR and are not certain which issue areas the youth will select to pursue.  Also are subcontracting with faith based entity yet to be identified (RFP process currently underway), that we believe will be working on faith institution standards and policies, but each will undergo an assessment and issue identification process so not certain which issue areas congregation will select to pursue.
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of 5 proposed subcontractors in Alameda County's FY14 SNAP-Ed Program project. All subcontractors will support our program in achieving the four above identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

Specifically, 2 subcontractors, Oakland Unified School District (OUSD) and Alameda County Office of Education (ACOE) will directly work and train youth and adults at local school district sites. Both will support our work by providing nutrition education activities to youth (teens and children) and adults (parents and teachers) at school district affiliated venues such as classrooms, school sponsored events, early childhood education sites, before and after school programs, and teacher in-service/trainings. Subcontractors will train teachers on the use of taste testing or food demonstration curriculum, garden

based education, materials and student workbooks, such as Harvest of the Month; train parents at nutrition education events taking place at before and after school programs; and conduct food demonstrations and taste testing activities at school-wide events targeting both youth and adults. Additional nutrition education on the importance of vegetable, fruit, and water consumption will be coordinated by the subcontractors through the distribution of newsletters and other education materials sent directly to parents of youth and teens of targeted sites. Among the policy, environment, and system changes we will address, our two school based subcontractors have an even greater role in accomplishing those changes, such as placed-based messaging, mobilizing community partnerships, developing/promoting wellness policies, linking farms to institutions, cultivating school gardens, promoting physical activity through access and policy changes, and investigating environmental or cultural barriers to healthy eating and active living.

Our other 3 subcontractors yet to be identified (RFP process is underway), will be working with Youth Engagement, Early Childhood, and Faith Based Institutions to support Objectives 1 through 4 with their respective target populations. The Early Childhood subcontractor will be providing training at early childcare sites covering self assessment, healthy nutrition and physical activity policy development, nutrition education, food demonstrations/taste test and parent engagement. The Faith subcontractor will train faith sites in approved nutrition interventions and assess and develop strategies for improving the food/beverage/physical activity environments at the faith institutions. The Youth Engagement subcontractor will conduct community based research to identify and address issues pertaining to healthy food/beverage access and physical activity.

Based on assessments and issue identification processes, our Youth Engagement, Early Childhood, and Faith-based subcontractors will also work to achieve healthy site, systems, and environmental changes.

All 5 of our subcontractors' scopes of work include Rethink Your Drink, which supports Objective 3 to promote healthy beverage education and support policies, systems, and environmental change strategy to increase the availability of clean, fresh and free water. .

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

Our school based subcontractors, Oakland Unified School District (OUSD), and the Alameda County Office of Education (ACOE), will complement each other geographically. OUSD will be providing services to 30 qualifying school and 10 qualifying after schools in Oakland reaching 9,000 children and 6,000 parents. ACOE is providing services in 32 targeted qualifying schools and 32 after school programs in 5 school districts: San Leandro, San Lorenzo, Hayward, Alameda, and Livermore, reaching a minimum of 15,000 students and 15,000 parents.

Among the policy, environment, and system changes we will address, our two largest school based subcontractors have an even greater role in accomplishing those changes, such as placed-based messaging, mobilizing community partnerships, developing/promoting wellness policies , linking farms to institutions, cultivating school gardens, promoting physical activity through access and policy

changes, and investigating environmental or cultural barriers to healthy eating and active living

Both OUSD and ACOE will support the program by collecting process evaluation data such as number of individuals reached, materials distributed, and documentation of the number and type of activities conducted. Formative evaluation will also be conducted to ascertain any changes in fruit and vegetable consumption and beverage intake.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

All of our subcontractors will be participating in our County Nutrition Action Partnership (CNAP) to collaborate with other grantees and local organizations to coordinate efforts and to avoid duplication.

**Prime Budget Justification**

		Nutrition Education Materials	Providing materials to train teachers and other partners on nutrition education interventions and physical activity promotion, such as fact sheets, activity sheets, lesson plans and tool kits. Items used include preapproved materials produced locally as well as state provided materials. Formula: Monthly Printing costs as determined by historical data and expected future activities * 12 months = \$4,750*12= \$57,000	\$4,750.00	1.00	12.00	\$57,000.00	
		Food for food demos	Purchase and use of food for demonstration purposes; taste testings, nutrition education and sampling of healthy food, the expected range of activities meets the SOW activities. No taste test including serving supplies will exceed \$2.50/person and includes nutrition education messaging. This will reach approximately 8,784 participants. Formula: Expected minimum of 8,784 participants over the year * \$2.50 per person = \$21,960. Cost is averaged over 12 months, so \$1,830 per month for an expected 732 participants	\$1,830.00	1.00	12.00	\$21,960.00	
		Minor Equipment	May include carts, chairs, calculators, shelving and other items under the \$ limit for minor equipment. Calculation based on historical averages for minor equipment purchases throughout the year. \$402 per month for \$5,040 annual cost.	\$420.00	1.00	12.00	\$5,040.00	
<b>Total Other Costs:</b>							<b>\$84,000.00</b>

Projected Unduplicate Number of Contacts: 200

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Alpine county/city. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; conduct community events reaching SNAP-Ed eligible individuals or groups.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- . Continuing, No adaptation or change in intervention
- . Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

*Key performance indicators of nutrition education will measure increased knowledge about the benefits of healthy eating and physical activity*

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will seek to establish/maintain key partnerships throughout the county leading to enhancing collaboration and communication among stakeholder agencies with a goal of coordinating nutrition education messages, resources and campaign implementation across FNS programs in an effort to increase food security in the target population. These efforts will constitute the formative steps to a possible future County Nutrition Action Plan (CNAP).

Projected Unduplicate Number of Contacts: 890 indirect contacts

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Amador County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 2) conduct a Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX<sup>3</sup>) or other community assessment in SNAP-Ed eligible low-income neighborhoods and share results with various local stakeholders, community members and community organizations; 3) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 4) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX<sup>3</sup> or other community assessments or reassessments in eligible neighborhoods; 5) conduct community events reaching SNAP-Ed eligible individuals or groups; 6) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix, and 7) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**  
*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention
- Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

- Number of households receiving annual Medi-Cal redetermination packets will be sent a flier to promote a nutrition education event, class, farmers market, Rethink Your Drink community event, etc.
- Number of fliers handed out at means tested sites.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

The LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Amador County Public Health 2013-2014**

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10% , teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent systematic before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

X	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Mobilize community partnerships around healthy eating and active living.

	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
	Develop healthy corner stores or food retail policies and organizational practices.
X	Develop nutrition standards at emergency food distribution sites.
	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
X	Investigate environmental or cultural barriers to healthy eating and active living.
	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify: Amador LHD as the lead agency will develop and update annually a CNAP to coordinate nutrition education messages, resources and campaign implementation across FNS programs, and maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population. Amador LHD will focus on its first year on developing its CNAP and doing community assessments. Once completed, the Network will provide technical assistance to Amador LHD to identify PSE strategies that are responsive to community needs and be selected from appropriate, evidence-based sources from USDA. Amador will use quarterly progress reports in an effort to track PSEs for process evaluation. In addition, data collected from state level surveys will be used to assess trends in consumption of foods and beverages across all interventions conducted locally.
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

**Amador County LHD does not have any subcontractors within this grant. LHD is solely responsible for achieving program goals.**

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

Amador will provide interventions beyond indirect education. The LHD is new to the Network for a Healthy California, and its allocation of \$89,919 is based on the level of SNAP-Ed eligible population participation at 7,122, which represents 5.62% of the total county population. With these funds, Amador believes their program activities are reasonable and necessary to accomplish SNAP-Ed objectives and goals in their unique rural county. Amador's efforts target SNAP-Ed-funded activities to 890 SNAP participants and SNAP-eligible individuals using means-tested sites to avoid supplanting existing nutrition education programs, and where operating in conjunction with existing programs such as UC Davis Cooperative Extension (UC CalFresh), intends to avoid overlap in the community. UC CalFresh conducts nutrition education workshops through CalFresh, TANF, CalWorks, emergency food assistance sites at elderly service centers and community centers, and at public housing community rooms in Amador County. UC CalFresh also provides direct education in all schools in Amador County that qualify per Free and Reduced Meal Price (FRPM) school data. Amador will revise its Project Synopsis to include indirect education through a targeted direct mail campaign to CalFresh eligibles, work with a coalition to develop a three-year County Nutrition Action Plan (CNAP), conduct community assessments and make presentations to decision makers of the findings, participate in local media activities and community events reaching SNAP-Ed eligible individuals or groups, and in future collaborate on Policy/Systems/Environmental Change (PSE) to improve access to healthy foods and beverages and to increase opportunities for physical activity. To enhance collaboration and communication among stakeholder agencies, Amador will establish and maintain key partnerships through the CNAP group that will meet regularly

Key Methods:

- Advisory Council/Task Force (specify): Mayor's Task Force on Health
- Internet/Web Sites-website address: \_\_\_\_\_
- Print Media
- Radio: \_\_\_\_\_
- TV: \_\_\_\_\_
- Multi-level approaches that include environmental supports
- Nutrition Education Classes: (250 occurrences at .75 hour(s) each)
- Community Education Events: (5 occurrences at 4 hour(s) each)
- Training/Workshop/Conference: (5 occurrences at 2 hour(s) each)
- Point of Purchase: (\_\_\_\_\_ occurrences at \_\_\_\_\_ hour(s) each)
- Other (specify): drop-in individual meetings and small group nutrition education: (10 occurrences at .25 hour(s) each)

Key Educational Messages: All messages will align with the Dietary Guidelines for Americans 2010 and MyPlate. Messages will promote Enjoy your food, but eat less; Avoid oversized portions; Make half your plate fruit and vegetables; Switch to fat-free or low-fat (1%) milk; Compare sodium in foods and Drink water instead of sugary drinks.

Projected Unduplicate Number of Contacts: 3000

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in the City of Berkeley. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) conduct a Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) or other community assessment in up to 7 SNAP-Ed eligible low-income neighborhoods and share results with various local stakeholders, community members and community organizations; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Process methods, including attendance, amount of time of the nutrition education, and the specific activities performed will be collected for all nutrition education activities. Focus groups with Head Start parents/caregivers and staff will be conducted for program planning purposes and to better meet their needs. The nutrition educator, community outreach workers, and program coordinator will administer participant surveys measuring knowledge and skill improvement in the nutrition education topics, as well as changes in behavior related to increased fruit and vegetable consumption and physical activity on an individual basis and as perceived in participants' families and/or among their peers.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

Projected Unduplicate Number of Contacts: 5,100

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Butte County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) conduct a Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) or other community assessment in up to 7 SNAP-Ed eligible low-income neighborhoods and share results with various local stakeholders, community members and community organizations; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (MAX. 100 WORDS)**

Evaluations will be measured against the deliverables set forth in the SOW FFY 2013-2016. Key performance measures of process evaluations will include agendas and activity logs of meetings, trainings, and classes, and the number of participants at each event. Formative evaluations will measure participants' changes in attitudes, knowledge, beliefs and skills related to nutrition education and obesity prevention. The changes will be measured using pre- and post-tests, surveys, and structured interviews. Beginning FY 2014, an Impact Outcome Evaluation (IOE) plan will be conducted annually to measure change in healthy food and beverage consumption post intervention.

---

**2. EVALUATION PLANS.**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS. (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Supplement:** Butte chose 1) Safe Routes to School to promote active transport and work to improve access to safe streets through complete street projects or safe routes for all users, including bicyclists and pedestrians, and 2) working with neighborhood vendors and restaurants to improve kid meal menu selections and market healthier food options is a great way to reduce the amount of fat and sugar children consume. Butte will participate in evaluation and report metrics as per Network criteria and as appropriate for the PSEs it chose. For the Safe Routes to School, success will be measured by looking at physical improvements to the street environment, increase in number of students walking and biking to school, improved safety infrastructure and reduced number of injuries due to traffic related accidents. For improving kid meal menu selections and market healthier items in restaurants, evaluation plans will seek

statistically significant change among SNAP-Ed eligible children in their perceived ability to purchase and consume healthy kid meals when eating out. In addition, evaluation will measure statistically significant change among SNAP-Ed eligible children in their perceived ability to purchase and consume water, low fat milk, or non-fat milk when eating out. Butte LHD staff is increasing from 2.985 FTE to 3.35 FTE in FFY14. Butte will have one Project Coordinator working 0.75 FTE SNAP-Ed; two Health Educators devoting 1.00 FTE each and a third half time Health Educator working 0.50 FTE. Lastly, a Registered Dietician will provide consultation for the nutrition education program 0.10 FTE.

The Project Coordinator will coordinate program staff and nutrition education activities; plan and follow through on educational events at health fairs, schools, and other promotional activities to SNAP-Ed eligibles; work with schools, churches, farm worker organizations, and community organizations in planning and promoting good health through dissemination of nutrition education materials; acquire approved nutrition education curriculum and educational materials; promote existing and/or new physical activity promotional components of nutrition education; and expand existing community programs to encompass nutritional components that will increase community awareness of the benefits of a healthy lifestyle.

Health Educators will facilitate general nutrition education classes, use approved SNAP-Ed nutrition education curriculum and educational materials in group and individual settings throughout the county to current and potential SNAP-Ed eligible.

Registered Dietician will oversee and supervise the nutrition education program including project administration, project coordination, and promoting physical activity as allowed by USDA.

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measureable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teens by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

X	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
X	Investigate environmental or cultural barriers to healthy eating and active living.
	Provide training or technical assistance to health or community professionals.
X	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify:
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of three proposed subcontractors (two approved and one pending) in Butte County's FY14 SNAP-Ed Program project. All subcontractors will support our program in achieving the four above identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

**Objectives 1-3:** Two subcontractors will support the LHD to provide nutrition education activities to youth (teens and children) and adults (parents and teachers) at school district affiliated venues such as classrooms, school sponsored events, early childhood education

sites, before and after school programs, and teacher in-service/trainings. Subcontractors will train teachers on the use of taste testing or food demonstration curriculum, materials and student workbooks, such as Harvest of the Month; train parents at nutrition education classes taking place at before and after school programs; and conduct food demonstrations and taste testing activities at school-wide (or pre-school) events targeting both youth and adults. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractors through the distribution of newsletters and other education materials sent directly to parents of youth and/or teens of targeted sites.

**Objectives 1-4:** One subcontractor will serve as the coordinating body for youth engagement trainings of teens at school sites. This subcontractor will also directly provide these trainings. The purpose of the youth engagement related activities will be to increase awareness of policies, systems, and environmental change approaches to establishing wellness policies at their respective school sites.

Butte County will specifically address **Objectives 3 and 4** by working on policies, systems, and environmental change strategies to include: improving kid meal menu selections among local food retailers, and increasing the number of children walking/biking to and from school within SNAP-Ed eligible neighborhoods. To improve kid meal menus, Butte County will engage food retailers in the effort to increase children's access and consumption of lowfat/nonfat beverages, water, fruits, and vegetables by using/displaying nutrition education materials and modifying or expanding children's menu options.. Additionally, Butte County will be partnering with other agencies and programs on a Safe Routes to School project, and will be working directly with neighborhood schools to conduct nutrition education classes and establish/expand wellness policies. Wellness policies, depending on the exact nature of the policy adopted, will help create an environment where it is easier to engage in the healthy consumption of fruits, vegetables, low-fat/nonfat milk, and water; as well as increase physical activity.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

There will be two subcontractor(s) who will directly provide the pre-school and school-based trainings of children, teens, and adults as it relates to taste testing and food demonstration activities, e.g. Harvest of the Month, cooking demos, etc. One subcontractor will focus on pre-school sites at ten different geographic locations in the county. The other sub-contractor will focus on the teen population and their families, which will comprise of all the middle and high school sites in Butte County. All subcontractors will support the program by collecting process evaluation data such as number of individuals reached, materials distributed, and documentation of the number and type of activities conducted. A subcontractor will be hired for the formative evaluation, which will be conducted to ascertain any changes in fruit and vegetable consumption and beverage intake.

A similar model of implementation will also take place for the subcontractor conducting youth engagement related activities to support the adoption and implementation of school wellness

policies.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

## Budget Coversheet

Prime Grantee Name: Butte County Public Health Department

Budget Categories	FFY 13 Total	FFY 14 Total	Difference	% Difference
1 Salaries	\$146,548.00	\$169,591.75	\$23,043.75	15.72%
2 Benefits	\$61,550.00	\$68,592.26	\$7,042.26	11.44%
3 Operating	\$13,526.00	\$13,323.60	-\$202.40	-1.50%
4 Equipment	\$8,505.00	\$650.00	-\$7,855.00	-92.36%
5 Travel & Per Diem	\$8,000.00	\$6,063.75	-\$1,936.25	-24.20%
6 Subcontractors	\$26,042.00	\$379,689.90	\$353,647.90	1357.99%
7 Other Costs	\$10,200.00	\$8,636.00	-\$1,564.00	-15.33%
8 Indirect Costs	\$44,720.00	\$51,185.74	\$6,465.74	14.46%
<b>Totals:</b>	<b>\$319,091.00</b>	<b>\$697,733.00</b>	<b>\$378,642.00</b>	<b>118.66%</b>

Budget Categories	Reason for difference greater than 5%
1 Salaries	Staff is increasing from 2.895 FTE in FFY 2013 to 3.35 FTE in FFY 2014. BCPHD will have one Project Coordinator working 0.75 FTE SNAP-ed; two health educators devoting 1.00 FTE each and a third half time health educator working 0.50 FTE. Lastly, a Registered Dietician will provide consultation for the nutrition education program 0.10 FTE.
2 Benefits	Benefits are increasing due to the increased staffing described above.
3 Operating	N/A
4 Equipment	Equipment is decreasing because most equipment was purchased in FFY 2013 to get the program up and running. BCPHD will purchase a computer and office furniture for the 0.50 FTE Health Educator who has been added to the contract.
5 Travel & Per Diem	Travel and Per Diem is decreasing because staff will not attend the 2 CX3 trainings offered in FFY 2013. Instead of the Childhood Obesity Conference that was offered in FFY 2013, 2 staff will attend the Annual Network Conference in Sacramento, eliminating the cost of airfare and car rentals for the occurrence.
6 Subcontractors	The budget for subcontractors is significantly increasing due to the increase in funding allocated to BCPHD. BCPHD's budget is increasing \$378,892 from FFY 2013. BCPHD will contract with two outside agencies to accomplish the objectives that have been added to BCPHD's Scope of Work in FFY 2014.
7 Other Costs	Purchased supplies in year 1 that will be used in year 2; subcontracted for direct education and reduced purchase of food for demonstrations.
8 Indirect Costs	An adjustment has been made to indirect costs based on personnel changes described above.

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Calaveras county/city. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; conduct community events reaching SNAP-Ed eligible individuals or groups;

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention
- Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

*Key performance indicators of nutrition education will measure increased knowledge about the benefits of healthy eating and physical activity*

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will seek to establish/maintain key partnerships throughout the county leading to enhancing collaboration and communication among stakeholder agencies with a goal of coordinating nutrition education messages, resources and campaign implementation across FNS programs in an effort to increase food security in the target population. These efforts will constitute the formative steps to a possible future County Nutrition Action Plan (CNAP).

\*After each school name indicate all that apply with the following abbreviations: K-12 School (S), Preschool (PS), After School (A) & Parents (P)

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need?*

*How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

<b>X</b>	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical

	activity.
X	Mobilize community partnerships around healthy eating and active living.
	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
X	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
X	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
X	Investigate environmental or cultural barriers to healthy eating and active living.
	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
	Promote access/appeal, or policy changes to support physical activity or exercise.
	<p>Other, specify:  Calaveras Public Health Services is now part of the Calaveras Health and Human Services Agency bringing together Human Services, Public Health Services and Behavioral Health Services. We believe that the merging of departments will enhance the work of Public Health in the area of SNAP Ed. Human Services has a strong presence in the community and additional community partners. They also have the experience of doing SNAP Ed outreach and knowledge of the population. The reorganization was started only two weeks ago, so the potential is present but has not been actualized yet.</p>
	<p>Other, specify:  Calaveras Public Health Services is the recipient of the Community Transformation Initiative funding. The focus of the physical activity and obesity prevention strategic directions are primarily school-based. This offers an opportunity for the SNAP Ed staff to participate on existing community work groups that include community partners for each of the strategic directions. In addition, the school-based work on increasing water consumption and decreasing sugary drinks will be enhanced by SNAP Ed interventions conducted at the Food Bank and pantry sites. Those families of students that are low income will have the benefit of receiving direct and indirect nutrition education at the site. They will receive broader nutrition information at the Food Bank to complement the work being done at CA4Health with those most challenged in accessing healthy food in a rural setting.</p> <p>The current Initiative interventions include adoption of policy language in two district Wellness Plans to promote water consumption. FY 2013-2014 interventions will include recommended language to support implementation of Safe Routes to School activities and practices in the district Wellness Plans.</p> <p>Public Health Services also receives Tobacco Prevention funds. This year is the first of four years that will include a multi-disciplinary approach to creating healthy retail environments. This creates an excellent opportunity to identify complementary efforts that can impact the food and tobacco retailers serving SNAP Ed eligible clients. This will be defined in the Tobacco assessment process if funding is approved for SNAP Ed. The focus will be on the two retailers in the County that serve significant numbers of SNAP Ed recipients. SNAP Ed staff will also have the advantage of accessing the Tobacco</p>

	<p>Prevention partners already working on the Alliance for Substance Abuse Prevention [ASAP] as new partners for the healthy retail environment.</p> <p>Both CA4Health and the Tobacco Prevention Program are programs within the Health Education Unit where SNAP Ed will be housed.</p>
--	---

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

Calaveras Public Health Services will not subcontract services for SNAP Ed. The work in the four objectives will be completed by a trained paraprofessional staff person and the Health Education Manager. The paraprofessional position is a Community Health Assistant III, the highest level paraprofessional classification. The staff will be trained in the nutrition curriculum that will support the direct and indirect educational activities conducted at the Food Bank and the Food Bank Pantry sites throughout the County. All direct and indirect educational activities will be completed by the Community Health Assistant at the Food Bank, produce days and pantry sites throughout the County.

The Health Education Manager will be lead on the process for the development and implementation of environmental strategies. Examples will be establishing relationships with two retail grocers that serve significant numbers of SNAP Ed recipients to address creating a healthier retail environment through placement of healthy options and messaging. The Health Education Manager will also represent SNAP Ed on the Community Transformation Initiative work groups and on the two-county nutrition and physical activity coalition [Connecting HANDS] to build partnerships with those that share a common vision and develop activities that will provide healthy food choices information to the community.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

The Calaveras Public Health Services will be responsible for conducting all the direct and indirect education activities and interventions through the partnership with the local Food Bank. The activities will contribute towards the achievement of the state objectives. Nutrition curriculum, educational materials and food sampling will be selected to increase consumption of fruit and vegetables. The increased water consumption will be complementary to the Rethink Your Drink activities being used on the school campuses through the Community Transformation Initiative and will utilize those materials allowing the parents to receive the same messages that are being promoted with the 7<sup>th</sup> – 12<sup>th</sup> grade students at two high schools and two middle schools. Increasing physical activity will be promoted and will complement the work of the Community Transformation Initiative by sharing the benefits and the local activities being sponsored. The Initiative will focus efforts on policy in the district Wellness Plans and the work with local and state government agencies to address critical safety concerns in San Andreas and Angels Camp where Highway 49 bisects the towns and creates pedestrian and biking safety concerns. The SNAP Ed activities at the Food Bank will offer opportunities to interact with the adults in the community and will broaden the base of support for safer and walkable communities.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

**Calaveras Public Health Services is a new SNAP Ed provider but we draw on the experience of staff that have worked with the Nutrition Network in larger counties and developed and implemented**

**participatory process with community partners in varying areas of health. Calaveras is anxious to build on this experience base and to expand the capacity of staff to incorporate public health practice in the identified intervention activities. This will enhance of the work of our new agency structure, Calaveras Health and Human Services Agency and our community work. As experienced SNAP Ed outreach providers, this will bring together the assets of two key local government agencies for the benefit of preventing chronic disease and making Calaveras a healthier place to live, work and play.**

Projected Unduplicate Number of Contacts: 12,117

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Contra Costa county. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Share Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) assessment results with various local stakeholders, community members, and community organizations. Implement Network allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX3 assessed neighborhoods. 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention  
 Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

The main indicators of implementation or performance that we will use include:

1. Documents completed and submitted to the Network
2. Copies of agendas
3. Records of participation
4. Activity tracking forms
5. Attendance logs
6. Impact outcome evaluation

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

The evaluation will measure statistically significant increases in fruit and vegetable consumption and/or improvements in related factors, such as knowledge of physical activity and fruit and vegetable consumption recommendations, self-efficacy and/or norms in a sample of the SNAP-Ed eligible population. Measurements will include 100 matched pre-post tests.

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Supplement:** The Contra Costa Health Department will participate in evaluation and report metrics as per Network criteria and as appropriate for the PSEs it chose. (See State section of the plan for a description list of the RE-AIM methodology, semi-annual surveys, annual critical analysis and in-depth assessment of organizational capacity among the 17 largest agencies). The core objectives will be met

through the required nutrition education and obesity prevention activities and deliverables in the Grant scope of work. For FFY 14, this includes 1) a three-year plan, 2) nutrition education series classes and workshops (evidence based/evaluation behavioral change), 3) events to address the four core objectives, MyPlate Pledge for Fruit and Veggie Fest, Rethink Your Drink, Turn Off the TV Week, Safe Routes to School-Back to School promotion 4) development or implementation of CNAP depending on status of agency, 5) community assessment or CX3 reassessment, 5) PSE strategy indentified from assessment (must align with core objectives 1 and 2 ), 6) presentation or forum on CX3 or assessment results, and 7) peer-to-peer trainings to service providers working with target audience. Co has an established CNAP and will 1. Promote all FNS programs by enhanced referral and coordination among local FNS program staff. 2. Promote the School Meals program. 3. Promote certified Farmers' Markets by clients participating in federal food assistance programs. 4. Promote Senior Nutrition. 5. Promote programs that provide nutrition and physical activity education. 6. Maintain and expand local CNAP 7. Communicate with partners about CNAP activities. 8. Provide mechanism for communication between local entities.

**Contra Costa County Health Services**  
**FFY 2014 Objective Summary**

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10% , teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represents before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

<b>X</b>	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
<b>X</b>	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
<b>X</b>	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
X	Develop point-of-purchase marketing/signage at food retailers.
X	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
X	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
X	Other, specify: Encourage active transport of students at targeted schools in partnership with a Safe Routes to School Program.
X	Other, specify: Increase participation of EBT use among parents of school aged children at local mobile farmer's markets.

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

**Sample Response:**

There are a total of 9 proposed subcontractors in Contra Costa County's FY14 SNAP-Ed Program project. All subcontractors will support our program in achieving the four objectives identified above to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

**Objectives 1-3:** Specifically, Contra Costa County Health Services (CCHS) will subcontract with 3 school districts to work directly with youth and adults at qualifying school sites that have been chosen by the district. All three school districts have been identified.

Collectively, these 3 subcontractors will support CCHS in increasing nutrition education and physical activity opportunities, and promoting the use and implementation of social marketing strategies that increase access and the consumption of healthy foods and beverages at the local school sites.

Subcontractors will be trained by CCHS to work with staff in the school and afterschool programs to utilize Harvest of the Month or other materials that facilitate taste testing or food demonstrations in the classroom and afterschool program; promote evidence based physical

activity programs and link them to classroom and afterschool program activities; work with the school districts to update their wellness policies to create a healthy school and afterschool environment (i.e., healthy school parties, the use of things other than food as rewards, etc.); provide nutrition education classes for students and parents; and develop social marketing strategies that increase access to and the consumption of healthy foods and beverages at the designated sites.

The 3 subcontractors will engage in several strategies to reach the entire school and parents. Nutrition education and activities that promote being physically active will be highlighted at school-wide events such as Back-to-School Nights, Open House, health fairs, and school assemblies. In addition, messages that promote healthy eating and active living, more specifically those that emphasize the importance of consuming vegetables, fruit, low-fat/nonfat milk and water, will be disseminated by the subcontractors through the use of such mechanisms as newsletters, morning announcements, e-blasts, and parent meetings.

Finally, these three subcontractors will work with CCHS to promote the development and implementation of strategies to increase access and consumption of healthy foods, such as supporting the implementation of salad bars at school sites; supporting the implementation of healthy vending policies; promoting breakfast programs; and the use of EBT at mobile farmer's markets that have sites on or nearby the schools.

**Objectives 1-4:** Three community-based organizations will subcontract with CCHS to work directly with youth to engage them in developing leadership, critical thinking, problem-solving and community-based research skills. Of the three, two subcontractors have been identified and one is yet to be determined.

The three subcontractors will help the youth to identify and address an issue that impedes access and consumption of healthy foods and beverages, and physical activity opportunities in their environment. The purpose of the youth engagement related activities will be to increase awareness for policies, systems, environmental and public health change approaches to solving problems in their environment. CCHS will train the subcontractors on nutrition education for youth, the importance of physical activity and how it relates to the environment, taste testing's, and youth-led participatory action research. With the guidance of the subcontractors the youth will identify and research an issue related to consumption of healthy foods and beverages and physical activity in their environment; gathering information and identifying public health approaches for solving them; preparing and making presentations to key stakeholders; conducting nutrition education awareness activities in qualifying communities; and documenting policy and systems changes.

**Objectives 1-4:** One faith-based organization has been identified to subcontract with CCHS to recruit SNAP-Ed eligible members of the community to be trained as peer educators to provided nutrition education/obesity prevention classes to their peers. CCHS will work with the subcontractor to train peer educators how to promote and conduct a series of nutrition education workshops, and provide their peers education about food security and how to make

changes to improve health in at the individual, family and organizational level.

**Objectives 1-4:** One community-based organization has been identified to subcontract with CCHS to conduct nutrition education interventions and participate in local events to promote access and consumption of healthy foods and beverages and physical activity. The subcontractors outreach efforts will focus on the Spanish-speaking community and activities will include facilitating a series of workshops with taste testing's and food demonstrations, and attending community events to promote healthy eating and physical activity. CCHS will provide training on nutrition education, promoting food security, and physical activity.

**Objective 1-3:** One program consultant, who is yet to be determined, will subcontract with CCHS to provide program consultation and technical assistance for staff at CCHS as we work to expand our county-wide nutrition action plan. More specifically this subcontractor will provide guidance and recommendations as we look to expand and increase our partnerships, reconfigure the structure of the group to include new target populations (i.e., schools, youth engagement, peer-to-peer) as we work to reach Objectives 1-3, and build the capacity of CCHS staff.

**Objective 3:**

As the LHD, Contra Costa Health Services will specifically address Objective 3 by working on a policies, systems, and environmental change strategy to increase the consumption of water by students at qualifying schools.

As part of the policy, systems and environmental evaluation for FY14, an observational survey that assess purchases made at local retail stores by students walking to school will be implemented. A written survey will also be administered to the youth and they will be asked to identify the types of beverages they consume. CCHS will use the results from this data to work with the qualifying schools, students and parents to promote the consumption of water and un-sweetened beverages through Rethink Your Drink activities.

In addition to the above, CCHS will work with school districts who subcontract with us to update their wellness policies, and community and faith-based organizations who subcontract with us to create an environment where it is easier to engage in the healthy consumption of fruits, vegetables, low-fat/nonfat milk, and water; as well as increase physical activity.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

**Sample Response:**

Three school districts will subcontract with and support CCHS in increasing nutrition education and physical activity opportunities; and promoting the use and implementation of social marketing strategies that increase access and the consumption of healthy foods and beverages at the local school sites. These three subcontractors will serve the three major regions of Contra Costa (i.e., West, Central and East County) and provide service for a mix of one of the

smallest to two of largest sized school districts reaching a significant number of targeted youth (estimated combined total > 15K FRMP youth) .

Three community-based organizations will subcontract with and support CCHS in helping youth to identify and address an issue that impedes access and consumption of healthy foods and beverages, and physical activity opportunities in their environment. Each subcontractor will work in a different region of West Contra Costa as it comprises the largest number of qualifying sites and the largest segment of the SNAP-Ed eligible population targeted by CCHS.

All subcontractors will support the program by collecting process evaluation data such as number of individuals reached, materials distributed, and documentation of the number and type of activities conducted. Formative evaluation will also be conducted to ascertain any changes in fruit and vegetable consumption and beverage intake.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

**N/A**

## Budget Coversheet

Projected Unduplicate Number of Contacts: 2,340

Narrative

The health departments (LHDs) provide nutrition education and obesity prevention services to eligible SNAP-Ed residents in Colusa and Glenn Counties. The LHDs will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHDs will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 4) conduct community events reaching SNAP-Ed eligible individuals or groups; 5) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 6) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention  
 Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (MAX. 100 WORDS)**

Key performance indicators will include 1) the number of *ReThink Your Drink* marketing activities directed towards increasing healthy beverage options, and 2) survey input from intermediaries and/or consumer testing of new materials. Additional performance measurements will be the evaluation documents (surveys, interview guides and transcripts, methods, etc.) and collaboration between Program Managers and Network Research and Evaluation staff to develop a final policy evaluation plan and report.

---

**2. EVALUATION PLANS.**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS. (MAX. 100 WORDS)**

The LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Del Norte County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) conduct a Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX<sup>3</sup>) or other community assessment in SNAP-Ed eligible low-income neighborhoods and share results with various local stakeholders, community members and community organizations; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX<sup>3</sup> or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (MAX. 100 WORDS)**

Increase use of Farmer's Markets by Snap-Ed eligible population by monitoring use of CalFresh benefits throughout the year, promote gardening in afterschool programs and family-friendly community gardens, promote family meals and kid's cooking through family based education materials and direct nutrition education and family cooking demonstrations.

---

**2. EVALUATION PLANS.**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS. (MAX. 100 WORDS)**

THE LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population. Del Norte collaborates with the Rural Human Services Farmer's Market, the Del Norte County School District, the Del Norte and Adjacent Tribal Lands (DNATAL) Food Council and Building Healthy Communities Project to provide Nutrition Education Activities to local Snap Ed eligible residents.

Projected Unduplicate Number of Contacts: 2000

Narrative

The El Dorado Hills Community Vision, Inc. provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in El Dorado county/city. The El Dorado Hills Community Vision, Inc. will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The El Dorado Hills Community Vision, Inc. will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) conduct a Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) or other community assessment in SNAP-Ed eligible low-income neighborhoods and share results with various local stakeholders, community members and community organizations; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community

events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- . Continuing, No adaptation or change in intervention  
. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

EDHCVI will use both process and outcome evaluation to measure performance. Sign in sheets, copies of meeting agendas, records of participation, needs assessment, survey results, training agendas, lesson plans, and community event materials will be collected for all nutrition education activities. The Project Coordinator will administer participant surveys measuring knowledge and skill improvement in the nutrition education topics, as well as changes in behavior related to markers of increased nutritional and physical health on an individual basis and as perceived in participants’ families and/or among their peers

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

El Dorado Hills Community Vision, Inc. (For El Dorado County) will establish partnerships through a new County Nutrition Action Plan group that will meet 4 times per year. El Dorado Hills Community Vision, Inc. (For El Dorado County) will develop a CNAP to 1) enhance collaboration and communication among stakeholders, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target populations in El Dorado County.

**Supplement:** El Dorado Hills Community Vision, Inc. is new to the Network for a Healthy California. They will be focusing on developing their CNAP and doing their community assessment. Once completed, they will identify PSE strategies that align with the community needs. They plan to address their PSE activities in year 2 and 3. El Dorado Hills Community Vision, Inc. plans to localize the nutrition education to fit their community needs. They plan to develop a new webpage focusing on nutrition; providing nutrition education information, resources, and a calendar of events like the location/times of farmers markets, forums, etc. The new webpage will be promoted at means-tested settings like Food Banks, CalFresh Offices, WIC, Head Start Offices, Family Resource Centers, and low resource schools (50% or greater FRPM). Rural counties can reach more people with website information. The RE-AIM framework, semi-annual surveys, and in depth assessment will be apart of the evaluation and reporting.

Per El Dorado Hills Community Vision Inc. Letter of Intent, the El Dorado County Division of Public Health designated El Dorado Hills Community Vision, Inc. to act as their lead agency and provide SNAP-Ed services in El Dorado County. The two agencies/organizations have worked closely together for several years implementing programs in the county and community. The El Dorado Hills Community Vision, Inc.'s coalition has an executive advisory committee of county representation ranging from health professionals, education professionals, youth, youth serving organizations, parents, law enforcement, and civic and volunteer organizations. El Dorado Hills Community Vision Inc. will receive the SNAP-Ed funding for this project and will work with the El Dorado County Public Health as a partner and receive consultation and technical assistance to implement a highly quality, and cost-effective program. The Program Coordinator will oversee the program activities including CX3. The role of the LHD is the same in all counties where a private not-for-profit entity is designated to operate the SNAP-Ed program. In these jurisdictions the LHD is expected to attend meetings, communicate regularly with and monitor the progress of the contractor in meeting its objective.

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent systematic before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

<b>X</b>	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
<b>X</b>	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
<b>X</b>	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
X	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
X	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
X	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
X	Cultivate community or school gardens.
	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify:
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of **5** proposed subcontractors in El Dorado County's FY14 SNAP-Ed Program project through the El Dorado Hills Community Vision, Inc. All subcontractors will support our program in achieving the four above identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

**Objectives 1-3:** Specifically, **one** subcontractor, the Nutritionist, will take on a technical assistance and training role along with the Project Coordinator and 4 subcontractors to directly work and train youth and adults at local sites. Collectively, these 5 subcontractors and Project

Coordinator will support the County NEOP program to provide nutrition education activities to youth (teens and children) and adults (parents and teachers) at school district affiliated venues such as classrooms, school sponsored events, early childhood education sites, before and after school programs, teacher in-service/trainings, and partnership activities with local parks and recreational programs. Subcontractors will support the Project Coordinator to train teachers on the use of taste testing or food demonstration curriculum, materials and student workbooks, such as Harvest of the Month; train parents at nutrition education classes taking place at before and after school programs; and conduct food demonstrations and taste testing activities at school-wide events targeting both youth and adults. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the Project Coordinator and subcontractors through the distribution of newsletters and other education materials sent directly to parents of youth and teens of targeted sites.

Wellness policies, depending on the exact nature of the policy adopted, will help create an environment where it is easier to engage in the healthy consumption of fruits, vegetables, low-fat/nonfat milk, and water; as well as increase physical activity.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another? Will there be differences in their target audiences, geographic locales, performance measures, etc.?**

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

The nutritionist subcontractor will provide onsite training and technical assistance at large community events and activities at locations within the geographically large, rural county, of El Dorado. The nutritionist as a subcontractor is needed because the state level Registered Dietician will mostly be providing technical assistance from the State office located in Sacramento, the State Capitol, of California, and will not be available to travel to the many locations in various parts of El Dorado County where onsite training and assistance is needed to accomplish the 4 NEOP objectives.

Projected Unduplicate Number of Contacts: 18,000

Narrative

Fresno County Department of Public Health (FCDPH) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Fresno County. FCDPH will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population. FCDPH will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Implement *Network* allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX<sup>3</sup> assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX<sup>3</sup> or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer ("Champions") of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement

allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Fresno County Department of Public Health (FCDPH) will maintain documentation for each objective, including: Meeting documentation (agendas, sign-in sheets) for the County Nutrition Action Plan (CNAP) and the CX<sup>3</sup> process, including qualitative summaries of data collection process, data analysis of collected information, and communication tools to share the final reports; Nutrition Education class and activity events (date, time, location, recruitment participant sign-in, sample lesson plans, and quality assurance oversight summaries); CNAP and CX<sup>3</sup> reports; Media documentation (related local press on the topic); and any documentation not specifically related to activities listed above, that results in the evaluation activities completed locally and with the California Department of Public Health.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

\*After each school name indicate all that apply with the following abbreviations: K-12 School (S), Preschool (PS), After School (A) & Parents (P)

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent systematic before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
X	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
X	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
X	Other, specify: Link local farmers to local schools – revamp local school procurement systems to increase fresh, locally sourced produce served to students.
X	Other, specify: Link local farmers to local retail stores – revamp local procurement systems of local retail stores to increase fresh locally sourced produce at small convenience stores.

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of **five (5)** proposed subcontractors in **Fresno County Department of Public Health** County's FY14 SNAP-Ed Program project. All proposed subcontractors will support our program in achieving the four identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity among adults, teens, and children. All proposed subcontractors will be providing services, utilizing Network approved materials, in one or all of the following six targeted neighborhoods in Fresno County: Hamilton, Lowell, West Fresno, Reedley, Parlier and Firebaugh. The six targeted neighborhoods, with specific census tracts, were selected based on the USDA's guidance for SNAP-Ed eligible and

participant population, Years of Potential Life Lost Across Zip Code analysis, and neighborhoods near or within the locally designated 12 USDA food desert areas.

**Objectives 1-4: One (1)** subcontractor will take lead on overall evaluation of NEOP Program that includes working closely with LHD and other proposed subcontractors to plan, monitor, and analyze data to help inform the work to increase vegetable, fruit, low-fat/nonfat milk and water consumption; as well as increase physical activity amongst adults, teens, and children. Furthermore, formative evaluation services will include evaluation of overall program, measure of impact, and capturing changes along the way due to NEOP Program interventions.

**Objectives 1-3: One (1)** subcontractor(s) will take lead role to directly work and train youth and adults at local school district sites. This subcontractor will support the LHD to provide nutrition education activities to youth (teens and children) and adults (parents and teachers) at school district affiliated venues such as classrooms, school sponsored events, early childhood education sites, before and after school programs, teacher in-service/trainings, and partnership activities with local parks and recreational programs. Subcontractor will train teachers on the use of taste testing/food demonstration curriculum, materials and student workbooks, such as Harvest of the Month; train parents at nutrition education classes taking place at before and after school programs; and conduct food demonstrations and taste testing activities at school-wide events targeting both youth and adults. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractor through the distribution of newsletters and other education materials sent directly to parents of youth and teens of targeted sites.

**Objectives 1-4: Two (2)** subcontractors will also serve as the coordinating body for youth engagement trainings of both youth and teens at school and community sites, e.g. before and after-school programs, parks and recreational programs, faith based organizations, and youth-focused service organizations. The purpose of the youth engagement related activities will be to increase awareness for policies, systems, and environmental change approaches to establishing wellness policies at their respective school sites.

**Fresno** County LHD will specifically address **Objectives 1-4** by working with Fresno Unified School District, fourth largest school district in California, to update their wellness policy to promote an environment where it is easier to engage in the healthy consumption of fruits, vegetables, low-fat/nonfat milk, and water; as well as increase physical activity.

**Objectives 1-3: One (1)** subcontractor will take lead role in working directly with local qualifying retail sites promote and implement Rethink Your Drink healthy beverage nutrition education interventions to increase consumption of low-fat/nonfat milk and water as well as increase consumption of fruits and vegetables. Additionally, the proposed subcontractor will conduct a “Fruit and Veggie” Fest in partnership with at least one retail store encourage and promote healthy corner store practices.

**Objectives 1-4: One (1)** will take lead role in working directly with local qualifying worksites to implement worksite wellness activities utilizing the California Fit Business Kit.

**Objectives 1-3: One (1)** will assist the Fresno County LHD in expanding reach and impact of NEOP Program's direct nutrition education. Proposed subcontractor will use their Nutrition on Wheels (NOW), mobile demonstration kitchen, to provide nutrition education during their food distributions and at other events in targeted communities. All food taste testing conducted will use recipes that incorporate the food being distributed.

**Objectives 1-4: One (1)** will take lead role in recruitment and training of community leaders to implement nutrition and physical activity community engagement projects with adult and youth. Community identified projects will strive to increase consumption of fruits and vegetables, increase consumption of low-fat/nonfat milk and water as well as increase physical activity opportunities.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

All of the **five (5)** proposed subcontractor(s) will coordinate interventions, emphasizing a comprehensive approach to increase consumption of fruits and vegetables, increase consumption of low-fat/nonfat milk and water as well as increase physical activity opportunities. This will be achieved through the following: Measurable impact in target communities; Integrated, layered, community-driven interventions; Multiplied, consistent messages and opportunities for behavior change tailored to unique community needs; and Strategic, coordinated action by all NEOP subcontractors and community partners.

**Two (2)** subcontractors will conduct youth engagement activities. However, one subcontractor will be focusing youth engagement activities in schools and afterschools and the other subcontractor will focus youth engagement activities at different locations in partnership with local community based organizations and faith based organizations.

**One (1)** subcontractor will conduct community forums in at least three targeted communities to identify strategies to increase consumption and access to fruits, vegetables, low-fat/nonfat milk and water as well as physical activity opportunities. Adult community leaders and youth photo voice projects from one of the other subcontractors will help inform community forums being conducted within their respective communities. Another subcontractor focusing on retail will help provide relevant retail data to inform the discussion on determining strategies.

**One (1)** subcontractor, utilizing their Nutrition on Wheels (NOW) vehicle, will partner with three other subcontractors hosting event(s) to provide nutrition education to the participants of the event(s).

All of these collaborative efforts will maximize community engagement through effective collaborations and cross promotion.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

The Fresno County LHD SNAP-Ed FY14 Project is working to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst 18,000 SNAP-Ed adults, teens, and children. In order to be successful with demonstrated outcomes, Fresno County LHD will provide services to the Fresno County residents that are the following: Measurable impact in target communities; Integrated, layered, community-driven interventions; Multiplied, consistent messages and opportunities for behavior change tailored to unique community needs; and Strategic, coordinated action by all NEOP subcontractors and community partners.

## Sub Staffing C

**Definition and basis for calculations of benefit rate(s):**

Fringe benefits include payroll taxes, life insurance, health insurance, unemployment insurance, and a tax-sheltered annuity plan. The project is only charged for the actual cost of the fringe benefits; but for the purposes of budgeting, benefits for any employee whose total commitment equals or exceeds 20 hours per week are calculated at a rate of 35% of salaries. Total annual salary listed is only for an 11 month time period.

Projected Unduplicated Number of Contacts: 5,362

Narrative

The Health Education Council (HEC) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Sacramento County. HEC will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

HEC will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Implement *Network* allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX3 assessed neighborhoods. 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- . Continuing, No adaptation or change in intervention  
. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Our project's nutrition education efforts will focus on increasing fruit/vegetable consumption and healthy eating behaviors, to improve growth/development in youth and prevent obesity and chronic disease in all age groups. Target skills include label reading, meal planning, and food preparation. Increasing physical activity will also be targeting through these efforts. This area will focus on identifying reasonable opportunities to be active and ways to support the family in doing so. Through process evaluation, our project coordinator will collect information on several factors including the number of individuals reached, materials distributed and activities conducted. Nutrition education classes will include brief surveys to assess change in knowledge and/or self-efficacy.

---

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

HEC will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. HEC will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population. HHS will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. HHS will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population. Coordination efforts will be diverse and represent both county and local agency representatives. Partnerships already exist with Placer County Social Services and Human Services, Community Health. In addition, the UC Extension program collaborates with Human Services, Community Health to share expertise and cooperate on grant efforts. We have excellent relationships, both programmatically and philosophically, with local family resources centers, Latino-based organizations, Local USDA funded programs, and shelters.

**Supplement:** Health Education Council's PSE objectives are to: 1.) Increase SNAP-Ed participation at Farmer's Markets and 2.) Decrease consumption of unhealthy foods and beverages, and increase consumption of water by implementing Rethink Your Drink campaign activities. HEC will participate in evaluation and report metrics as per Network criteria and as appropriate for the PSEs it chose. Four approaches will be used to assess organization/environmental change 1.) For the "main" two policy, systems, and environment (PSE) changes that HEC selects, the RE-AIM evaluation framework is being used. HEC's PSE objectives are a.) Increase SNAP-Ed participation at Farmers Markets b.) Decrease consumption of unhealthy foods and beverages and increase consumption of water by implementing Rethink Your Drink activities. 2.) To monitor progress, PSEs are being reported semi-annually via Survey Monkey. 3.) LHDs will critically analyze their PSE accomplishments in their comprehensive annual reports 4. To assess progress specifically in the development of organizational capacity among the 17 largest LHDS's, an annual qualitative survey started in FFY13 will continue through FFY16. The core/main objectives will be met through the required nutrition education and obesity prevention activities in the grant scope of work. FFY 2014 objectives include 1) a three-year comprehensive plan, 2) nutrition education class series and workshops, 3) additional events to ensure core objectives are met include; MyPlate Pledge for Fruit and Veggie Fest, Rethink Your Drink, Back to School promotion and safety prevention 4) CX3 activities and assessments, 5) PSE strategies and activities include; a.) Increase SNAP-Ed participation at Farmers Markets and b.) Decrease consumption of unhealthy foods and beverages and increase consumption of water by implementing Rethink Your Drink campaign activities. 6) Community assessment or CX3 reassessment, PSE strategies and activities identified from assessment, presentation or forum on CX3 or assessment results and 7) peer-to-peer trainings working with target population. In regard to CNAP measurable objectives, Health Education Council (HEC) will be focusing on 1.) Supporting the integration of nutrition education, coordinated messages and information between coalitions and programs 2.) Conduct or incorporate into already existing trainings, classes, workshops or events on healthy eating with an emphasis on fruits and vegetables and cooking, healthy drink options, physical activity and how to access food. 3.) Improve local food systems and environmental supports to support nutrition education and to 4.) Promote increased access and participation in federal programs such as Cal Fresh and Summer Lunch.

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measureable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10% , teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent systematic before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

X	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Mobilize community partnerships around healthy eating and active living.

	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
	Investigate environmental or cultural barriers to healthy eating and active living.
	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify: PSEs for the Youth Engagement Objective are yet to be determined. Sub-Contractor Tahoe Truckee Unified School District will engage youth and staff to identify PSEs that they will work on in FFY14. Sub-Contractor Ellis Planning & Associates will be available to guide evaluation if needed.
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of four proposed subcontractors in Placer County's FY14 SNAP-Ed Program project. All subcontractors will support our program in achieving the four above identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

**Objectives 1-3:** Specifically, one subcontractor will lead local level formative and impact/outcome evaluation for this project. One additional subcontractor will directly work with and train youth and adults at local school district sites. This subcontractor will support the LHD to provide nutrition education activities to youth (teens and children) and adults (parents and teachers) at school district affiliated venues such as classrooms, school sponsored events, early childhood education sites, before and after school programs, teacher in-service/trainings, and partnership activities with local parks and recreational programs. The subcontractor will train teachers on the use of taste testing or food demonstration curriculum, materials and student workbooks, such as Harvest of the Month; train parents at nutrition education classes taking place at before and after school programs; and conduct food demonstrations and taste testing activities at school-wide events targeting both youth and adults. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractors through the distribution of newsletters and other education materials sent directly to parents of youth and teens of targeted sites.

An additional two subcontractors will directly work with adults in the community. Collectively, these two subcontractors will support the LHD to provide nutrition education activities to adults at food banks, faith-based organizations, the retail environment, family resource centers, farmers' markets, and other events and festivals in eligible census tracts. Subcontractors will train promotoras on recruiting Champions, conducting taste testing or food demonstrations, using curricula and materials such as Harvest of the Month, MyPlate, 2010 Dietary Guidelines for Americans, and *Network Toolbox for Community Educators*. Adults will be reached via nutrition education classes taking place at food banks, family resource centers and other such venues. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractors through the distribution of other education materials at targeted sites.

**Objectives 1-4:** One subcontractor will serve as the coordinating body for youth engagement trainings of both youth and teens at school and community sites, e.g. before and after-school programs, parks and recreational programs, faith based organizations, and youth-focused service organizations. The purpose of the youth engagement related activities will be to increase awareness for policies, systems, and environmental change approaches to establishing and implementing wellness policies at their respective school sites.

Wellness policies, depending on the exact nature of the policy adopted, will help create an environment where it is easier to engage in the healthy consumption of fruits, vegetables, low-fat/nonfat milk, and water; as well as increase physical activity.

## Sub Staffing B

Projected Unduplicate Number of Contacts: 5,100

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Humboldt County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 4) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 5) conduct community events reaching SNAP-Ed eligible individuals or groups; 6) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 7) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 8) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

## LOCAL PROJECT SYNOPSIS

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention  
 Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Objective 1, 2 indicators will include meeting agendas, sign-in sheets, lists, contact information and submitted reports. DHHS will evaluate success by the number of partnerships developed with FNS partners. Objective 3, 4, and 5 will include community meeting agendas, sign-in sheets, a summary of environmental change in the CX3 neighborhoods. Objective 6 will use pre and post surveys to assess skill improvement. Indicators will include sample lessons, sign-in sheets, training agendas, summary of visits, and survey results. Objective 7 performance measures will include media journal and clippings. Objective 6 and 8 will be evaluated through formative process and Income/Outcome Evaluation. Objective 9 will include a report of evaluation findings. Objective 10 will include meeting agendas, sign-in sheets, participation sheets and observation report. Objective 11 will include Income/Outcome Evaluation surveys, IOE report, plan and data file.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

## Budget Coversheet

Prime Grantee Name: Humboldt County DHHS Public Health

Grant Number: 13-20493

Budget Categories	FFY 13 Total	FFY 14 Total	Difference	% Difference
1 Salaries	\$158,036.00	\$235,151.36	\$77,115.36	48.80%
2 Benefits	\$68,066.00	\$107,299.43	\$39,233.43	57.64%
3 Operating	\$22,058.00	\$30,174.71	\$8,116.71	36.80%
4 Equipment	\$2,306.00	\$4,216.00	\$1,910.00	82.83%
5 Travel & Per Diem	\$7,870.00	\$15,907.50	\$8,037.50	102.13%
6 Subcontractors	\$0.00	\$123,348.99	\$123,348.99	0.00%
7 Other Costs	\$2,583.00	\$2,825.00	\$242.00	9.37%
8 Indirect Costs	\$7,444.00	\$8,235.01	\$791.01	10.63%
<b>Totals:</b>	<b>\$268,363.00</b>	<b>\$527,158.00</b>	<b>\$258,795.00</b>	<b>96.43%</b>

Budget Categories	Reason for difference greater than 5%
1 Salaries	Increased FTE from 2.86 to 4.51. Also, 2% increase and step increase in local negotiated contract for salaries.
2 Benefits	Based on percentage of salary which averages 44.9%.
3 Operating	Amounts charged based on FTE in program.
4 Equipment	Increase in equipment purchases and events to carry out SOW.
5 Travel & Per Diem	Increase in travel and local mileage to carry out SOW.
6 Subcontractors	Humboldt County Office of Education added for FFY 2014 to help with additional objectives.
7 Other Costs	Outside printing costs seperated from general program duplicating.
8 Indirect Costs	Amounts charged based on FTE in program.

**d. Project Description.**

Key Methods:

- Advisory Council/Task Force (specify): Childhood Obesity Prevention Alliance
- Internet/Web Sites-website address: \_\_\_\_\_
- Print Media:
- Radio: \_\_\_\_\_
- TV: \_\_\_\_\_
- Multi-level approaches that include environmental supports
- Nutrition Education Classes: (68 occurrences at .75 hour(s) each)
- Community Education Events: (22 occurrences at 1.25 hour(s) each)
- Training/Workshop/Conference: (30 occurrences at .75 hour(s) each)
- Point of Purchase: (10 occurrences at 2 hour(s) each)
- Other (specify): \_\_\_\_\_ (\_\_\_\_\_ occurrences at \_\_\_\_\_ hour(s) each)

Key Educational Messages: *All messages will align with the Dietary Guidelines for Americans 2010 and MyPlate. Messages will promote Enjoy your food, but eat less; Avoid oversized portions; Make half your plate fruit and vegetables; Switch to fat-free or low-fat (1%) milk; Compare sodium in foods and Drink water instead of sugary drinks.*

Projected Unduplicate Number of Contacts: 5,181

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Imperial county/city. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) implement *Network* allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX<sup>3</sup> assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix; and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Assessment surveys will be administered at the end of each direct nutrition education intervention. Surveys will assess participants' overall satisfaction of teaching methods and educators, the increase knowledge of the participants and the intention of changing habits and adopting recommendations from the 2010 Dietary Guidelines and MyPlate. Results of the surveys will also be utilized to adapt interventions as needed.

Record of participation/estimate of attendance will be collected for indirect interventions conducted.

Data collected through the County Nutrition Action Plan (specifics of local projects) will provide guidance and direction to CNAP members to standardize interventions based on needs.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

The LHD will establish/maintain key partnerships through the County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Supplement:** Imperial County LHD will be developing their PSE activities based on their CX3. The PSE activities are Retail and Rethink Your Drink. Working with retailers, Imperial plans to increase access, affordability and availability of healthy foods in low income neighborhoods. With the Rethink Your Drink PSE, Imperial plans to reduce the consumption of sugar sweetened beverages in the low income

neighborhoods, i.e. public housing units, parks and other settings serving the low-income SNAP Ed population in the county. The Imperial County LHD will participate in evaluation and report metrics as per Network criteria and as appropriate for the PSEs it chose. The RE-AIM framework will be used for planning new interventions, adapting existing interventions, and designing evaluations that assess the potential public health impact of interventions. Imperial has a robust set of SNAP-Ed activities. However, the project description does not provide a thorough explanation for how core objectives will be met. Please clarify and expand on what you seek to accomplish during FY-14, particularly in relation to coalition work and PSE activities. For FFY 2014, Imperial County LHD three-year plan includes nutrition education series classes and workshops, which includes RYD; nutrition events and health fairs, i.e. LHAM, Rethink Your Drink, Safe Routes to School–Back to School promotion, CNAP, PSE strategies identified from assessment and peer-to-peer trainings to service providers working with the SNAP Ed population. Imperial County LHD will be developing their PSE activities based on their CX3. The PSE activities are Retail and Rethink Your Drink. Working with retailers, Imperial plans to increase access, affordability and availability of healthy foods in low income neighborhoods. With the Rethink Your Drink, Imperial plans to reduce the consumption of sugar sweetened beverages in the low income neighborhoods, i.e. public housing units, parks and other setting serving low-income residents in the county. What will your measurable CNAP objectives be for FY-14? Imperial County LHD CNAP has/will incorporate objectives that will address the measurable objectives from the California SNAP-Ed Plan. Specific objectives for Imperial County's CNAP are as follows: Leadership and Coordination efforts; Nutrition Education; and Community Environments. The subcontractors focus will be direct nutrition education while the LHD will provide oversight and provide PSE leadership.

## Imperial County Public Health Department

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**

*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10% , teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent ~~systematic~~ before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

X	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or

	physical activity.
X	Mobilize community partnerships around healthy eating and active living.
X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
X	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
X	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
X	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify:
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

The Imperial Valley Food Bank (IVFB) is the only proposed subcontractor under the Imperial County Public Health Department's (ICPHD) FFY14 SNAP-Ed Program project. IVFB will support the program in achieving the aforementioned objectives that focus on increasing vegetable, fruit, low-fat/nonfat milk, and water consumption, as well as, increasing physical activity among adults, teens and children.

**Objectives 1-4:** The IVFB and ICPHD will synergically complement and enhance the interventions necessary to meet project objectives and deliverables by merging networks and experiences. Given the large geographical area of Imperial County and the omnipresence of the IVFB in our community, the selected subcontractor is in a unique position to assist the ICPHD in reaching SNAP-Eligible individuals living in the allowable areas of the County, thus closing the gaps of services and having greater impact.

The IVFB will take on a coordination role to directly work with youth (children and teens) and adults at a variety of settings including early child care centers, schools, health providers (medical/dental), and youth and adult-serving community organizations. The IVFB will support the ICPHD by providing nutrition education activities to youth and adults at a variety of venues including: school classrooms, after school programs, teacher in-service/trainings, early care and education centers, medical and dental offices, and during partnership activities with local parks and recreational, housing, faith-based, and other programs. IVFB will: train teachers on nutrition education interventions, campaigns, resources, and food demonstration curriculum; engage qualifying early child care centers in a self-

assessment related to nutrition education and obesity prevention strategies and healthy site changes, and provide training to sites on topics such as nutrition education and physical activity promotion for parents young children and their parents, implementing healthy food demonstrations/taste test, and engaging parents in healthy eating and active living decision-making processes; provide training to health providers that advance and promote nutrition education messages and obesity prevention strategies as those used by engaged early childhood and school sites; conduct nutrition education and obesity-prevention promotional events, and coordinate media and public relation efforts; provide training to a health agency on the Rethink Your Drink campaign messages and nutrition education materials, and collaborate with local partners to identify environmental supports to increase and promote access to healthy beverage options through public health approaches; and provide nutrition education promoting healthy beverage options to adults at a variety of settings.

The ICPHD will work on policy, system and environmental change strategies, as well as Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) intervention implementation activities, development of nutrition education and action plans, data collection, evaluation, and reporting. It will be the lead agency for the County's CX3 and County Nutrition Action Plan (CNAP) alliances, and will provide technical assistance and training to partnering organizations on nutrition education and policy, system and environmental change strategies. ICPHD will develop an Impact Outcome Evaluation plan and deliver appropriate interventions. Additionally, it will work with retail store owners on healthy retail strategies to increase availability and promotion of healthy food and beverage options, and will coordinate, promote and conduct promotional events at the sites.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

N/A

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

## Budget Coversheet

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Inyo county. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 4) conduct community events reaching SNAP-Ed eligible individuals or groups; 5) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention
- Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

## Prime Staffing

**Definition and basis for calculations of benefit rate(s):**

Explanation of benefits: County pays medical insurance in the amount of \$472.83 for employee, \$945.66 employee plus one, and \$1,229.36 employee plus family; 50% dental with a \$1,200 lifetime maximum and 100% vision and life insurance on employee; a deductible reimbursement of \$250 for employee and dependent after full deductible is met; If an employee opts out of the insurance the following is paid: \$100 per pay period for employee; \$200 per pay period for employee plus one; and \$300 per pay period for employee plus family. The percentage for benefits is calculated for each employee based on what they are currently receiving.

Projected Unduplicate Number of Contacts: 17, 700

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Kern county. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Share Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) assessment results with various local stakeholders, community members, and community organizations. Implement Network allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX3 assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

The department plans to fund current Epidemiology staff FTE to work with the Research and Evaluation Unit to evaluate all aspects of the SOW objectives, especially as objective 11 is specifically outlined to measure the program's effectiveness each year. Outcomes to be measured are knowledge, changes in attitudes and behaviors, new partnerships, effectiveness of various campaigns, and skill-based behaviors.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to four times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

Projected Unduplicate Number of Contacts: 4,528

Narrative

The Kings Community Action Organization (KCAO) provides nutrition education and obesity prevention services to 4,528 eligible SNAP-Ed residents in the County of Kings. KCAO will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

KCAO will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Share Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) assessment results with various local stakeholders, community members, and community organizations. Implement Network allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX3 assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

Continuing, No adaptation or change in intervention

Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

---

**2. EVALUATION PLANS**

*All contractors participate in process evaluation per their Scope of Work activities. Contractors must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

KCAO will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The organization will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Supplement:**

LHD is new to the Network for a Healthy California. They will be focusing on developing their CNAP and doing their community assessment. Once completed, they will identify PSE strategies that aligns with the community needs. In order to cover Kings County and meet the goals and objectives of SNAP-Ed and support participants and those eligible to participate, we need the following staff:

- Program Manager: Administer the grant agreement and budget, supervise staff, attend regional/collaborative meetings, and coordinate reporting requirements.
- Health educator: Teaches the health benefits of proper nutrition and physical activity in class or group settings, assists with CX3 neighborhood assessments and reporting. Coordinate local media activities to highlight nutrition and physical activity community events. Assist with ATF reporting.
- Nutrition educator: One-on-one general nutrition education, nutrition education in class/group settings. Staff health fairs and other community events to support culturally appropriate nutrition education messages. Assist with CX3 assessments, reporting, and data collection. Participate in coalitions and partnerships to develop and implement the CNAP.

**CALIFORNIA DEPARTMENT OF PUBLIC HEALTH  
NUTRITION EDUCATION AND OBESITY PREVENTION (NEOP) BRANCH  
Deliverables for Local Health Department Grants  
FFY 2014-2016**

**GRANT AGREEMENT NUMBER 13-20102**

**GOAL:** Supplemental Nutrition Assistance Program Nutrition Education (SNAP-Ed) participants and those eligible up to 185 percent Federal Poverty Level (FPL) are educated and receive support to consume healthy foods and beverages, reduce consumption of less healthy foods and beverages and to increase physical activity. These are the behavioral outcomes that the United States Department of Agriculture (USDA) expects and have the potential to reduce the prevalence of obesity and the onset of related chronic diseases in the SNAP-Ed population.

Objective 1: Consumption and Access to Healthy Foods - Fruit and Vegetables

Annually, as measured by statewide surveys and other surveillance systems, the percent of eligible Californian adults, teens, and children consuming fruits and vegetables will increase (measured as at least five servings of fruit and vegetables a day, two servings of fruit/day, and three servings of vegetables/day).

Objective 2: Consumption and Access to Healthy Beverages and Reduced Consumption of Unhealthy Beverages

Annually, as measured by statewide surveys and other surveillance systems, the percent of eligible Californian adults, teens, and children consuming low fat/nonfat milk and water will increase and consuming sugary beverages will decrease

Objective 3: Physical Activity and Sedentary Behavior

Annually, as measured by statewide surveys and other surveillance systems, the percent of eligible California adults, teens, and children who meet their respective age-level goals for physical activity will increase and the percent of youth who report watching two or fewer hours of television a day will increase

Objective 4 - Environmental Supports for Nutrition Education

Annually, as measured by policy/systems/environmental change reports, at least 50 percent of local health departments will report successful implementation of one (or more place-based nutrition and physical activity standard(s) or environmental support(s) to nutrition education.

**DELIVERABLES/OUTCOME MEASURES:** Local Health Departments (LHDs) are required to deliver SNAP-Ed services that use nutrition education, health promotion, and intervention strategies; comprehensive, multi-level interventions at multiple complementary organizational and institutional levels; and community and public health approaches to improve nutrition. To insure that the California Department of Public Health (CDPH) meets its statewide SNAP-Ed objectives, the Local Health Department (LHD) are responsible for meeting USDA assurances and the following checked

deliverables. Deliverables not met will result in a corrective action plan and/or denial or reduction in future SNAP-Ed funding.

### Local Health Department Deliverables

<b>Deliverable 1</b>	Three-year nutrition education plan, updated annually, describing evidence-based nutrition education and obesity prevention and evaluation strategies to improve the health of the SNAP-Ed eligible population based on the Social Ecological Model (SEM), and an assessment using ethnicity, obesity, chronic disease and related data for the jurisdiction to be updated annually.	☒
<b>Deliverable 2</b>	<p>Compile data for and report quarterly on educational activities, completing all relevant components on the Activity Tracking Form (ATF):</p> <p>A) The number, SNAP status, age, gender, race/ ethnicity of SNAP-Ed eligible individuals receiving what type of evidence-based direct nutrition education and in what setting. (Note: When this information is not available, report as indirect education contacts as in B) or C) below.)</p> <p>B) The number of evidence-based nutrition education and health promotion messages to address SNAP-Ed goals, at least half of which are “Half Your Plate: Fruits and Vegetables” and “Rethink Your Drink”.</p> <p>C) Community public relations events and community messages promoting healthy foods and beverages and physical activity in SNAP-eligible census tracts and venues.</p>	<p>☒</p> <p>☒</p> <p>☒</p>
<b>Deliverable 3</b>	<p>Compile data for and report quarterly on community engagement activities, completing all relevant components on the Activity Tracking Form (ATF):</p> <p>A) Training to service providers, food retailers, SNAP-Ed-eligible families or their representatives (“Champions”), youths and/or groups in SNAP-Ed-eligible venues/census tracts on SNAP-Ed strategies.</p> <p>B) Coalitions and partnerships established with USDA-funded and other partners to address community issues, enhance the consistency of food and nutrition messaging and reaching consensus on how best to improve access to healthy foods, beverages and physical activity in the SNAP-eligible community.</p>	<p>☒</p> <p>☒</p>

	C) “Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention” (CX <sup>3</sup> ) or other evidence-based community assessment, including a plan for achieving identified changes, and resulting changes produced.	<input checked="" type="checkbox"/>
	D) Any presentation to decision makers of CX <sup>3</sup> or other community assessment findings along with (a) proposal(s) for action and an implemented action plan(s) for achieving the identified changes developed through full or modified consensus by community members and partners.	<input checked="" type="checkbox"/>
<b>Deliverable 4</b>	As applicable, report on successful implementation of Policy/ Systems/ Environmental Change (PSE) processes, including reach, effectiveness (outcomes), adoption, implementation, maintenance, and challenges faced, means used to overcome them, and next steps. Include copy/description of policy change enacted, system altered and/or photographs of environmental change made to improve access to healthy foods and beverages and to improve opportunities for physical activity.	<input checked="" type="checkbox"/>
<b>Deliverable 5</b>	Quarterly Expense documenting all expenses incurred during the quarter with the ability to provide back-up documentation for one quarter’s expenses in sufficient detail to allow CDPH to ascertain compliance with USDA grant rules for allowable expenses. Likewise, provide Quarterly Progress Reports describing in detail the program activities conducted during the quarter, and the ability to provide source documentation in sufficient detail to support the reported activities.	<input checked="" type="checkbox"/>
<b>Deliverable 6</b>	Evaluation of a minimum series of five nutrition education classes using practice or evidence-based lessons using the <i>Network’s</i> standard pre/post-test Impact/Outcome evaluation design focused on behaviorally focused outcomes for a specified number of individuals. (Note: Required only for LHDs receiving $\geq$ \$350,000 in the base grant)	<input checked="" type="checkbox"/>

- Deliverable 1, Planning: To enhance collaboration and communication among stakeholder agencies, the Kings Community Action Organization (KCAO) will establish and maintain key partnerships through the CNAP group that will meet regularly. The KCAO as the lead agency will develop and update annually a CNAP to coordinate nutrition education messages, resources and campaign implementation across FNS programs, and maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population. The KCAO will participate in evaluation and report metrics as per Network criteria and as appropriate for the PSEs it chooses. Evaluation methods including RE-AIM methodology, semi-annual surveys, annual critical analysis, and in-depth assessment of organizational capacity among the 17 largest agencies will be used.

(State SNAP-Ed Objectives 1 & 2)

- Deliverable 2, Nutrition Education: The KCAO's efforts target SNAP-Ed-funded activities to 4,528 SNAP participants and SNAP-eligible individuals using sites to avoid supplanting existing nutrition education programs, and where operating in conjunction with existing programs such as UC Davis Cooperative Extension (UC CalFresh), intends to avoid overlap in the community. To ensure county-wide coordination, therefore, the KCAO plans to conduct services only in community sites, means-tested sites and schools not utilized by UC CalFresh. The KCAO also plans to implement multi-level interventions using the Social Ecological Model (SEM) that incorporates USDA evidence-based nutrition education and obesity prevention strategies to improve the health of the SNAP-Ed eligible population.

The KCAO has greatly increased the number of nutrition education classes, community education events, as well as training/workshop/conference to better reflect the funding and staffing level. With this staff in place, they can provide no less than 200 direct nutrition education class occurrences @.5 hours each; 20 community education event occurrences @ 1 hour each, and no less than 10 trainings, workshops and conferences. In order to support their health education staff and assure nutrition education messages delivered to their SNAP population aligns with USDA 2010 Dietary Guidelines for Americans and MyPlate, KCAO intends to subcontract with a Registered Dietitian who will provide training and guidance in all nutrition education classes, lesson plans, and activities. (State SNAP-Ed Objectives 1 & 2)

- Deliverable 3, Coalitions and Partnerships: To enhance collaboration and communication among stakeholder agencies, the KCAO will establish and maintain key partnerships through the CNAP that will meet regularly. The KCAO as the lead agency will develop and update annually a CNAP to coordinate nutrition education messages, resources and campaign implementation across FNS programs, and maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population. (State SNAP-Ed Objectives 1-3)
- Deliverable 4, PSE Changes: The KCAO will focus on its first year on developing its CNAP and carrying out community assessments. Their proposed PSEs will be consistent with state objectives. Once completed, state staff will assist KCAO to identify PSE strategies that are responsive to community needs and be selected from appropriate, evidence-based sources from USDA. The KCAO will use quarterly progress reports in an effort to track PSEs for process evaluation. In addition, data collected from state level surveys will be used to assess trends in consumption of foods and beverages across all interventions conducted locally. (State SNAP-Ed Objective 4)
- Deliverable 5, Reports: The KCAO will comply with all reporting requirements including documentation of all quarterly expenses incurred with sufficient detail to allow CDPH to ascertain compliance with USDA grant rules for allowable expenses. In addition, provide quarterly progress reports describing in detail the program activities conducted during the quarter, and the ability to provide source documentation in sufficient detail to support the reported activities. (State SNAP-Ed Objectives 1-4)
- Deliverable 6, Impact Evaluation: The KCAO conduct and report on Impact Outcome Evaluation (IOE) to assess change in healthy food and beverage consumption and related factors such as perceived benefits of eating healthier foods and beverages, perceived control,

self-efficacy, readiness to consume healthier foods and beverages, and perceived diet quality among a group of at least 100 adults. The KCAO will administer evidence based survey tools to target audience at intervention sites, using identification numbers (not names) to protect participant privacy. The KCAO will work with Research and Evaluation Section staff to develop pre-tests and post-tests to measure change in consumption and related factors. (State SNAP-Ed Objectives 1 & 2)

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent systematic before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

X	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
X	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
X	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify:
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

A Registered Dietitian is the single proposed subcontractor for Kings Community Action Organization's FY14 SNAP-Ed Program project; This subcontractor will support our program in achieving the identified objectives to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks and increase opportunities and activity levels of physical activity among SNAP-Ed eligible population.

Specifically, the subcontractor will certify that the nutrition education being provided in the program is accurate and relevant to the targeted population. The subcontractor will also lead nutrition education classes and promotional events. The nutrition education classes and

promotional events conducted by the subcontractor will target SNAP-Ed eligible individuals as well as community leaders who also work directly with the same target population.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

N/A

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

N/A

**d. Project Description.**

Key Methods:

- Advisory Council/Task Force (specify): CNAP
- Internet/Web Sites-website address: [www.health.co.lake.ca.us](http://www.health.co.lake.ca.us)
- Print Media
- Radio: \_\_\_\_\_
- TV: \_\_\_\_\_
- Multi-level approaches that include environmental supports
- Nutrition Education Classes: (30 occurrences at 1 hour(s) each)
- Community Education Events: (8 occurrences at 2 hour(s) each)
- Training/Workshop/Conference: (4 occurrences at 2 hour(s) each)
- Point of Purchase: (4 occurrences at 2 hour(s) each)
- Other (specify): \_\_\_\_\_ (\_\_\_\_\_ occurrences at \_\_\_\_\_ hour(s) each)

Key Educational Messages: *All messages will align with the Dietary Guidelines for Americans 2010 and MyPlate. Messages will promote Enjoy your food, but eat less; Avoid oversized portions; Make half your plate fruit and vegetables; Switch to fat-free or low-fat (1%) milk; Compare sodium in foods and Drink water instead of sugary drinks.*

Projected Unduplicate Number of Contacts: 2,000

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Lake County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 4) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 5) conduct community events reaching SNAP-Ed eligible individuals or groups; 6) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 7) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 8) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

### LOCAL PROJECT SYNOPSIS

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention  
 Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Lake County will have process evaluation measures that indicate the participation level in activities performed and keep track of the number of people reached. Pre and post impact/outcome evaluations will be used to measure changes in behavior changes in fruit and vegetable consumption.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD WILL establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population. Lake County Public Health will coordinate efforts with Lake County Department of Social Services, Cal Fresh W.I.C. and other local agencies to develop, strengthen and collaborate on education and nutritional/physical messages throughout the county. Lake County Public Health, E Center and DSS and other local agencies will collaborative and coordinate efforts for the development of a County Nutrition Action Plan.

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in City of Long Beach Department of Health and Human Services. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population. The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) share results of CX3 with various local stakeholders, community members and community organizations; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- . Continuing, No adaptation or change in intervention
- . Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Key Performance Measurements for FY14-16 will include process evaluation to ensure completion of all SOW Activities. Impact evaluation will be conducted using pre/post surveys with youth who participate in our class series conducted as part of our School and Afterschool Objective. We will track outcomes linked to the program's CX3 project. Program staff will document outcomes of CalFresh coordination and staff will also solicit both written and verbal feedback from participants that will be used to revise and improve program activities.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

\*After each school name indicate all that apply with the following abbreviations: K-12 School (S), Preschool (PS), After School (A) & Parents (P)

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10% , teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent systematic before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

X	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Mobilize community partnerships around healthy eating and active living.

	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
X	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
X	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
X	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
X	Other, specify: As part of our youth engagement activities, youth teams will be formed and will be asked to identify the PSE that they want to work on for their community. Youth will be provided with data and resources to allow them to identify needs in their community and will also be provided with a list of allowable PSE activities that they may select from.
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**  
*Be specific in how your sub-contractors will contribute to the LHD project's success.*

**Sample Response:**  
 There are a total of 5 proposed subcontractors in the City of Long Beach Department of Health and Human Services' FY14 SNAP-Ed Program project. All subcontractors will support our program in achieving the four above identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

**Subcontractor #1: Long Beach Parks, Recreation and Marine - Objectives 1-4:**

Specifically, this subcontractor will support the LHD to coordinate and provide nutrition education classes and activities to youth and adults at eligible after school and park sites in Long Beach. Classes and nutrition education activities conducted by this subcontractor will use Network approved materials, such as PowerPlay, MyPlate and Spark, and will be designed to increase consumption of fruits, vegetables, water and increase daily physical activity. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractor through the distribution of newsletters and other education materials sent directly to parents of youth at the targeted sites. In addition, this subcontractor will support the LHD by coordinating youth engagement activities at youth and teen sites, eg. before and after-school programs, parks and recreational programs, and youth-focused service organizations. The purpose of the youth engagement related activities will be to increase awareness for policies, systems, and environmental change approaches to help create healthier environments that support objectives 1-4.

**Subcontractor #2: Long Beach Unified School District- Objectives 1-4:** Specifically, this subcontractor will support the LHD to coordinate and provide nutrition education classes and activities to youth and adults at eligible Long Beach school district affiliated venues such as classrooms, school sponsored events, and teacher in-service/trainings. Subcontractors will train teachers on the use of taste testing or food demonstration curriculum, materials and student workbooks, such as Harvest of the Month. Classes and nutrition education activities conducted by this subcontractor will use Network approved materials, such as Harvest of the Month, PowerPlay, and MyPlate, and will be designed to increase consumption of fruits, vegetables, water and increase daily physical activity. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractor through the distribution of newsletters and other education materials sent directly to parents of youth at the targeted sites.

In addition, this subcontractor will support the LHD by completing impact/outcome evaluation activities designed to measure changes in objectives 1-4 at targeted school sites participating in the Harvest of the Month program.

**Subcontractors #3-4: TBD - Objectives 1-4:** Specifically, these subcontractors will support the LHD to coordinate and provide peer to peer engagement activities with adults in community based settings. The purpose of the peer to peer engagement activities is to recruit peer educators from qualified communities to conduct nutrition education classes and to assist with the LHD's community and retail nutrition education activities. Each of the subcontractors will be funded to work with different groups in different geographic areas of the city. Subcontractors will use Network approved materials to train peer educators. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractor through material distribution and the use of community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.

**Subcontractor #5: TBD - Objectives 1-4:** Specifically, this subcontractor will support the LHD by providing evaluation support and will assist with the development and implementation of appropriate evaluation methods to measure the LHD's impact as it relates to objectives 1-4.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

There will be 2 subcontractor(s) who will coordinate the peer to peer engagement activities to support the LHD. The two (#3-4, TBD) subcontractors will be actually conducting the trainings and related activities at different geographic locations and with different peer educators. All subcontractors will support the program by collecting process evaluation data such as number of individuals reached, materials distributed, and documentation of the number and type of activities conducted.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

Budget Revision		Sub Grant(s)				
Action	Last Amt Approved	Name	Description/Justification	Total		Budget Revision Justification
		A Long Beach Department of Parks, Recreation and Marine	Sub-Grantee to conduct Afterschool/Class Series/IOE Objective as well as Youth Empowerment Objective- will also participate in CNAC, RYD and Special Events.	\$165,000.00		
		B Long Beach Unified School District	Sub-Grantee to conduct In-School/Class Series/IOE Objective - will also participate in CNAC, RYD and Special Events.	\$225,000.00		
		C TBD	Sub-Grantee to conduct Peer to Peer Objective - will also participate in CNAC, RYD, Special Events and Retail Objective. Annually, a minimum of 4-10 Peer Educators will be recruited from the SNAP-Ed-eligible members in the community to reach a minimum of 40-100 peers in a minimum of 1-3 nutrition education/obesity prevention class series promoting food security as well as individual, family and organizational changes. Peer Educators will also assist with nutrition education activities (workshops, community events, cooking demonstration) in conjunction with our Retail and Faith Based Activities. (Peer to Peer). In addition, Subgrantees will participate in RYD thru participation in the Annual Kick-Off Event, hosting workshops and setting up displays/material distribution booths. They will also participate in our CNAC group.	\$50,000.00		
		D TBD	Sub-Grantee to conduct Peer to Peer Objective - will also participate in CNAC, RYD, Special Events and Retail and/or Faith Based Objective. Annually, a minimum of 4-10 Peer Educators will be recruited from the SNAP-Ed-eligible members in the community to reach a minimum of 40-100 peers in a minimum of 1-3 nutrition education/obesity prevention class series promoting food security as well as individual, family and organizational changes. Peer Educators will also assist with nutrition education activities (workshops, community events, cooking demonstration) in conjunction with our Retail and Faith Based Activities. (Peer to Peer). In addition, Subgrantees will participate in RYD thru participation in the Annual Kick-Off Event, hosting workshops and setting up displays/material distribution booths. They will also participate in our CNAC group.	\$50,000.00		
		E TBD	Sub-Grantee to assist with required Network Evaluation Activities. Will assist LHD to create an evaluation plan to measure changes in two targeted nutrition education and obesity prevention interventions that include environmental support; one focusing on reducing consumption of sugar sweetened beverages and the other focusing on increasing access and consumption of healthy foods through formative, process and outcome evaluations.	\$15,000.00		
<b>Total Sub Grant(s):</b>				<b>\$505,000.00</b>		

Budget Revision		Other Costs						
Action	Last Amt Approved	Budget Item	Description/Justification	Unit Cost	Quantity	Misc.	Total	Budget Revision Justification
		Nutrition Education Materials	Nutrition education materials required to complete the scope of work objectives/activities. Education material includes Network approved books, brochures, activity sheets, teaching tools and visuals, videos and games for conducting classes. Est. 8,250 pieces @ \$2 per person	\$16,499.41	1.00	1.00	\$16,499.41	

**Prime Budget Justification**

		Special Event Expenses	Cost for this line item include cost for hosting and/or participating in special nutrition education events to promote Network messages (rethink your drink kick-off, Juneteenth, Fruit and Veggie Fest, CX3 community presentations, etc.). Examples of costs include: : registration fees (\$250), facilities usage fees (\$250), rental of canopies, tents, chairs, tables, stage and sound system(\$3,500), and fees for presentations/speakers/activity assemblies(\$2,000). Events estimated at 4-8 per year, 100-1000 participants reached per event.	\$6,000.00	1.00	1.00	\$6,000.00		
		Food Demonstrations and Samples	Cost is for food and supplies to conduct healthy cooking demonstrations and provide healthy food samples of Network Recipes as part of our required scope of work activities. Cost is calculated at \$2 per sample x 4000 samples	\$2.00	4000.00	1.00	\$8,000.00		
		Material Translation	Cost to have Network approved material (recipe cards, event promotion material, etc. translated into Khmer (Cambodian). Cost is calculated at an average of \$50 per page x 10 pages.	\$50.00	10.00	1.00	\$500.00		
		Outdoor Media	Cost to purchase local media buys (bus shelters ads) of reviewed and approved messages in GIS identified neighborhoods. The cost is calculated at \$1000 per shelter ad (1 month) x 8 shelter ads - 6,000.	\$1,000.00	8.00	1.00	\$8,000.00		
		Cooking Items	These items will be used to conduct healthy cooking demonstrations and food taste testings and include: mixing bowls, knives, cutting boards, small appliances, etc. The cost for these items includes basic cooking essentials needed by our sub-grantees to conduct scope of work activiites.	\$500.00	1.00	1.00	\$500.00		
		Community Education/Outreach Equipment	Cost for this line item include purchase of a canopy to be used for community events and/or outdoor food demonstrations (required by environmental health), lightweight portable tables for outreach, and carts for transporting material.	\$500.00	1.00	1.00	\$500.00

Projected Unduplicate Number of Contacts: 150,000

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Los Angeles county/city. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) conduct a Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) or other community assessment in up to 7 SNAP-Ed eligible low-income neighborhoods and share results with various local stakeholders, community members and community organizations; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Key performance indicators will measure increased knowledge about the benefits of eating fruits and vegetables and daily physical activity, increased access and consumption of healthy foods, decreased consumption of sugar sweetened beverages, increased access to daily physical activity.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Supplement:** Los Angeles DPH will work with subcontracted agencies (selected through a competitive solicitation process) to provide nutrition education as well as on policy, systems and environmental change (PSEs). These include, but are not limited to:

1. Increased access to healthier foods by developing a policy that includes nutrition guidelines for products sold in vending machines located in SNAP-Ed eligible census tracts.

2. Increased access to healthier foods by developing a policy that included nutrition guidelines for foods served and sold in faith settings (e.g. church celebrations and meetings) located in SNAP-Ed eligible census tracts.

3. Increased access to healthier beverage consumption by promoting the use of hydration stations in schools located in SNAP-Ed eligible census tracts. Los Angeles DPH will purchase local media buys to enhance awareness of Network approved media campaigns including “A Mis Hijos No,” “Not My

Kids,” “Legacy of Health” and “Fresh.” Proposed media buy plan includes but is not limited to television, radio, billboard and bus shelters. Prior to purchase, LADPH will confirm with CDPH that local television and radio stations reach SNAP-Ed eligible population. Billboard and bus shelter media buys will be purchased in identified qualifying neighborhoods utilizing the Network for a Healthy California - GIS Map Viewer to confirm ads will reach the SNAP-Ed eligible target audience. Subcontracts D-S are in the final selection phase. LADPH released a Request for Proposal (RFP) to select agencies to work towards nutrition education and obesity prevention in three key areas:

#### Peer-to-Peer Education

Agencies will implement a peer-to-peer education model, which includes recruitment and training of peer educators to teach nutrition education/obesity prevention classes. Trained peer educators will utilize approved materials in order to educate their peers on nutrition concepts and changes that can improve nutrition in local communities.

#### Youth Engagement

Agencies will recruit youth to engage in leadership, critical thinking, and problem-solving to address an identified issue with the consumption of and access to healthy foods and beverages and opportunities for physical activity in their communities.

#### Faith-Based

Agencies will recruit faith-based entities (e.g., churches) in order to empower parishioners to choose healthy foods and increase levels of physical activity through nutrition education and physical activity promotion, and to assess the food and physical activity opportunities available. The proposed SNAP-Ed evaluation will comprise multiple components that examine the reach and impact of SNAP interventions in Los Angeles County, reflecting different levels of physical and social determinants of health. Each level contains various factors that influence healthy eating behaviors in SNAP-Ed target population. These levels include the following and can be monitored for key outcomes with respect to reach (# or % of intended audiences affected), knowledge/attitude changes, behavioral changes (e.g., food selection or self-report of intent to change), and impact (environmental or programmatic changes observed, population trends or individual level changes in obesity rates).

#### Levels of potential evaluation:

- Population health trends – Los Angeles County is fortunate in having the capacity to assess and track health status and health trends in the population and in the community. With additional resources from other efforts including Choose Health LA and DPH’s own in-kind research and evaluation staff to complement NEOP’s evaluation resources, there are a number of approaches to track the following indicators of progress over the duration of the grant period. Health status, eating behaviors, physical activity behaviors, public knowledge and attitudes toward healthy eating and SNAP, obesity rates, chronic disease prevalence, etc.– via Los Angeles County Health Survey, possible internet panel surveys of the County population, and/or field poll surveys).
- Program reach and assessment of changes in a system or environment (e.g., built environment) – conduct interval CX3 mapping and assessments on walkability, neighborhood characteristics, healthy food access, etc. and document any resulting interventions and community changes.
- Targeted program impact evaluation – evaluation of specific program components (e.g., rethink your drink, peer-to-peer, worksite wellness) using pre/post program evaluation design with data collected from individual participants including food consumption behaviors and self-reported access to healthier food environments and physical activity opportunities.
- Public education / health marketing campaign – collect and report # of impressions of individual post-campaign internet panel survey assessments.
- RE-AIM framework – RE-AIM, or something similar, can be used to assess the reach, impact, and population health trends or outcomes related to selected policy, systems, and environment change indicators, preferably from the USDA-approved evaluation framework.

Potential deliverables:

- Reports of community impact assessments
- Synthesis of program progress and reach of program
- Peer review publications describing lessons learned and program impact (see example article)

Comment: If needed, we can submit a more detailed evaluation plan. We are open to further discussions or conference call to discuss. Please note, our in-house team is focused on evaluation activities related to conceptualization, data management, and analysis, but staff support for data collection is recommended. If possible, we would like to explore the option of purchasing data collection services from outside vendors. The Los Angeles CNAP team is in introductory stages. Thus far, the team consists of USDA-funded partners including DPSS, WIC, CACFP, EFNEP, LAUSD, and Public Health Departments in Long Beach, Pasadena, and LA County; also included are First 5 and CTG. The team is still finalizing objectives for FFY14, but preliminary plans include:

- 1) Cross-educate and promote - improve federally-funded agencies' ability to cross-promote programs by creating educational resources for staff and target populations that enhance understanding of programs and encourage enrollment (outcome: after cross-promotion, survey both administrative staff knowledge of programs, and target audience interest and efficacy in participating in additional programs)
- 2) Access - identify barriers to access and utilization of programs and find solutions that address these issues while simultaneously integrating nutrition education and promotion (outcome: measure increases in participation and likelihood of increased fruit and vegetable consumption resulting from CNAP efforts)
- 3) Build CNAP identity - highlight recent trends and research studies regarding successes and lessons learned in federally-funded programming, and determine the CNAP's position on such issues (outcome: document group discussions and communications, and publish various reports, articles, or commentaries detailing team views and suggested solutions or help needed, as applicable)

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10% , teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent systematic before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

X	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
X	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
X	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
X	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
X	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify:
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of 18 proposed subcontractors in Los Angeles County's Department of Public Health (DPH) FY14 SNAP-Ed Program project. Public Health Foundation Enterprises (PHFE) will provide temporary personnel staffing services. These staff will be housed in DPH and will implement programs in low-income worksites, early childhood, and retail settings, as well as provide programmatic oversight to subcontracted agencies. Los Angeles Office of Education (LACOE) and Los Angeles Unified School District (LAUSD) will support DPH in providing services in school-based settings. Fifteen subcontractors were selected through a competitive RFP process, and will work in the following areas: youth engagement, peer-to peer, and in faith based settings.

All subcontractors will support our program in achieving the above four identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

**Objectives 1-3:** LACOE and LAUSD will work with and train youth and adults at local school district sites. LACOE will recruit a minimum of 75 schools to reach 70,000 youth and 10,000 parents. LAUSD will engage a minimum of 25 schools and afterschool programs to reach 10,000 youth and 1,000 parents. Collectively, these two subcontractors will support DPH to provide nutrition education activities to youth (teens and children) and adults (parents and teachers) at school district-affiliated venues such as classrooms, school sponsored events, early childhood education sites, before and after school programs, teacher in-service/trainings, and partnership activities with related programs. Subcontractors will train teachers on the implementation of taste testing or food demonstration activities (i.e. Harvest of the Month) and corresponding nutrition education curriculum; train parents via nutrition education classes; and conduct food demonstrations and taste testing activities at school-wide events targeting both youth and adults. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractors through the distribution of newsletters and other education materials sent directly to parents of youth at targeted sites. In addition, school subcontractors will collect process evaluation data such as number of individuals reached, materials distributed, and documentation of the number and type of activities conducted. Impact evaluations will also be conducted to determine any changes in fruit and vegetable consumption and beverage intake over a specified period of time.

**Objectives 1-4:** Subcontractors identified to implement youth engagement projects in SNAP-Ed eligible communities throughout LA County will focus on youth ages 12 to 18 to engage in leadership, critical thinking, problem-solving and community-based research to address an identified issue in regards to consumption and access to healthy food, beverages and physical activity opportunities in their environment. Research outcomes for the youth-led projects include identifying policies, systems and environmental change solutions through public health approaches. Examples of proposed projects include increased physical activity opportunities during school, increased access to fresh fruits and vegetables through produce stands and increased access to water through hydration stations. Through the youth engagement projects, DPH and subcontractors hope to foster youth to become health advocates and change agents within their community.

**Objectives 1-4:** Five subcontractors will implement peer to peer projects engaging SNAP-Ed eligible adults through nutrition and physical activity education classes focused on increasing fruit and vegetable consumption, selecting healthy beverages and increasing daily physical activity. In addition to providing direct nutrition education, the class structure will allow subcontracted agencies to identify highly motivated community members and champions to lead broader policy, systems and environmental changes through public health approaches. Identified projects for broader scale change include, development of community gardens, implementation of strategies to increase participation in school breakfast programs and collaboration with a Centers for Disease Control and Prevention funded project to increase

availability of healthy meal options at restaurants in Los Angeles County.

**Objectives 1-4:** Five subcontractors will implement projects in the faith based community by engaging qualifying churches in predominantly African-American and Latino neighborhoods to implement culturally relevant nutrition and physical activity education programs, reaching SNAP-Ed eligible populations. In addition to direct education, project staff will assist church leadership with advancing, implementing, and promoting environmental changes within the church, including healthy food and beverage policies and on-going opportunities for increased physical activity.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

Due to the large size of LA County, it has been divided into eight distinct geographic areas, or Service Planning Areas (SPAs). This allows LACDPH to develop and provide more relevant public health and clinical services targeted to the specific health needs of residents in each SPA.

To ensure broad geographic reach of LA's SNAP-Ed eligible target audience, the 17 subcontracted agencies will provide services to ensure coverage across all SPAs.

A similar model of coordination and implementation will also take place amongst 15 subcontractors for agencies implementing youth engagement projects, peer-to-peer adult education, and faith based projects. These agencies will complement each other by identifying, engaging, recruiting, and sustaining working relationships with other governmental and non-governmental entities to exchange information, share best practices, extend mutual support, and explore cooperative efforts to provide nutrition education and obesity prevention services to the SNAP-Ed eligible population.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

## Budget Coversheet

Prime Grantee Name: County of Los Angeles, Department of Public Health

Projected Unduplicate Number of Contacts: 6868

Narrative

Merced County Department of Public Health (MCDPH) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Merced County. MCDPH will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

MCDPH will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Implement *Network* allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX<sup>3</sup> assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention
- Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Merced County Department of Public Health staff will conduct a survey (e.g. Rethink Your Drink survey, Food Behavior Checklist or Fruit and Vegetable Checklist) to assess attitudes, knowledge beliefs and skills during the nutrition education class series and Rethink Your Drink educational events. Staff will also measure nutrition education class attendance and CNAP group membership satisfaction through participant surveys.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

Merced County Department of Public Health will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. Merced County Department of Public Health will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Supplement:** Merced County Public Health Department chose to address the following PSE strategies: (1) To increase access to affordable healthy fruits and vegetables by establishing farmer's market within a very low-income community, and (2) To establish a policy to guide healthier beverage consumption for local youth sports organization participants. Merced County Public Health Department will participate in evaluation and report metrics as per Network criteria and as appropriate for the PSEs it chose. Merced County Public Health Department will utilize the RE-AIM methodology to evaluate their proposed PSE strategies to increase access to affordable healthy fruits and vegetables by establishing farmer's market within a very low-income community, and establish a policy to guide healthier beverage consumption for local youth sports organization participants. Merced County Public Health Department will work with a designated Network Research and Evaluation team member to create and implement a customized PSE evaluation framework based on the Re-Aim model that will promote successful PSE intervention outcomes. Formation evaluation has/will include input from County Nutrition Action Plan Committee members and CA4 Health Leadership, and feedback from community members at 3 community forums. Merced has a robust set of SNAP-Ed activities, however the project description does not provide a thorough explanation for how core objectives will be met. Monterey is providing SNAP-Ed services in

San Benito County as part of the cluster CDPH option offered to very small and rural LHDs to designate a partner LHD to operate SNAP-Ed services in the county. Because San Benito does not have the capacity to provide the SNAP-Ed services and the population funding amount based on SNAP eligible available for San Benito was too small to hire the appropriate staffing/infrastructure. Monterey and San Benito have coordinated services successfully for other programs and have a strong partnership. This was a way to get coverage to those SNAP eligible families in San Benito County by a SNAP-Ed experienced contractor (Monterey) that would not normally receive services. Please clarify and expand on what you seek to accomplish during FY-14, particularly in relation to coalition work and PSE activities. Monterey did not develop a CNAP with objectives in FFY 2013 but will be developing a CNAP in FFY 2014. CNAP will address Objectives 1) increasing access and/or consumption of healthy beverages, which may also include efforts to decrease access to and/or consumption of sugary drinks, and 2) increasing access to healthy foods and/or physical activity in their jurisdiction.

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**

*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measureable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent systematic before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.

x	Mobilize community partnerships around healthy eating and active living.
x	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
x	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
	Develop point-of-purchase marketing/signage at food retailers.
x	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
	Investigate environmental or cultural barriers to healthy eating and active living.
x	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
x	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify: N/A
	Other, specify: N/A

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There is a total of one proposed subcontractor in Madera County's FY14 SNAP-Ed Program project. The subcontractor will support our program in achieving the four above identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

**Objectives 1-3:** Specifically, the subcontractor will take on a coordination role to directly work and train youth and adults at local school district sites. The subcontractor will support the LHD to provide nutrition education activities to youth (teens and children) and adults (parents and teachers) at school district affiliated venues such as classrooms, school sponsored events, early childhood education sites, before and after school programs, teacher in-service/trainings, and partnership activities with local parks and recreational programs. Subcontractors will train teachers on the use of taste testing or food demonstration curriculum, materials and student workbooks, such as Harvest of the Month; train parents at nutrition education classes taking place at before and after school programs; and conduct food demonstrations and taste testing activities at school-wide events targeting both youth and adults. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractors through the distribution of newsletters and other education materials sent directly to parents of youth and teens of targeted sites.

**Objectives 1-4:** The subcontractor will also serve as the coordinating body for youth engagement trainings of both youth and teens at school and community sites, e.g. before and

after-school programs, parks and recreational programs, faith based organizations, and youth-focused service organizations. The purpose of the youth engagement related activities will be to increase awareness for policies, systems, and environmental change approaches to establishing wellness policies at their respective school sites.

Madera County LHD will specifically address Objective 3 by working on a policies, systems, and environmental change strategy to increase consumption of fruits, vegetables, low/fat milk and water during school breakfast and lunch. Students will be educated on the importance of fruit, vegetable, low/fat milk and water consumption during Harvest of the Month presentations. Additionally environmental changes will occur in the cafeteria as well as increasing the variety and freshness of the fruits and vegetables served during school breakfast/lunch. At certain locations data will be collected evaluating the effects of the policy, systems, and environmental changes as well as evaluating the effectiveness of the Harvest of the Month intervention.

In collaboration with other County organizations, School Wellness policies, depending on the exact nature of the policy adopted, will help create an environment where it is easier to engage in the healthy consumption of fruits, vegetables, low-fat/nonfat milk, and water; as well as increase physical activity.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

The County LHD will only be working with one subcontractor for FFY2014. The subcontractor will assist the County LHD as outlined in Question 4.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

Currently, the County LHD does not have any further comment regarding the scope or our proposed activities or subcontractors in FFY2014.

## Budget Coversheet

Prime Grantee Name: Madera County Public Health Department

Grant Number: 13-20508

Budget Categories	FFY 13 Total	FFY 14 Total	Difference	% Difference
1 Salaries	\$129,920.00	\$157,335.00	\$27,415.00	21.10%
2 Benefits	\$51,968.00	\$73,812.85	\$21,844.85	42.04%
3 Operating	\$23,483.00	\$15,720.00	-\$7,763.00	-33.06%
4 Equipment	\$11,050.00	\$1,342.48	-\$9,707.52	-87.85%
5 Travel & Per Diem	\$5,429.00	\$6,004.10	\$575.10	10.59%
6 Subcontractors	\$13,535.00	\$138,472.50	\$124,937.50	923.07%
7 Other Costs	\$28,126.00	\$61,860.50	\$33,734.50	119.94%
8 Indirect Costs	\$22,188.00	\$46,136.56	\$23,948.56	107.93%
<b>Totals:</b>	<b>\$285,699.00</b>	<b>\$500,684.00</b>	<b>\$214,985.00</b>	<b>75.25%</b>

Budget Categories	Reason for difference greater than 5%
1 Salaries	Increase in total number of staff as well as increase in salaries of existing staff.
2 Benefits	Increase in total number of staff receiving benefits.
3 Operating	Operating cost decreased because the majority of upfront costs were incurred in FFY13.
4 Equipment	Equipment cost decreased because the majority of equipment was purchased in FFY13.
5 Travel & Per Diem	Travel costs are lower because certain activities in FFY13 required more trips to Sacramento and the Childhood Obesity Conference will not be held in FFY14.
6 Subcontractors	Our FFY14 allocation increased with a corresponding increase to funds allocated to subcontractors.
7 Other Costs	Our FFY14 allocation increased with a corresponding increase in the number of participants reached.
8 Indirect Costs	Other Costs and Subcontractor costs increased due to an increase in our allocation, thus increasing Indirect Costs.

Narrative

The local health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Marin County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Share Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX<sup>3</sup>) assessment results with various local stakeholders, community members and community organizations. Implement *Network* allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX<sup>3</sup> assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX<sup>3</sup> or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental

Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**d. Project Description.**

Key Methods:

- Advisory Council/Task Force (specify): Mendocino County Public Health collaborates with the County Schools, CalFresh program, Network-funded and other partners, including FIRST 5, Community Action, food service directors and others, to implement the County Nutrition Action Plan. It collaborates with the CNAP group as well as Food For All Mendocino, Mendocino County ACHIEVE Coalition and the Mendocino County Food Policy Council to increase access to and consumption of healthy foods and beverages.
- Internet/Web Sites-website address: <http://www.co.mendocino.ca.us/hhsa/chs/prevention.htm>
- Print Media
- Radio:
- TV:
- Multi-level approaches that include environmental supports
- Nutrition Education Classes: (171 occurrences at .75 hour(s) each)
- Community Education Events: (14 occurrences at 1 hour(s) each)
- Training/Workshop/Conference: (17 occurrences at 1 - 8 hour(s) each)
- Point of Purchase: ( occurrences at hour(s) each)
- Other (specify): Collaborative meetings (CNAP, FPC, ACHIEVE, CX3) (34 occurrences at 1 hour(s) each)

Key Educational Messages: *All messages will align with the Dietary Guidelines for Americans 2010 and MyPlate. Messages will promote Enjoy your food, but eat less; Avoid oversized*

**LOCAL PROJECT SYNOPSIS**

*portions; Make half your plate fruit and vegetables; Switch to fat-free or low-fat (1%) milk; Compare sodium in foods and Drink water instead of sugary drinks.*

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Mendocino County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Share Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX<sup>3</sup>) assessment results with various local stakeholders, community members, and community organizations. Implement *Network* allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX<sup>3</sup> assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX<sup>3</sup> or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement

### LOCAL PROJECT SYNOPSIS

allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

Continuing, No adaptation or change in intervention

Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Mendocino County Health and Human Services Agency will use both process and outcome evaluation to measure performance. Sign in sheets, copies of meeting agendas, flyers, records of participation, participant data sheets, training agendas, lesson plans, knowledge surveys, and community event materials will be collected for all nutrition education activities. The subcontractors will administer participant surveys measuring knowledge, attitude and behavior change, and the Project Coordinator will assure that they are entered into the EARS system. The program will also track organizational changes to increase consumption of healthy beverages.

---

## 2. EVALUATION PLANS

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

## 3. COORDINATION EFFORTS

Mendocino County Health and Human Services Agency will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to four times per year. The LHD will implement a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

Mendocino County Health and Human Services Agency will continue to collaborate with the CalFresh program, Food for All Mendocino, the Regional Network and Collaborative, *Network*-funded and other partners, including FIRST 5, the ACHIEVE coalition, the Food Policy Council, family resource centers, Head Starts, WIC, and food banks to provide services to the eligible population. The goal is to deliver consistent and repeated nutrition messages and implement the County Nutrition Action Plan in order to

Mendocino County  
Health & Human Services Agency  
(Community Health Services)  
12-10169

### **LOCAL PROJECT SYNOPSIS**

increase quality, enrollment and collaboration among Federal Nutrition Service programs in Mendocino County.

Mendocino County Health and Human Services Agency will provide nutrition education classes focusing on MyPlate, ReThink Your Drink and Harvest of the Month and disseminate educational materials. We will prioritize SNAP and SNAP eligible participants in school and community settings.

Subcontracts will be developed with four Family Resource Centers and two school districts to carry out some of the objectives.

Budget Categories	Reason for difference greater than 5%
1 Salaries	Increase due to additional Coordinator time on the budget and staff receiving merit increases.
2 Benefits	The mean benefit rate for employees at the County of Mendocino increased considerably.
3 Operating	N/A
4 Equipment	N/A
5 Travel & Per Diem	Reduced due to less extensive conference travel in FFY 14.
6 Subcontractors	FFY 14 Enhancement funding has allowed for the addition of two school districts with staff to reach all districts in the county.
7 Other Costs	In FFY 14 we will contract out more direct contacts, shifting more food costs to the subcontractors.
8 Indirect Costs	Increase due to increase in Personnel and Fringe Benefits costs used to calculate Indirect Costs.

**d. Project Description.**

Key Methods:

- Advisory Council/Task Force (specify): Community Nutrition Action Plan Collaborative
- Internet/Web Sites-website address:
- Print Media
- Radio:
- TV:
- Multi-level approaches that include environmental supports
- Nutrition Education Classes: (25 occurrences at 1 hour(s) each)
- Community Education Events: (10 occurrences at 1 hour(s) each)
- Training/Workshop/Conference: (10 occurrences at 1 hour(s) each)
- Point of Purchase: (\_\_\_\_\_ occurrences at \_\_\_\_\_ hour(s) each)
- Other (specify): ( \_\_\_\_\_ occurrences at \_\_\_\_\_ hour(s) each)

Key Educational Messages: *All messages will align with the Dietary Guidelines for Americans 2010 and MyPlate. Messages will promote Enjoy your food, but eat less; Avoid oversized portions; Make half your plate fruit and vegetables; Switch to fat-free or low-fat (1%) milk; Compare sodium in foods and Drink water instead of sugary drinks.*

Delivery Sites by Type of Setting

4 Adult Education & Job Training Sites

\_\_\_\_\_ Adult Rehabilitation Center

1 CalFresh Offices

Churches

1 Community Centers

Elderly Service Centers

60 Emergency Food Assistance Sites

(includes Food Banks, Food  
Pantries, and Soup Kitchens)

Extension Offices

1 Farmers Markets

10 Food Stores

9 Head Start Programs

Individual Homes

7 Libraries

1 Other Youth Education Sites (includes  
Parks and Recreation)

6 Public/Community Health Centers (includes  
Public Health Departments)

2 Public Housing

Schools – students (Preschool)

4 Schools – students (K-12)

Schools – students (Afterschool  
Program)

23 Schools - Parents

1 Shelters/Temporary Housing

Projected Unduplicate Number of Contacts: 6868

Narrative

Merced County Department of Public Health (MCDPH) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Merced County. MCDPH will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

MCDPH will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Implement *Network* allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX<sup>3</sup> assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention
- Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Merced County Department of Public Health staff will conduct a survey (e.g. Rethink Your Drink survey, Food Behavior Checklist or Fruit and Vegetable Checklist) to assess attitudes, knowledge beliefs and skills during the nutrition education class series and Rethink Your Drink educational events. Staff will also measure nutrition education class attendance and CNAP group membership satisfaction through participant surveys.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

Merced County Department of Public Health will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. Merced County Department of Public Health will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Supplement:** Merced County Public Health Department chose to address the following PSE strategies: (1) To increase access to affordable healthy fruits and vegetables by establishing farmer's market within a very low-income community, and (2) To establish a policy to guide healthier beverage consumption for local youth sports organization participants. Merced County Public Health Department will participate in evaluation and report metrics as per Network criteria and as appropriate for the PSEs it chose. Merced County Public Health Department will utilize the RE-AIM methodology to evaluate their proposed PSE strategies to increase access to affordable healthy fruits and vegetables by establishing farmer's market within a very low-income community, and establish a policy to guide healthier beverage consumption for local youth sports organization participants. Merced County Public Health Department will work with a designated Network Research and Evaluation team member to create and implement a customized PSE evaluation framework based on the Re-Aim model that will promote successful PSE intervention outcomes. Formation evaluation has/will include input from County Nutrition Action Plan Committee members and CA4 Health Leadership, and feedback from community members at 3 community forums. Merced has a robust set of SNAP-Ed activities, however the project description does not provide a thorough explanation for how core objectives will be met. Also, it is unclear as to why Monterey is

awarding a sub-grant to San Benito County (the LHD?) rather than there being a contract directly from the State. Monterey is providing SNAP-Ed services in San Benito County as part of the cluster CDPH option offered to very small and rural LHDs to designate a partner LHD to operate SNAP-Ed services in the county. Because San Benito does not have the capacity to provide the SNAP-Ed services and the population funding amount based on SNAP eligible available for San Benito was too small to hire the appropriate staffing/infrastructure. Monterey and San Benito have coordinated services successfully for other programs and have a strong partnership. This was a way to get coverage to those SNAP eligible families in San Benito County by a SNAP-Ed experienced contractor (Monterey) that would not normally receive services. Please clarify and expand on what you seek to accomplish during FY-14, particularly in relation to coalition work and PSE activities. Monterey did not develop a CNAP with objectives in FFY 2013 but will be developing a CNAP in FFY 2014. CNAP will address Objectives 1) increasing access and/or consumption of healthy beverages, which may also include efforts to decrease access to and/or consumption of sugary drinks, and 2) increasing access to healthy foods and/or physical activity in their jurisdiction.

\*After each school name indicate all that apply with the following abbreviations: K-12 School (S), Preschool (PS), After School (A) & Parents (P)

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10% , teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.

	Mobilize community partnerships around healthy eating and active living.
	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
	Investigate environmental or cultural barriers to healthy eating and active living.
	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
	Promote access/appeal, or policy changes to support physical activity or exercise.
X	Other, specify: Work with CNAP members to research feasibility of starting an affordable farmer's market in a CX3 neighborhood that is also a food desert; identify a farmer's market sponsor; promote the market.
X	Other, specify: Work with youth sports organizations to encourage policies around sugar sweetened beverages, which may include coaches as role models; fund raisers; team snacks and beverages.

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

**Response:**

There are a total of 2 proposed subcontractors in Merced County's FY14 SNAP-Ed Program project. All subcontractors will support our program in achieving the four above identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

**Objectives 1-4:** Specifically, one (UC Cooperative Extension) will coordinate with Merced County Department of Public to provide direct nutrition and physical activity education for adults in underserved areas of the county. These areas will include CX3 neighborhoods, and areas where 50% of the population is at 125% of the Federal Poverty Level. The priority population to be served is parents, especially mothers. In addition, the subcontractor will conduct the Impact-Outcome Evaluation, and teach a number of nutrition workshops consisting of five sessions each.

**Objectives 1-4:** One (California Health Collaborative) subcontractor(s) will also serve as the coordinating body for youth engagement trainings of both youth and teens at school and community sites, e.g. before and after-school programs, parks and recreational programs, faith based organizations, and youth-focused service organizations. The purpose of the youth engagement related activities will be to increase awareness for policies, systems, and environmental change approaches to establishing wellness policies at their respective school sites.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

Merced County is not awarding multiple sub-contracts for a similar type of service.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

## Budget Coversheet

Prime Grantee Name: Merced County Dept. of Public Health

Grant Number: 13-20526

Budget Categories	FFY 13 Total	FFY 14 Total	Difference	% Difference

Projected Unduplicate Number of Contacts: 500

Narrative

The health department Mono County Local Health Department (LHD), using the services of Community Services Solution, provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Mono County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of, any one of the following service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved *Network Policy, Systems and Environmental Change Matrix* and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention
- Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Pre and Post-test for nutrition education classes, activities.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

MONO COUNTY will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

Projected Unduplicate Number of Contacts: 13,000

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Monterey county. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Implement Network allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX3 assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement

allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- . Continuing, No adaptation or change in intervention  
. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Key measures/indicators of implementation or performance that the LHD will utilize to capture quantitative and qualitative data will include pre tests to obtain baseline data and post-tests to determine changes regarding attitudes, knowledge, change in behavior, skill improvement, etc. Key informant surveys may be used to obtain information prior to trainings and or educational presentations.

An analysis of the responses on evaluation forms will be conducted (frequency analysis and content analysis) and a summary of results, both process and outcome, from the evaluations will be provided to the funding agency. Information captured will be beneficial to determine if modifications will be needed for future trainings.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Supplement:**

Monterey has completed CX3 assessment and for FFY 2014 will work with 20 retail stores (owners , managers and staff) to increase healthy messages on exterior of markets and fast food outlets, increase health marketing at checkout counters, increase the quality of Fruits and vegetables offered, and for fast food outlets - partner to ensure calories are added to drive through menu boards.

For San Benito County- Scope of Services, we will compile data for and report quarterly on educational activities, completing all relevant components on the Activity Tracking Form (ATF): A) The number, SNAP status, age, gender, race/ethnicity of SNAP-Ed eligible individuals receiving what type of evidence based direct nutrition education and in what setting, B) The number of evidence based nutrition education and health promotion messages to address SNAP-Ed goals, at least half of which are “Half your Plate: Fruits and Vegetables” and “Rethink Your Drink”, C) Community public relations events and community messages promoting healthy foods and beverages and physical activity in SNAP-eligible census tracts and venues. Additionally, will

- Implement an annual nutrition education work plan, describing evidence based nutrition education and obesity prevention and evaluation strategies to improve the health of the SNAP-Ed eligible population.
- Eighteen hundred SNAP-Ed eligible individuals will receive evidence based direct nutrition education annually.
- Provide fifteen nutrition education classes per year addressing SNAP-Ed goals.
- Participate in two community events promoting nutrition education messages such as MyPlate, Rethink Your Drink, Make Half Your Plate Fruits and Veggies, Dietary Guidelines, or other Network allowable materials to SNAP eligible population.
- Attend a quarterly coalition and/or partnership meeting established with other USDA funded partners to address community nutrition issues, enhance the consistency of food and nutrition messaging and reaching consensus on how best to improve access to healthy foods, beverages and physical activity in the SNAP eligible communities.
- Report on Policy, Systems or Environmental change process, including reach, effectiveness, adoption, implementation and challenges overcome.
- Document all expenses incurred in a quarterly expense report with the ability to provide all back up documentation for one quarter’s expenses in sufficient detail to Monterey County Health Department.
- Attend three to five Network-sponsored trainings, meetings or conferences annually.

Monterey is providing SNAP-Ed services in San Benito County because San Benito does not have the capacity to provide the SNAP-Ed services and the population -funding amount based on SNAP eligible available for San Benito was too small to hire the appropriate staffing/infrastructure. Monterey and San Benito have coordinated services successfully for other programs and have a strong partnership. This was a way to get coverage to those SNAP eligible families in San Benito County by a SNAP-Ed experienced contractor (Monterey) that would not normally receive services. Monterey did not develop a CNAP with objectives in FFY 2013 but will be developing a CNAP in FFY 2014. CNAP will address Objectives 1) increasing access and/or consumption of healthy beverages, which may also include efforts to decrease access to and/or consumption of sugary drinks, and 2) increasing access to healthy foods and/or physical activity in their jurisdiction.

\*After each school name indicate all that apply with the following abbreviations: K-12 School (S), Preschool (PS), After School (A) & Parents (P)

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

X	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
X	Develop healthy corner stores or food retail policies and organizational practices.
X	Develop nutrition standards at emergency food distribution sites.
X	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
X	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
X	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify:
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of three proposed subcontractors in Monterey County's FY14 SNAP-Ed Program project. All subcontractors will support our program in achieving the four above identified objectives to increase vegetable, fruit, and water consumption; as well as increase physical activity amongst adults and children.

**Objectives 1-3:** Specifically, San Benito County subcontractor will work and train youth and adults at local school district sites. San Benito subcontractor will support the LHD to provide nutrition education activities to youth (teens and children) and adults (parents and teachers) at school district affiliated venues such as classrooms, school sponsored events, early childhood

education sites, before and after school programs, teacher in-service/trainings, and partnership activities with local parks and recreational programs. Subcontractors will train teachers on the use of taste testing or food demonstration curriculum, materials and student workbooks, such as Harvest of the Month; train parents at nutrition education classes taking place at before and after school programs; and conduct food demonstrations and taste testing activities at school-wide events targeting both youth and adults. Additional nutrition education on the importance of vegetable, fruit and water consumption will be coordinated by the subcontractors through the distribution of newsletters and other education materials sent directly to parents of youth and teens of targeted sites.

The Local Chef Subcontractor will be working with fifteen of our 4<sup>th</sup> grade classes that are part of Impact Evaluation. The Chef will do nutrition education and food preparation. The Chef with the students will be preparing four different recipes with each class.

The Tile Muralist will work with two different schools to enhance the nutrition education through art. The students at two elementary schools will get to create a tile with their favorite fruit or vegetable or physical activity painted on it. After all classes have created a tile, the muralist will fire, glaze and install the fresh fruit and vegetable mural on the school campus to continue to encourage the students and staff to live a healthy lifestyle.

Monterey County LHD and Subcontractor San Benito County will specifically address **Objective 3** by working on a policies, systems, and environmental change strategy to increase the number of water stations at school sites. Students will be educated on the importance of hydration before, during and after physical activity, trained in the different methods in which they can communicate the newly acquired knowledge to peers, parents, teachers, and administrators within their school district; and help collect formative evaluation data on the level of support for increasing water stations amongst peers, parents, and adults.

Wellness policies, depending on the exact nature of the policy adopted, will help create an environment where it is easier to engage in the healthy consumption of fruits, vegetables, low-fat/nonfat milk, and water; as well as increase physical activity.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

All subcontractors will be working on different pieces of the objectives listed above. The subcontractors are not duplicating efforts. They will be working with different age groups within the target population and in different locations.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

## Budget Coversheet

Projected Unduplicate Number of Contacts: 2,400

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Nevada County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) conduct a Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) or other community assessment in up to 7 SNAP-Ed eligible low-income neighborhoods and share results with various local stakeholders, community members and community organizations; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- Continuing, No adaptation or change in intervention.
- Project is new.

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (MAX. 100 WORDS)**

- Number of contacts with community agencies, stakeholders and other groups
- Number of training events
- Number of educational activities
- Number of unduplicated clients reached
- Surveys of participants to test pre and post knowledge
- Number of additional CNAP partners
- Increased awareness and knowledge of Harvest of the Month Collaboration documented through surveys
- Increased healthy eating & physical activity measured through self-reporting surveys

---

**2. EVALUATION PLANS.**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS. (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to four times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

2 Benefits	\$31,506.00	\$37,264.05	\$5,758.05	15.45%
3 Operating	\$5,350.00	\$5,589.05	\$239.05	4.28%
4 Equipment	\$300.00	\$1,690.00	\$1,390.00	82.25%
5 Travel & Per Diem	\$3,256.00	\$1,031.20	-\$2,224.80	-215.75%
6 Subcontractors	\$66,278.00	\$105,448.85	\$39,170.85	37.15%
7 Other Costs	\$5,946.00	\$6,602.20	\$656.20	9.94%
8 Indirect Costs	\$23,392.00	\$20,763.75	-\$2,628.25	-12.66%
<b>Totals:</b>	<b>\$200,000.00</b>	<b>\$240,000.00</b>	<b>\$40,000.00</b>	<b>-83.18%</b>

Budget Categories	Reason for difference greater than 5%
1 Salaries	
2 Benefits	As a result of union negotiations, the overall benefits rate for the County has increased.
3 Operating	We are increasing the amount of funds available to recruit members of the community to participate in assessments in order to conduct a more comprehensive needs assessment.
4 Equipment	Nevada County IT Department has mandated that all computers be upgraded in order to access the County network by April 2014. This was not an issue in the current grant year so no computers were budgeted for in the current year.
5 Travel & Per Diem	This difference is due to a change in the way the budget is being submitted. Subcontractor travel is being included in the Subcontractor line item in this budget submission, but in the current year budget, Subcontractor Travel was included under the Travel line item.
6 Subcontractors	This line item has increased because there are 2 additional contracts that were not included in the current year budget: Community Liaison and Health Education Consultant. Both of these contracts are required for carrying out the grant activities. In addition, Subcontractor travel is now being captured in this budget line item.
7 Other Costs	This line item has increased primarily because food samples and non-food samples for nutrition education classes and community events have been added to the line item, and last year they were included in operating expenses.
8 Indirect Costs	In the current grant year we are charging 24.5% of personnel costs, but in the FY 14 Budget year, we are only charging 21% of salaries and benefits. Our agency's approved indirect rate exceeds 21%, but we are trying to keep as much programmatic funding available for the NEOP program as possible.

## Prime Staffing

Projected Unduplicate Number of Contacts: 40,960

Narrative

The local health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Orange County. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease

consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Implement *Network* allowable nutrition education interventions and obesity prevention strategies in at least 50% of Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX<sup>3</sup>) assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and/or other Network- approved strategies and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Nutrition education efforts will focus on increasing healthy eating behaviors to improve growth/development in youth and prevent obesity and chronic disease in all age groups. Target skills include label reading, menu planning, and food preparation. Through process evaluation, HCA will collect information on several factors including the number of individuals reached, materials distributed and activities conducted. Formative evaluation will be conducted on two nutrition education/obesity prevention projects. Impact/outcome evaluation will be conducted with adults, and potentially youth, at select sites to assess changes in fruit/vegetable consumption, beverage intake and related factors.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

The County of Orange LHD will establish/maintain key partnerships through the County Nutrition Action Plan workgroup that meets at least four times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security and healthy eating behaviors in the target population. LHD will accomplish the Scope of Work activities with subgrantees and will not require specific commitments from non-funded partners.

**Supplement:** Orange County LHD chose to focus on increasing the number of prompts promoting healthier food choices at home and at sites where food is available, and to increase access to and use of nutrition education available online as their initial PSE priorities. The following approaches will be used to evaluate PSE strategies, 1) The RE-AIM evaluation framework will be used 2) Orange County LHD will report semi-annually on PSEs via Survey monkey 3) They will evaluate their accomplishments in their comprehensive annual report 4) Orange County LHD will assess progress specifically in the development of organizational capacity in the annual qualitative survey started in FFY2013 which will continue through FFY2016. Orange County LHD will focus on increasing the number of prompts or reminders promoting healthier food choices at home and at sites where food is available. They will work with public housing, grocery stores, schools, etc. to accomplish this PSE. Their second PSE will focus on increasing access to and use of nutrition education and food assistance resources available online. They will work with public housing, libraries, community centers, grocery stores, etc. to accomplish this second PSE. The CNAP Plan will incorporate objectives to address the four State-level measurable objectives from the California SNAP-Ed Plan. Specific objectives for Orange County's CNAP are as follows: coordinate to ensure that consistent core nutrition messages are reaching individuals participating in FNS programs, coordinate nutrition education targeting the needs of children from birth to 5 years, provide nutrition education and materials to food assistance programs and coordinate nutrition education messaging disseminated at grocery stores and food vendors.

Willmore Elementary (S,P,A)	Westminster Elementary School District	30-66746-6030852	82.66%	7.28%	89.94%

\*After each school name indicate all that apply with the following abbreviations: K-12 School (S), Preschool (PS), After School (A) & Parents (P)

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

x	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
x	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
X	Develop healthy corner stores or food retail policies and organizational practices.
X	Develop nutrition standards at emergency food distribution sites.
X	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
X	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
X	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
X	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
X	Other, specify: Increase the number of prompts promoting healthier food choices at home and at sites where food is available. (Expand on SNAP-Ed Interventions : A Toolkit for States, Communities, Nutrition Strategies, bullet #9, page 10)
X	Other, specify: Increase access to and use of nutrition education and food assistance resources available online.

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of **7** proposed subgrantees in **Orange** County's FY14 SNAP-Ed Program project: 1) America On Track (**AOT**), 2) Anaheim City School District (**ACSD**), 3) Community Action Partnership of OC (**CAPOC**), 4) Huntington Beach Union High School District (**HBUHSD**), 5) Newport-Mesa Unified School District (**NMUSD**), 6) Orange County Department of Education (**OCDE**) and 7) Santa Ana Unified School District (**SAUSD**). The subgrantees will support our program in achieving the four objectives identified above, aimed at increasing vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as improving physical activity behaviors among adults, teens and children.

**Objectives 1-3:**

The 7 subgrantees will assist in providing both direct and indirect education.

**Direct Nutrition Education** - 6 of the 7 subgrantees will assist in providing **direct** nutrition education to the targeted SNAP-Ed audience at school sites and community sites.

**5 School-based subgrantees:** The school-based subgrantees will provide direct nutrition education reaching students in the classroom, PreK youth and families, after school youth and parents/adults, potentially reaching all eligible school sites in the county. 3 of these 5 subgrantees will focus on their own school district and 2 will support multiple school districts. The nutrition education will be linked to the USDA core nutrition messages and focus on the importance of vegetable, fruit, whole grain, low-fat/nonfat milk, and water consumption. Harvest of the Month materials and food demonstrations will be used to enhance the education efforts.

- 3 subgrantees will serve a single district – **ACSD, NMUSD, SAUSD**: Majority of efforts will target

youth in the elementary school classrooms, with additional efforts reaching select parent, PreK and after school groups. The education will be primarily provided by Network-funded staff with expertise or training in nutrition.

- 1 subgrantee will serve 4 districts - **HBUHSD**: Nutrition education efforts will target youth from PreK to 12<sup>th</sup> grade, with additional efforts reaching select parent and after school sites. Enhanced multi-session lessons will be promoted to the majority of the sites and single-lesson classes will be given as needed. The education will be primarily provided by Network-funded staff with expertise in nutrition.
- 1 subgrantee will serve approximately 16 districts - **OCDE**: Nutrition education efforts will target youth from PreK to 12<sup>th</sup> grade, with additional efforts reaching select parent groups. The education given to youth in the classrooms and to adults will be primarily provided by Network-funded staff with expertise in nutrition. The subgrantee will train site level staff, such as teachers and coordinators, to conduct the nutrition education at after school and PreK sites.

1 Community-based subgrantee: One subgrantee - **AOT** will assist in providing direct nutrition education reaching youth and parents/adults at community sites, such as public housing complexes, community centers, food assistance sites and youth sites. The education will be primarily provided by Network-funded staff trained in nutrition.

**Indirect Nutrition Education** – One community-based subgrantee - **CAPOC** will assist in providing **indirect** nutrition education in order to reach a larger percentage of the SNAP-Ed target audience and support the efforts of the LHD and other subgrant partners. The education will be primarily provided by Network-funded staff trained in nutrition and the activities will be conducted at events, fairs, faith-based sites and a variety of community and school sites. The nutrition messages will be presented in a quick, interactive way and highlight the USDA and Network resources available to support behavior changes. Additional efforts will be made to involve SNAP-Ed participants in educating their peers and in creating site level changes at faith-based sites.

#### **Objectives 1-4:**

2 of the 7 subgrantees, **HBUHSD** and **OCDE**, were selected to receive additional funds to assist with site level changes to help create environments where it is easier to consume vegetables, fruits, low-fat/nonfat milk and water, as well as participate in physical activities. These expanded efforts will promote changes at the organizational level in three areas.

**School / After School**: Two subgrantees were awarded funds: **HBUHSD** and **OCDE**. District, school and after school administrators and staff throughout the county will be encouraged to enhance their nutrition education efforts and support policy, system and environmental (PSE) changes that make it easier for the families they reach to eat healthy foods and be active. Activities will include site assessments, teacher trainings, provision of materials, support for events and participation as allowable on wellness policy activities.

**Early Childhood**: Two subgrantees were awarded funds: **HBUHSD** and **OCDE**. Early childhood care and education site administrators and staff throughout the county will be encouraged to enhance their nutrition education efforts and support policy, system and environmental (PSE) changes that make it easier for the families they reach to eat healthy foods and be active. Activities will include site assessments, teacher trainings, nutrition education to youth and parents, provision of materials and support for site level changes as allowable.

**Youth Engagement**: One subgrantee – **OCDE only** will assist in implementing projects determined and conducted by teens. Efforts will target high risk youth attending special education sites administered

by OCDE. The youth will be asked to conduct extensive projects in order to receive high school credit for their efforts. Additional youth groups may be recruited.

**Evaluation:** The three subgrantees receiving over \$350,000, **CAPOC**, **HBUHSD** and **OCDE**, will be asked to conduct significant evaluation efforts to document their impact on targeted behaviors, the results of PSE changes and the cost effectiveness of their efforts.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

Extensive monitoring will be in place to coordinate efforts, avoid overlap and maximize reach. To ensure routine communication, LHD will have Weekly Email Updates and Monthly Meetings, a practice that has been effective with other subcontractors in the past. With regards to the schools, a master table has been developed listing each eligible school and the four target audiences at these sites: Students, PreK, After School and Parents/Adults. The LHD or a subgrantee has been assigned to provide and/or coordinate services at each school site. Nutrition education efforts will not be duplicated but could be supported by multiple partners. For example, a school-based subgrantee providing direct nutrition education to youth in the classroom could ask the community-based subgrantee to provide indirect nutrition education to adults at a PTA event being held at the school in the evening. The Harvest of the Month (HOTM) rotation for FFY14 was previously established and will be used by local partners. All subgrantees will collect process evaluation data, such as the number of individuals reached, materials distributed, and number and type of activities conducted, using the locally developed Activity Report Form (ARF) and the State's online Activity Tracking Form (ATF). LHD staff will review the ATF entries and ensure the ARFs are completed and contain the required supporting documentation.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

LHD has extensive information detailing the sites, services to be provided, numbers to reach and estimated costs for various services provided by each of the subgrantees. Significant efforts were made locally to ensure the services provided by the seven subgrantees were equitable and based on standardized costs for similar services.

## Prime Budget Justification

Prime Grantee Name: Orange County Health Care Agency  
 Grant Number: 13-20487

Budget Revision		Operating Expenses

Projected Unduplicate Number of Contacts: **20,000**

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in city of Pasadena. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Share Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) assessment results with various local stakeholders, community members, and community organizations. Implement Network allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX3 assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Process evaluation measures will show the participation in nutrition education and physical activity promotion programs with sign-in sheets, special event attendee recorded numbers as reported in the Activity Tracking Report Form. Participants, targeted SNAP-ED eligible population, will demonstrate an increase in awareness of the importance of making healthier food choices coupled with being more physically active.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

Projected Unduplicate Number of Contacts: 2,540

Narrative

The local health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Plumas, Lassen and Modoc counties. The LHD in each of these counties will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHDs will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) conduct a Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX<sup>3</sup>) or other community assessment in SNAP-Ed eligible low-income neighborhoods and share results with various local stakeholders, community members and community organizations; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX<sup>3</sup> or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

- . Continuing, No adaptation or change in intervention  
. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

- Agenda and hand-outs for CNAP meetings
- List of CNAP stakeholders and additional members
- CNAP stakeholder participation based on sign-in sheets
- Pre- and post-surveys of participants in education activities
- Number of training events
- Number of education activities
- Number of conferences
- Number of contacts with community organizations, schools, and stakeholders
- Number of press releases provided to newspapers
- Number of participants at trainings, educational events, conferences
- Improved diet and exercise based on assessments in each county

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

Supplement: Plumas LHD is new to SNAP-Ed. They will be focusing on developing their CNAP and doing their community assessment. Once completed, they will identify PSE strategies that aligns with the community needs. Promote environmental change to improve access to healthy foods and beverages and to improve opportunities for physical activity, provide training to service providers, SNAP-Ed-eligible families or their representatives (“Champions”), youths and/or groups in SNAP-Ed-eligible venues, and incorporate Nutrition education and health promotion messages to address SNAP-Ed goals, at least half of which are “Half Your Plate: Fruits and Vegetables” and “Rethink Your Drink”. We will be focusing on developing their CNAP and doing their community assessment. Once completed, they will identify PSE

LOCAL PROJECT  
SYNOPSIS

strategies that aligns with the community needs. The RE-AIM framework will be used for planning new interventions, adapting existing interventions, and designing evaluations that assess the potential public health impact of interventions. Plumas County LHD will be the lead agency and will collect all required information and documents from Lassen and Modoc counties, including site listings, and will administer all fiscal and programmatic processes. Additionally, the project description does not provide a thorough explanation for how core objectives will be met. Please clarify and expand on what you seek to accomplish during FY-14, particularly in relation to coalition work and PSE activities. The core objectives will be met through the required nutrition education and obesity prevention activities and deliverables in the grant scope of work. Plumas will be required to complete a three year plan, conduct nutrition education series classes, workshops, and participate in events promoting messages to address SNAP-Ed goals. What will your measurable CNAP objectives be for FY-14? Plumas County LHD is new to the Network for a Healthy California. They will be focusing on developing their CNAP and doing their community assessments. Once completed, they will identify PSE strategies that align with each community needs. Plumas (Lassen, Modoc) are small rural counties and will not conduct CX3 but will conduct community assessments. Also, the cost-per-contact is somewhat high compared to other counties. Please explain why.

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

X	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
X	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
X	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
X	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
X	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
	Other, specify:
	Other, specify:

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of 2 proposed subcontractors in Plumas County's FY14 SNAP-Ed Program project, Modoc County Public Health and Lassen County Public Health departments. Plumas County LHD is the lead for the 3-county cluster project and will sub-contract with the Counties of Modoc and Lassen to implement the same objectives and deliverables for all three counties. Both subcontractors will support the cluster program in achieving the four above identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

Lassen and Modoc will be responsible for completing the same deliverables for Local Health Department Grants in their own counties as described in the Project Synopsis. Plumas County LHD will be the lead agency and will collect all required information and documents from Lassen and Modoc counties, including eligible site listings, and will administer all fiscal and programmatic processes. The core objectives will be met through the required nutrition education and obesity prevention activities and deliverables in the grant scope of work. Plumas will be required to complete a three year plan, conduct nutrition education series classes, workshops, and participate in events promoting messages to address SNAP-Ed goals. Plumas County LHD is new to the Network for a Healthy California. They will be focusing on developing their CNAP and doing their community assessments. They have identified nine examples of public health approaches that may be used to accompany direct or indirect nutrition education and that align with each community's needs. All three county health departments are small rural counties and will not conduct CX<sup>3</sup> but plan instead to conduct

community assessments. The cost per contact reflects Plumas as a partner with Lassen and Modoc, as a Very Small Rural Cluster. Based on funding level of \$254,130, the counties will reach 2,540 unduplicated contacts. This is a per capita of \$100 per contact as calculated by the following:  $254,000/2,540 = \$100$  per contact.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**  
*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

This item does not apply to the Plumas County Cluster Program.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

No additional comments

**USDA  
POSITION DESCRIPTIONS**

<b>Position Number</b>	<b>USDA Position Title</b>	<b>LHD Position Title</b>	<b>Position Description</b>
1	Accountant/Finance Analyst		Serves as internal auditor and controller. Assists with processing purchase orders, invoices, preparation of vouchers for payment as related to the Network program, as well as monitoring the budgets.
2	Administrative Coordinator		Provides administrative and office support for the project staff and is responsible for the reporting requirements.
3	Administrator (e.g., Director of Programs)		Administer the nutrition education grant agreement and budget, supervising nutrition education staff, attend nutrition education and scope of work related meetings, program planning and participating in the Regional collaborative. Coordinate grant agreement reporting requirements.
4	After School Coordinator/Assistant		Plan and facilitate nutrition education activities for recreation programming, in after school setting for different age groups of children; seniors, teen; special populations, such as mothers with young children and families; nutrition education for special events and workshops. Prepare instructional plans for youth camps and field trips; and nutrition education for special events and workshops. Prepare instructional plans for nutrition activities, collect data related to nutrition education programming, prepare documentation for nutrition education grant agreement; and helps prepare interim and final progress report .
5	Chief Executive Officer		Provides overall guidance for the operations, personnel, and fiscal responsibilities required by the nutrition project.
6	Community Liaison		Conducts nutrition education, physical activity promotion interventions in the community setting. Works with Community Based Organizations to increase the reach of nutrition education interventions to Nutrition Education Obesity Program eligible.
7	Computer Specialist		The Computer Specialist will provide assistance with the nutrition database and tracking system.
8	Contract Manager		Manages the nutrition education grant agreement including budgets, invoices, local share documentation reports, time studies, fiscal reporting and adherence to funding requirements.
9	Coordinator of Other Program (e.g., Teen program, Healthy Start, etc.)		Supervises, coordinates, facilitates nutrition education activities, workshops, special events related to the recreation and community center planning and working together with other community center groups. Supervises staff implementing the nutrition education grant agreement, prepares invoices, prepares and collects documentation, prepares progress reports
10	Curriculum Specialist		Develops curriculum for nutrition education and physical activity interventions in a variety of different channels/venues.
11	Database Coordinator		Develops database used to track nutrition education, physical activity and food stamp promotion interventions in a variety of channels.
12	Dental/Medical Assistant		Conduct one-on-one nutrition education interventions prior to primary care visit.
13	Dietician		Oversees and supervises the nutrition education program including project administration, project coordination, the development of the nutrition education component and materials and other nutrition and physical activity promotion programs.
14	Family Advocate		Provides nutrition education to students and their families, and recruits NEOP eligible for group nutrition/cooking classes. Provides nutrition, physical activity and food stamp promotion resources to students and their parents.

**USDA  
POSITION DESCRIPTIONS**

15	<b>Food Service Worker (e.g., Director, Manager, Asst., Server, Cook)</b>		Assists with planning and preparing healthy food taste tests in the school setting in conjunction with classroom based nutrition education intervention. Works with teachers to increase student, teacher and parent knowledge of the importance of consuming more servings of fruits and vegetables and being active daily. Compiles documentation on taste testing activities and all reporting required for nutrition grants. In some cases, supervises staff that carry out activities.
16	<b>Graphic Illustrator</b>		Develop local promotional nutrition education materials such as community flyers/ newsletters and/or to develop local nutrition/physical activity promotional/educational materials under the direction of the nutrition staff.
17	<b>Health Educator (including Health Aide, Health Promotion Instructor, etc.)</b>		Develop materials and facilitate health education in both group and individual settings. Teaches general nutrition, the importance of fruits and vegetables, and health benefits of proper nutrition and physical activity.
18	<b>Legal Counsel</b>		Assist with development of policies, approval of grant agreements and Memorandums of Understanding and providing legal advice specifically related to the implementation of nutrition education and physical activity promotion
19	<b>Medical Assistant</b>		Demonstrates safe food handling and personal hygiene to prevent food borne illness, provide nutrition-related services to staff, parents, and students and promotes physical activity within the context of nutrition education. (This does not include any medical nutrition therapy).
20	<b>Nurse/Nurse Supervisor/Nurse Aide RN</b>		Provides nutrition and physical activity promotion to students enrolled in nutrition education programs and their families. Supports nutrition education goals through interventions; local, regional, and statewide collaboration and interventions. (This does not include any medical nutrition therapy).
21	<b>Nutritionist/Nutrition Educator/Nutrition Aide</b>		Provides nutrition education to the neop eligible population. Specific duties include: one-on-one general nutrition education, delivery of general nutrition education in a classroom or group setting, staffing health fairs and other community or promotional events where nutrition education messages are delivered, distribution of linguistically and culturally appropriate nutrition education materials, documentation of educational and other encounters, assisting with writing project reports and preparation of quarterly reports, maintaining program reporting and tracking systems.
22	<b>Office Manager/Secretary/Admin Assistant</b>		Provides general clerical support to the Program. Assists in development and maintenance of a data collection system with emphasis on fiscal information. Arranges meetings and trainings, orders supplies and materials, creates correspondence, photocopies, etc.
23	<b>Pharmacist</b>		Promotes nutrition education and physical activity to NEOP eligible population through displays, distributing literature, and supervising staff to update nutrition education bulletin board.
24	<b>Physician</b>		Supervises professional staff including Dietitians, Nurses and Nutrition/Project Coordinators that provide nutrition education and promotes physical activity to NEOP eligibles in a variety of channels. Provides direction on strategic planning of nutrition and physical activity programs to NEOP eligible clients. In some cases, provides nutrition education to NEOP eligibles. (This does not include any medical nutrition therapy).
25	<b>Professor</b>		Coordinates, facilitates, modifies, develops, and demonstrates lessons on nutrition and promotes physical activity for the NEOP eligible community, and students with their families. Supports nutrition education Program goals and local, regional, and statewide collaboration.

**USDA  
POSITION DESCRIPTIONS**

<b>26</b>	<b>Program Assistant</b>		Assists the Project Coordinator with nutrition education program planning and development. Under the direction of Project Coordinator, works directly with individuals and small groups providing curriculum-based, prevention-oriented general nutrition education and physical activity targeted to NEOP eligibles.
<b>27</b>	<b>Project Coordinator</b>		Coordinate program staff and nutrition education activities; plan and follow through on outreach and educational events at health fairs, schools, and other promotional activities; work with schools, churches, farm worker organizations, and community organizations in planning and promoting good health through dissemination of nutrition education materials; actively acquire and develop culturally and linguistically competent nutrition curriculum and educational materials; to promote existing and/or to develop new physical activity promotional components of nutrition education; and expand our existing community outreach program to encompass nutritional components to increase community awareness and knowledge of good nutrition and healthy active lifestyles.
<b>28</b>	<b>Promotora</b>		Works with the Project Coordinator in NEOP communities to conduct nutrition education interventions and participate in local events to promote health eating and physical activity for NEOP eligibles.
<b>29</b>	<b>Recreation Leader</b>		Mentors and trains staff on integration of physical activity into nutrition education interventions. Coordinates one-time physical activity demonstrations. Chooses nutrition and physical activity resources to distribute with nutrition education interventions.
<b>30</b>	<b>Research Specialist</b>		Evaluates nutrition education, and physical activity promotion interventions in a variety of community channels. Methods can include process and impact evaluations, pre and post tests, surveys, focus/discussion roundtables, photo documentaries, case studies, etc.
<b>31</b>	<b>School Administrator (e.g., Principal, Superintendent)</b>		Provides oversight and coordination of the nutrition education conducted in participating classrooms of all schools.
<b>32</b>	<b>Teacher/Student Aide/Assistant</b>		Assists the Nutritionists, Health Educators, and Project Coordinator with nutrition education activities and community events that promote healthy eating and physical activity for low-income families, the target population, Food Stamp recipients and other similar households. 100% direct delivery of educational services.
<b>33</b>	<b>Teacher (preK-12 Classroom, PE, Speech, etc.)</b>		Coordinates, facilitates, modifies, develops, and demonstrates lessons on nutrition and promotes physical activity for students and their families. Supports nutrition education program goals through promotion; local, regional, and statewide collaboration; and close coordination with the Registered Dietitian to train staff.
<b>34</b>	<b>Translator</b>		Translates approved curriculum and materials into Spanish or other languages. Reviews translation for cultural appropriateness. Interprets nutrition education interventions (one-on-one and group) in the community for dietitians, health educators and others.
<b>35</b>	<b>Tutor</b>		Assist teachers and/or students with nutrition education and physical activity promotion.
<b>36</b>	<b>Web Designer</b>		Develops and maintains website containing nutrition education resources, gardening and health related topics and issues.

Projected Unduplicate Number of Contacts: 36,000

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Riverside county. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) Continue implementation of Network allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX3 neighborhoods assessed during FFY2012. Share Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX3) assessment results with various local stakeholders, community members, and community organizations and begin implementation of Network allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX3 assessed neighborhoods in FFY2013; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX3 or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible

venues/census tracts; 8) select and implement allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

The County of Riverside, DOPH will incorporate both formative and summative evaluation methods in the project. Formative evaluation methods include the use of needs assessments and process evaluation, in the form of sign-in sheets and the activity tracking forms. The project also includes summative methods in the form of an Impact / Outcome evaluation in the use of pre & post-tests in objective 11. Both methods of evaluation are useful tools in strengthening the efforts and seeing the causal effects of the project's intervention.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

Supplement: The Riverside health department chose Farmer's Market Implementation and School Wellness as their initial PSE priorities. Riverside County LHD will support the City of Perris to change the environment in so far as a new Farmer's Market is developed and implemented, and change the system by supporting the City of Perris to develop and implement a mechanism for CalFresh/EBT/WIC vouchers to be used at the Farmer's Market. Riverside would also be establishing a working relationship with the superintendent of the Perris Elementary School District and the PTA presidents and/or principals

of the different elementary schools. They want to support at least one school from the Perris Elementary School District to get involved in the Safe Routes to School Program. In the next few years, they are hoping to assist the district and/or school sites in establishing a stronger wellness policy, and participating on their wellness committee. For the wellness committee, they would want to connect with the Food Service Director of the district, the head physical education teacher, PTA president, and the school nurse to work together to increase access to healthy fresh food and reduce consumption of sugar sweetened beverage among the students. The Riverside LHD will participate in evaluation and report metrics as per Network criteria and as appropriate for the PSEs it chose. The RE-AIM methodology, semi-annual surveys, annual critical analysis, and in-depth assessment of organizational capacity among the 17 largest agencies will be used. CNAP Plan has/will incorporate objectives that for their specific jurisdiction address the four State-level measurable objectives from the California SNAP-Ed Plan.

Specific objectives for Riverside County's CNAP are as follows:

Collaboration, coordination, expansion and leveraging. We would like to use some of the previous measurable outcomes, such as: Hosting quarterly CNAP meetings (deliverable: agendas, sign-in sheets), • Expanding list of participating partners/attendees (deliverable: partner listing), USDA/SNAP-Ed funded programs (minimum of 5), Non-USDA funded programs (minimum of 5-10), Network sub-grantees including community organizations, city staff, etc (minimum of 3-6), Coordinate efforts amongst partners to promote seasonal nutrition messages and activities countywide (minimum of 2 annually - deliverable: list of selected events, partner summaries, photos). This may include commemorations such as: National Food Day, National Nutrition Month, Public Health Week, American Heart Month, National Bike Month, World Breastfeeding Month, and Other Nutrition/Physical Activity awareness events/dates.

\*After each school name indicate all that apply with the following abbreviations: K-12 School (S), Preschool (PS), After School (A) & Parents (P)

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measurable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent systematic before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

<b>X</b>	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
<b>X</b>	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
<b>X</b>	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
X	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
X	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
	Investigate environmental or cultural barriers to healthy eating and active living.
X	Provide training or technical assistance to health or community professionals.
	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
X	Create work-site SNAP-Ed programs.
	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
X	Cultivate community or school gardens.
X	Promote access/appeal, or policy changes to support physical activity or exercise.
X	Other, specify: Develop healthy procurement policies, healthy nutrition standards, and/or signage

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of four proposed subcontractors in Riverside County's FY14 SNAP-Ed Program project. All subcontractors will support our program in achieving the four above identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity amongst adults, teens, and children.

**Objectives 1-3:** Specifically, four subcontractors will take on a coordination role to work with and train youth and adults at local school district sites. Collectively, four subcontractors will support the LHD to provide nutrition education activities to youth (teens and children) and adults (parents and teachers) at school district affiliated venues such as classrooms, school sponsored events, early childhood education sites, before and after school programs, teacher in-service/trainings, and partnership activities with local parks and recreational programs. Subcontractors will train teachers on the use of taste testing or food demonstration curriculum, materials and student workbooks, such as Harvest of the Month; train parents at nutrition education classes taking place at before and after school programs; and conduct food demonstrations and taste testing activities at school-wide events targeting both youth and adults. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractors through the distribution of newsletters and other education materials sent directly to parents of youth and teens of targeted sites.

**Objectives 1-4:** Four subcontractors will serve as the coordinating body and provide youth engagement trainings for both youth and teens at school and community sites, e.g. before and after-school programs, parks and recreational programs and youth-focused service organizations. The purpose of the youth engagement related activities will be to increase awareness for policies, systems, and environmental change approaches to establish wellness policies at their respective school sites and identify and advocate for environmental changes within their surrounding community.

Riverside County LHD will specifically address **Objective 3 and 4** by working on a policies, systems, and environmental change strategy to increase opportunities for physical activity at schools and in the community by offering coordinated physical activities at the re-opening of the farmer's market. Students and their families will be educated on the importance of incorporating physical activity and healthy beverage consumption. District administrators and school personnel will be encouraged to strengthen and support healthy food and beverage policy which includes healthy vending, water access and healthy parties/fundraisers.

Wellness policies, depending on the exact nature of the policy adopted, will help create an environment where it is easier to engage in the healthy consumption of fruits, vegetables, low-fat/nonfat milk, and water; as well as increase physical activity.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

There will be four subcontractors who will coordinate the school-based trainings of children, teens, and adults as it relates to taste testing and food demonstration activities, e.g. Harvest of the Month, cooking demos, etc. Each of the four subcontractors will conduct the trainings in different geographic locations within their respective city limits across the county servicing a mix of medium and large sized school districts comprised of a significant number of target youth. All subcontractors will support the program by collecting process evaluation data such as number of individuals reached, materials distributed, and documentation of the number and type of activities conducted. Formative evaluation will also be conducted to ascertain any changes in fruit and vegetable consumption and beverage intake.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

Narrative

The health department (LHD) provides nutrition education and obesity prevention services to eligible SNAP-Ed residents in Sacramento county/city. The LHD will promote the 2010 Dietary Guidelines to increase consumption and access to healthy foods and drinks, decrease consumption of and access of less healthy foods and drinks, and increase opportunities and activity levels of physical activity among the SNAP-Ed eligible population.

The LHD will be responsible to: 1) conduct 2 - 5 series nutrition education classes and/or one time classes/workshops for SNAP-Ed eligible individuals in the community; 2) conduct nutrition education activities in support of local and regional healthy foods/beverage education efforts to reach SNAP-Ed eligible individuals in qualifying communities; 3) share Communities of Excellence in Nutrition, Physical Activity and Obesity Prevention (CX<sup>3</sup>) assessment results with various local stakeholders, community members, and community organizations. Implement *Network* allowable nutrition education interventions and obesity prevention strategies in at least 50% of CX<sup>3</sup> assessed neighborhoods; 4) coordinate local media activities to highlight nutrition and physical activity events, campaigns or accomplishments; 5) conduct community engagement events in order to establish consensus on community priority issues directly related to the CX<sup>3</sup> or other community assessments or reassessments in eligible neighborhoods; 6) conduct community events reaching SNAP-Ed eligible individuals or groups; 7) conduct training(s) of service providers including representatives of peer-to-peer (“Champions”) of SNAP-Ed-eligible families, youth and community groups in SNAP-Ed-eligible venues/census tracts; 8) select and implement

allowable evidence-based strategies from approved Network Policy, Systems and Environmental Change Matrix and 9) establish coalitions and partnerships for the purpose of addressing community-specific consensus issues/initiatives impacting SNAP-Ed population.

**e. Summary of Research.**

*See Section A.*

**f. Modification of Project Methods/Strategies.**

. Continuing, No adaptation or change in intervention

. Project is new

*All future modifications will be approved by the Network.*

**g. Use of Educational Materials.**

*See attached Master Educational Materials list submitted in State plan Section F.*

**h. Development of New Nutrition Educational Materials.**

*No new nutrition educational materials will be developed with Network funds.*

**i. Key Performance Measures/Indicators. (max. 100 words)**

Sacramento County will utilize both process and outcome evaluation measures. Process evaluation measures will include tracking logs to document that program activities occur, sign-in-sheets to document the number of program participants, demographic questionnaires to determine if the program is reaching its intended audience, and staff observations to ensure program consistency across outreach sites.

Outcome evaluation will determine whether changes occur in the knowledge, attitude, and behavior among participants. Potential changes will be assessed through pre-/post-test questionnaire(s). Additionally, the program will also track any environmental changes that occur as a result of the program's educational efforts.

---

**2. EVALUATION PLANS**

*All grantees participate in process evaluation per their Scope of Work activities. Grantees must participate in Impact/Outcome Evaluation. Impact/Outcome Evaluation measures the effectiveness of an intervention by assessing behavior change or the factors that directly influence behavior change primarily focusing on nutrition education and obesity prevention.*

---

**3. COORDINATION EFFORTS (MAX. 100 WORDS)**

LHD will establish/maintain key partnerships through County Nutrition Action Plan group that meets up to six times per year. The LHD will develop/update a CNAP to 1) enhance collaboration and communication among stakeholder agencies, 2) coordinate nutrition education messages, resources and campaign implementation across FNS programs, and 3) maintain, expand and share CNAP with FNS programs, local partners and external stakeholders in an effort to increase food security in the target population.

**Supplement:** Sacramento County LHD has focused on developing their CNAP and conducting their community assessment. The initial PSE strategies that align with the community needs are Rethink Your

Drink and School Wellness. Sacramento County is a large county with a large population of SNAP Ed eligibles. Their objectives will be met through nutrition education and obesity prevention activities and deliverables in the grant scope of work. For FFY 2014, Sacramento LHD, through active collaboration with the CNAP partners, will work together to improve access, awareness, implementation, and utilization of culturally appropriate healthy eating/active living resources for Sacramento County SNAP Ed eligible population. The initial PSE strategies that align with the community needs are Rethink Your Drink and School Wellness. Sugar sweetened beverages are widely available to Sacramento County residents. The RYD interventions will focus on reducing the availability of sugary drinks and provide nutrition education to low income SNAP Ed eligibles so they have more information and knowledge to make healthy choices. School Wellness Policies have the potential to promote and enhance healthy behavior for staff and students at eligible school sites. Sacramento LHD efforts with CNAP partners is to create a unified nutrition message, share resources and coordinate activities that are being utilized and/or conducted on eligible school sites. Sacramento County LHD CNAP will incorporate objectives that will address the measurable objectives from the California SNAP-Ed Plan. Sacramento County's proposed objectives are: Increase communication and collaboration among nutrition and physical activity programs serving Sacramento County's SNAP Ed eligible population; Coordinate nutrition and physical activity messages among programs serving Sacramento County SNAP Ed eligible population; Increase participation in local food and nutrition services among programs serving Sacramento County SNAP Ed eligible population; and Continually identify and address gaps in services among programs.

\*After each school name indicate all that apply with the following abbreviations: K-12 School (S), Preschool (PS), After School (A) & Parents (P)

**1) List 4 primary project objectives that are specifically supported by SNAP-Ed funds during FY 14.**  
*Objectives should reflect the results that you seek to demonstrate in your program; what you seek to accomplish. Objectives should be specific, measureable, appropriate, realistic, and time specific.*

1. By September 2014, as measured by pre/post surveys, increase vegetable consumption among adults by 10%, teen by 10%, and children by 10%.
2. By September 2014, as measured by pre/post surveys, increase fruit consumption among adults by 10%, teens by 10%, and children by 10%.
3. By September 2014, as measured by pre/post surveys, increase consumption of low/fat/nonfat milk and water among adults by 5%, teens by 7%, and children by 5%.
4. By September 2014, as measured by pre/post surveys, increase physical activity among adults by 5%, teens by 5%, and children by 5%.

**2) What is the rationale for these objectives?**

*What is the need? How will achieving these objectives contribute to statewide goals to improve consumption of healthy foods, reduce consumption of unhealthy foods, and increase the number of place-based nutrition and physical activity environment supports?*

Valid and reliable data to measure progress in attaining each objective must come from standardized instruments that are administered at times that represent before and after exposure to or participation in, an intervention. NEOP will conduct statewide evaluation of local SNAP-Ed interventions by obtaining consistent measures and evaluation procedures from local health departments. These measures will include pre/post comparisons from nutrition intervention courses, and/or from 2014 as compared with 2013 survey responses by adults, teens and children from randomly-sampled SNAP households.

**3) Please identify which type(s) of policy, environment, and systems changes you will work to address in FY 14 to help accomplish your objectives.**

*Below are examples of public health approaches that may be used to accompany direct or indirect nutrition education. Please place an "x" in the box for those that apply. This list is not comprehensive; please write-in other proposed approaches for review.*

	Use community or place-based messaging to promote access and appeal for healthy foods, beverages, and/or physical activity.
	Use digital or on-line media to promote access and appeal for healthy foods, beverages, and/or physical activity.
	Mobilize community partnerships around healthy eating and active living.

X	Develop wellness policies in schools, after-school, or child care settings sites that support children and family nutrition and health.
X	Develop healthy corner stores or food retail policies and organizational practices.
	Develop nutrition standards at emergency food distribution sites.
	Develop point-of-purchase marketing/signage at food retailers.
	Measure health status or individual risk factors for obesity in the SNAP-Ed population.
	Investigate environmental or cultural barriers to healthy eating and active living.
	Provide training or technical assistance to health or community professionals.
X	Develop healthy procurement policies, healthy nutrition standards, and/or signage for congregate meals providers.
	Create work-site SNAP-Ed programs.
X	Link farms to institutions through farm stands or farm-to-where-you-are initiatives.
	Cultivate community or school gardens.
	Promote access/appeal, or policy changes to support physical activity or exercise.

**4) If applicable, briefly describe how your sub-contractor(s) will support the LHD in achieving its objectives for FY 14?**

*Be specific in how your sub-contractors will contribute to the LHD project's success.*

There are a total of four proposed subcontractors in Sacramento County's FY14 SNAP-Ed Program project. All subcontractors will support our program in achieving the four above identified objectives to increase vegetable, fruit, low-fat/nonfat milk, and water consumption; as well as increase physical activity among adults, teens, and children.

**Objectives 1-3:** Specifically, two subcontractors will take on a coordination role along with two additional subcontractors to directly work and train youth and adults at local school district sites. Collectively, these four subcontractors will support the LHD to provide nutrition education activities to youth (teens and children) and adults (parents and teachers) at school district affiliated venues such as classrooms, school sponsored events, before and after school programs, and teacher in-service/trainings. Subcontractors will train teachers on the use of taste testing or food demonstration curriculum, materials and student workbooks, such as Harvest of the Month; train parents at nutrition education classes taking place at before and after school programs; and conduct food demonstrations and taste testing activities at school-wide events targeting both youth and adults. Additional nutrition education on the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption will be coordinated by the subcontractors through the distribution of newsletters and other education materials sent directly to parents of youth and teens of targeted sites.

**Objectives 1-4:** One subcontractor will also serve as the coordinating body for youth engagement trainings of both youth and teens at school and community sites, e.g. before and after-school programs, parks and recreational programs, faith based organizations, and youth-focused service organizations. One additional community based organization will be subcontracted to directly provide these trainings. The purpose of the youth engagement related activities will be to increase awareness for policies, systems, and environmental change

approaches to establishing wellness policies at their respective school sites.

Sacramento County LHD will specifically address objective 3 by working on a policies, systems, and environmental change strategy to increase consumption of low/fat/nonfat milk and water at school sites. Students will be educated on the importance of hydration before, during and after physical activity, trained in the different methods in which they can communicate the newly acquired knowledge to peers, parents, teachers, and administrators within their school district; and help collect formative evaluation data on the level of support for increasing water stations amongst peers, parents, and adults.

Wellness policies, depending on the exact nature of the policy adopted, will help create an environment where it is easier to engage in the healthy consumption of fruits, vegetables, low-fat/nonfat milk, and water; as well as increase physical activity.

**5) If you are awarding multiple sub-contracts for a similar type of service (e.g., school-based or peer-to-peer), please state specifically how the sub-contractors will complement one another?**

*Will there be differences in their target audiences, geographic locales, performance measures, etc.?*

There will be two subcontractors who will coordinate the school-based trainings of children, teens, and adults as it relates to taste testing and food demonstration activities, e.g. Harvest of the Month, cooking demos, etc. A total of four subcontractors will be actually conducting the trainings at different geographic locations in the county servicing a mix of medium and large sized school districts comprised of a significant number of target youth (estimated >10K FRPM youth). All subcontractors will support the program by collecting process evaluation data such as number of individuals reached, materials distributed, and documentation of the number and type of activities conducted. Formative evaluation will also be conducted to ascertain any changes in fruit and vegetable consumption and beverage intake.

A similar model of coordination and implementation will also take place among four subcontractors for the youth engagement related activities to support the adoption and implementation of school wellness policies.

**6) Any other comments regarding the scope of your proposed activities or sub-contractors in FY 14?**

**Objectives 1-4:** Specifically, two subcontractors will take on a coordination role along with one additional subcontractor to directly educate adults in nine targeted neighborhoods via peer to peer education. Subcontractors will train community outreach workers (CHOWs) on the use of nutrition education curriculums and material to explain the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption, as well as increase physical activity.

**Objectives 1-4:** One subcontractor will serve as the coordinating body for food retail engagement activities. One additional community based organization will be subcontracted to directly provide some of these activities. The purpose of the food retail engagement related activities will be to increase awareness for policies, systems, and environmental change

approaches to establishing wellness policies at their respective store sites.

Specific policies, systems, and environmental change strategies will help create an environment where it is easier to access affordable fruits and vegetables and healthy beverages.

**Objectives 1-4:** \_One subcontractor will serve as the coordinating body for faith-based engagement activities predominantly at African-American and Latino sites. Subcontractors will train faith-based staff and/or parishioners on the use of nutrition education curriculums and material to explain the importance of vegetable, fruit, low-fat/nonfat milk, and water consumption, as well as increase physical activity.

Specific policies, systems, and environmental change strategies will help create an environment where it is easier to engage in the healthy consumption of fruits, vegetables, low-fat/nonfat milk, and water; as well as increase physical activity.
