2 California Health Interview Survey (CHIS) 2005. Ask CHIS <http://www.chis.ucla.edu/main/default.asp>. Note: CHIS only asks food insecurity questions if respondents' income is ≤ 200% Federal Poverty Level (FPL); so, prevalence only reflects food insecurity among low-income adults. Also, CHIS reports combined food insecurity estimates for smaller counties e.g. Del Norte/Siskiyou/Lassen/Trinity/Modoc/Plumas/Sierra, Tehama/Glenn/Colusa, Tuolumne/Calaveras/Amador/Mariposa/Mono/Alpine

3 Number of FSP participants in the county - average of 2007 monthly FSP participant figures. Source: DFA 256 - Food Stamp Program Participation and Benefit Issuance Report [http://www.dss.cahwnet.gov/research/DFA256-Foo\\_422.htm](http://www.dss.cahwnet.gov/research/DFA256-Foo_422.htm). Note: Statewide average is the sum of the county averages; since, for most months data for specific counties is missing making the monthly statewide total incomplete.

4 PAI is included because FSP participation rates (% of eligible people receiving food stamps) are not available at the county level. Source: Abascal (2008) "Measuring County Food Stamp Performance Using the Program Access Index to Analyze California's 58 Counties" <http://www.cfpa.net/foodstamps/PAI%20Final.pdf> "The Program Access Index (PAI) is one of the measures USDA Food and Nutrition Service (FNS) uses to assess states' performance in the administration of the Food Stamp Program. The PAI is simply the ratio of the average number of individuals participating in the Food Stamp Program to the number of individuals income-eligible to participate in each state for a particular calendar year. Because income is the only eligibility measure considered in the index, the PAI can best be seen as a measure of the extent to which low-income people are participating in the Food Stamp Program. While PAI is an incomplete measure, USDA uses PAI to evaluate and reward food stamp performance, notably the high performance bonuses established in the 2002 Farm Bill." CFPA makes two modifications to the methodology employed by USDA: 1) they had to adjust for limited income data for California's smaller counties and 2) they make adjustments to USDA's SSI exclusion step.

5 The percentage of people income eligible (<130%FPL) but not receiving food stamps statewide living in the county.

**\* The California Obesity Prevention Plan**

*The California Obesity Prevention Plan: A Vision for Tomorrow, Strategic Actions for Today* (COPP) was released on September 14, 2006 and serves as a guide for each sector of society to take part in creating the shift to healthy eating and active living. This plan builds on and is consistent with the Governor Schwarzenegger's "Vision for California – 10 Steps toward Healthy Living" developed in September 2005. COPP is meant to serve as a springboard for government, business, voluntary, and philanthropic sectors to convert fragmentation into collaboration and synergy, to carefully align and invest resources, and to create a shared response to a societal crisis. For more information visit <http://www.cdph.ca.gov/programs/Pages/CO-OP.aspx> and see Coordinating Office for Obesity Prevention, below.

**\* CDC Nutrition, Physical Activity, and Obesity Program Cooperative Agreement**

On March 14, 2008, CDPH applied for the CDC Nutrition, Physical Activity, and Obesity Program cooperative agreement (CDC-RFA-DP08-805). If California's proposal is approved, the funding will support the establishment of the California Nutrition, Physical Activity and Obesity Prevention (CNPAO) Program. The goals of CNPAO would be: (1) prevent and control obesity guided by COPP; (2) reduce the adverse impact of obesity-related chronic conditions and diseases; and (3) Decrease obesity-related health inequities. During the first year of this cooperative agreement, the California Department of Public Health, along with other stakeholders, will lead development of an "enhanced" obesity prevention plan for the State of California containing strategies and activities for development of state functions related to infrastructure, management, implementation, training and technical assistance, and evaluation.

**\* Establishment of the California Department of Public Health and Department of Health Care Services**

Established by California Senate Bill (SB) 162 (Ortiz, 241, Statutes of 2006), the California Department of Public Health (CDPH) became effective July 1st, 2007 and has brought greater focus to the issues of public health by consolidating programs within the former California Department of Health Services. The rationale was to create a more effective public health infrastructure in California to decrease illness, injury and death rates; provide greater protection for California residents in the event of an act of bioterrorism or other major public health emergency; increase accountability; and improve program effectiveness for the public's health. CDPH continues to work in close coordination with the California Department of Health Care Services

**\* California Legislation**

During 2007, Governor Schwarzenegger built upon priorities set out in COPP by signing two pieces of legislation establishing higher nutritional guidelines that limit trans fat from foods served to school children, kindergarten through grade 12. SB 80 (Committee on Budget and Fiscal Review, Chapter 174, Statutes of 2007) prohibits the

sale or service of any food item that has been deep-fried or contains trans fat in excess of 0.5 grams per serving as a part of a free and reduced-price meal in schools. SB 490 (Alquist, Chapter 648, Statutes of 1007), beginning in July 2009, prohibits schools from providing students with any food containing artificial trans fat, or using food containing artificial trans fat in the preparation of a food item served to students. This prohibition includes foods provided through a vending machine or school food service establishment, from one-half hour before to one-half hour after school hours. During 2008, 27 bills were introduced before the State Legislature that addressed nutrition, physical activity, food security and obesity prevention, indicating the ongoing level of interest toward these issues.

## CATEGORICAL PROGRAMS OPERATED BY CALIFORNIA STATE GOVERNMENT

### **\* Department of Social Services**

The **Emergency Food Assistance Program** does not require or provide funding for nutrition education.

The **California Food Assistance Program** does not require or provide funding for nutrition education.

### **\* California Department of Public Health and Department of Health Care Services**

California's **Women, Infants and Children program (WIC)** provides statewide services through 82 local agencies and serves over 1.4 million mothers, infants and children each month, with almost 60 percent of all infants born in California each year enrolled in the program. Based on successful experience with the federally-funded *Fit WIC!* project, California is expanding its efforts to meet the state's needs for obesity prevention in young children, and it is providing staff leadership for the State Nutrition Action Plan (SNAP). WIC is coordinating closely with the *Network* and other partners to maximize the impact of the changes to WIC foods that will be implemented in 2009 by marketing healthy food choices in health care, retail and child care settings, and to improve access to the new WIC foods in low income neighborhoods. WIC has also implemented a new Local Vendor Liaison initiative to facilitate local WIC staff working directly with retailers to support the changes and for this effort, the *Network* Retail Program and WIC will collaborate closely to ensure coordinated assistance to eligible retailers. <http://www.cdph.ca.gov/programs/wicworks/>

The **Maternal, Child and Adolescent Health (MCAH)/ Office of Family Planning (OFP) Branch** has funded special projects in nutrition and physical activity, with an emphasis on breastfeeding promotion. Obesity prevention is in the top 10 priority health indicators for federal Title V state plans. Most MCAH resources are directed to low-income groups. A goal of the MCAH/OFP Branch is that healthy eating and physical activity will be the easy and preferred lifestyle choice of all California women of reproductive age and children to the age of 21 years. Some activities include:

- Promoting healthy eating and physical activity through all Maternal, Child and Adolescent Health/ Office of Family Planning (MCAH/OFP) Branch programs and initiatives at the state and local level.

- Promoting the development of healthcare policies, training and guidelines that support healthy eating and physical activity for all programs, health care providers, schools, childcare centers, and employers.
- Supporting MCAH/OFP partners throughout the state in the development and participation in local healthy eating and physical activity related coalitions.
- Using healthy eating and physical activity epidemiological information that is obtained from multiple sources to design, implement, and evaluate initiatives that are effective and reach individuals with the most need.

The **Children's Medical Services (EPSDT)** has long provided State funds and exceeded federal requirements by mandating nutrition assessment and anticipatory guidance in nutrition for the estimated 3,391,953 low-income children and youth receiving preventive health care billed through the Child Health and Disability Prevention Program. A number of counties employ public health nutritionists to work with CHDP health care providers; nutrition education is loosely coordinated through this group.

**California Project LEAN (Leaders Encouraging Activity and Nutrition) (CPL)** is a joint program of CDPH and the Public Health Institute. The mission of CPL is to increase healthy eating and physical activity to reduce the prevalence of obesity and chronic diseases such as heart disease, cancer, stroke, osteoporosis and diabetes. CPL focuses on youth empowerment, policy and environmental change strategies, and community-based solutions. CPL plans to continue its leadership role in CDPH's youth engagement efforts by partnering with the *Network* to providing leadership and training to FSNE-eligible youth and adult leaders via *Network* contractors on how to engage and empower youth to act as champions for nutrition and physical activity improvements in their communities. For more information, visit [www.CaliforniaProjectLEAN.org](http://www.CaliforniaProjectLEAN.org).

**The California Center for Physical Activity (Center)** develops strategic partnerships and provides mini-grants, technical assistance, best practices and model programs to create opportunities for everyday physical activity. Center projects include the California Active Aging Network, California Walk to School Headquarters, Healthy Transportation Network, Home Zones, Local Public Health and the Built Environment Network, Safe Routes for Kids, School Siting and Joint Use Facilities, and Walkable Community Workshops. The Center is primarily funded by the Centers for Disease Control and Prevention, Preventive Health & Health Services Block Grant. Other funding sources include the California Department of Transportation - Federal Highway Administration Transportation Enhancements and Pfizer. Aside from the collaborative work with the *Network*, its programs are not aimed preferentially to low-income persons or communities. For more information, visit [www.caphysicalactivity.org](http://www.caphysicalactivity.org).

**School Health Connections:** Funded since 1995 through an infrastructure grant from CDC/Division of Adolescent and School Health for coordinated school health, this coordinated school health initiative is a joint program between the California Department of Education and CDPH. Given CDC/Division of Adolescent and School Health's priority on obesity prevention, School Health Connections has particularly focused on the nutrition, physical activity, and healthy school environment components. School Health Connections advocates for policy and environmental change and supports linkages between health and education, and provides technical support; it does not provide direct

services or target solely low-resource schools or children. For more information, visit [www.dhs.ca.gov/schoolhealth](http://www.dhs.ca.gov/schoolhealth).

**\* University of California**

**Center on Weight & Health, UC Berkeley** – Housed jointly by the College of Natural Resources and the School of Public Health, the Center conducts research, provides training and technical assistance especially in the area of evaluation, and participates in a variety of leadership activities, principally in the area of childhood obesity prevention and control. It is funded through the University, government contracts, and foundations. For more information, visit [www.cnr.berkeley.edu/cwh](http://www.cnr.berkeley.edu/cwh).

**Center for Social Marketing and Nutrition, UC Davis** – Funded initially by California's Cancer Research Program to assist DHS social marketing campaigns, the Center now provides training and technical assistance to *Network*-funded agencies, maintains a unique, on-line inventory of community nutrition and physical activity assessment instruments, and conducts applied research with *Network* partners, mostly focusing on understanding problems of fruit and vegetable promotion and access in low-income communities. More information is available at <http://socialmarketing-nutrition.ucdavis.edu/somark.htm>.

**\* California Department of Education**

**National School Lunch Program (NSLP)** – NSLP is offered in approximately 11,700 public and private schools, serving an estimated 3 million lunches every day. In the 2006-2007 school year, California received federal funding of \$1.25 billion to provide a daily average of 4,125,175 meals (lunch and breakfast) in school settings. Over 75 percent of the lunches were free/reduced price. Nutrition education is encouraged but not required, and neither State nor federal funds are routinely available for nutrition education through CDE.

**School Breakfast Program** – In 2006-2007, school breakfast was offered in over 9,100 California schools, and 88 percent of the breakfasts served in these schools were free/reduced price. Nutrition education is encouraged but not required, and neither State nor federal funds for nutrition education are routinely available through CDE.

**Child and Adult Care Food Program (CACFP)** – This program provides federal funding for meals in 28,663 child care and adult group settings. In 2007, California received \$262.5 million to provide a daily average of meals to 357,4259 in all settings. Neither State nor federal funds for nutrition education are routinely available through CDE.

**Summer Food Service Program (SFSP)** – This program provides federal funding for meals to children, most from low-income families, when they are out of school for 15 or more consecutive days. In 2006-2007, 1,516 California sites served meals through this program with federal funding of \$14 million. In July 2007, the daily participation in the SFSP was 93,085. Neither State nor federal funds for nutrition education are routinely available through CDE.

**After School Snack Program** – As part of the NSLP and CACFP, Federal reimbursement is provided to organizations to provide nutritious snacks in structured after school settings to primarily children that qualify for free or reduced school breakfast and lunches. With the implementation of Proposition 49, *the After School Education and*

*Safety Program Act*, state and federal investments in after school programs reached \$680 million at over 4,000 California locations. Current Education Code [Section 8482.3 (2)] requires after school programs to serve students snack foods that meet California food and beverage standards for schools. While nutrition-related programming is not a requirement of the law, funding may be directed to support nutrition education and physical activity promotion.

**School Breakfast Start-Up Grants** – This State-funded program seeks to improve academic performance and support good nutrition by assisting low-resource schools in offering school breakfasts. Neither State nor federal funds for nutrition education are routinely available through CDE.

**Schools/Child Nutrition Commodity Program** – As a support for American agricultural producers, USDA purchases and provides donated commodities to NSLP and SFSP agencies. During the 2006-2007 school year, those programs received food valued at \$107,239,567, or \$0.1675 for each lunch served to students. California CACFP agencies receive cash payments of \$13,185,093 instead of donated commodities. Although the legislation for the Commodity Program does allow for nutrition education, funding is not provided to local education agencies for this purpose.

**Special Milk Program** – This federal program provides funding for milk served to children in schools, child care programs and camps that do not participate in other federal child nutrition meal programs. In the 2007-2008 school year, funding of \$0.17 was available for each half-pint of milk served to students, with additional funding up to the net purchase price for milk for milk served to children who are determined to be at or below 130 percent of federal poverty guidelines. In 2006-2007, \$588,330 was provided for milk served to children at 334 sites in California.

**State Meal Program** – In the 2007-2008 school year, this State-funded program provided \$123 million in Proposition (Prop) 98 and \$12.2 million Non-Prop 98 funding for school breakfasts and lunches served free and at a reduced-price to students by schools and child care programs. California schools are required to provide meals to students from low-income households while they are attending school.

**USDA's Team Nutrition (TN)** is an initiative of the USDA Food and Nutrition Service to support Child Nutrition Programs through training and technical assistance for foodservice, nutrition education for children and their caregivers, and school and community support for healthy eating and physical activity. In 1999, Congress discontinued appropriating funds for Nutrition Education and Training (NET) Program altogether and replaced it with a limited program of competitive grants of up to \$200,000 per state. In 2007, CDE was awarded \$185,000 for a project called "Starting Right in the Child Nutrition Program", which focuses on instructing food service production-level staff utilizing the community college system.

**Shaping Health As Partners in Education (SHAPE) California** is an initiative that supports the coordinated school health model. Currently, there are over 225 districts working together to improve the health and academic success of California school children. The SHAPE California approach includes: offering healthy meals in child nutrition programs; promoting comprehensive, sequential nutrition education; applying school nutrition policy and practices; and building and maintaining partnerships within the school and neighboring community that support comprehensive nutrition services.

CDPH requires schools to participate in SHAPE in order to be a *Network* Local Incentive Awardee.

**Garden in Every School Initiative:** Since the Superintendent-driven initiative, the California Department of Education's (CDE) "*A Garden in Every School*" began 10 years ago, 3,000 school gardens have been planted. In 2006, Assembly Bill 1535 (Nunez, Chapter 437, 2006) authorized CDE to award \$15 million for the California Instructional School Garden Program to provide grants to California school districts, direct-funded charter schools, and County Offices of Education in order to promote, create, and support California instructional school gardens. In 2007, the California Department of Education awarded \$10.8 million to California schools. This means that 40% of school sites (3,849 schools) in California received grants to purchase equipment, supplies or professional development and to complement their academic programs and create opportunities for children to learn how to make healthier food choices, participate more successfully in their educational experiences, and develop a deeper appreciation of their community<sup>1</sup>. Grant recipients identified nutrition as the second most common subject that they intended to teach in school gardens<sup>2</sup>. Grantees will have until 2009 to utilize these funds.

**California Healthy Kids Resource Center** maintains a comprehensive collection of health, nutrition, and food service education materials for use by teachers, administrators, child nutrition staff, other professionals, parents, and community personnel who work with students in preschool through grade 12. Its primary funding is from CDE (School Health Connections Office, the Healthy Kids Office, and the Nutrition Services Division). The *Network* provides supplemental funding aimed at supporting the provision of suitable materials for its FSNE-eligible school partners.

**California Fresh Start Program (CFSP)**, which was signed into law on September 15, 2005, promotes the consumption of fresh fruits and vegetables by school age children by providing \$18.2 million in funding for school breakfast programs. The law encouraged public schools participating in the SBP, maintaining kindergarten or any of grades 1 to 12, inclusive, to provide fresh fruits and vegetables (excluding those that have been deep-fried and juice) to pupils in order to supplement other fruits and vegetables served in the School Breakfast Program. Public school districts and charter schools were eligible to apply for reimbursement of ten cents (\$0.10) per breakfast meal in 2006. Provision of nutrition education was a required component for to receive the additional reimbursement. At a minimum, this education included tasting and sampling of fresh fruits and/or vegetables as part of nutrition education. This program was not funded in 2007.

#### **\* California Department of Food and Agriculture**

**The Dairy Council of California**, a large California agriculture marketing order, has developed and sponsors proven-effective nutrition/physical activity curriculum and education materials for schools at four developmental levels: pre-K, grades 1-2, grades 3-

The **California School Garden Network (CSGN)**, a **501c(3)** organization led by the Western Growers' Association, CDFA, the *Network*, CDE, the Foundation for Agriculture in the Classroom, and California Integrated Waste Management Board has the mission to promote school gardens in California. A large number of stakeholders, including Extension's Master Gardener Program, interested business sponsors, and non-profit organizations are involved in working committees. CSGN has developed a website as a collaborative effort to compile school garden resources and make them available in one location. The website has gone from having 1,200 hits per month when it was launched in April of 06 to having 3,500 hits per month in April of 07, and it was instrumental in publicizing California Instructional School Garden Grant Program. In addition, the CSGN released *Gardens for Learning - Creating and Sustaining Your School Garden* in October of 2006. This guidebook is targeted to educators to help them develop, maintain and provide instruction in school gardens. First Lady Maria Shriver provided a foreword for the guidebook and was present during a CSGN school garden makeover day in LA. The *Network* has provided partial funding for these resources. This statewide school garden initiative includes nutrition education to low-resource schools as part of school gardens. CSGN partners Life Lab Science Program and UC Davis created and conducted two trainings on creating and sustaining school gardens using the Garden for Learning Guidebook, and CSGN plans to provide mini-grants for others to replicate the training in 2008 - 2009.

#### **\* The California Children and Families Commission**

In 1998 California voters passed Proposition 10, adding a 50-cent tax to each pack of cigarettes sold in California to create First 5 California, also known as the California Children and Families Commission. First 5 California is dedicated to improving the lives of California's young children and their families through a comprehensive system of education, health services, childcare, and other crucial programs. First 5 California's mission is to be recognized as California's unequivocal voice for children 0 to 5 to ensure greater equity in their readiness for school (by 2012). Based on county-specific birth rates, First 5 California distributes funds to local communities through the state's 58 counties, all of which have created their own local First 5 County Commissions to address community needs. Eighty percent of the annual Proposition 10 revenues are allocated to the 58 County Commissions, while the remaining 20 percent funds the state's overall guiding programs and administrative costs.

While all County Commissions implement some form of nutrition and physical activity efforts through existing programs, approximately 30 of 58 also report engaging in and/or investing in distinct nutrition and physical activity programs; many County Commission efforts are implemented in collaboration with locally funded *Network* projects. Also, the State Commission kicked off an obesity prevention mass media public awareness campaign in 2005/2006. The campaign built on and supported existing WIC and *Network* initiatives. In partnership with the First 5 Association of California (a statewide organization representing and comprised of the 58 County Commissions), the *Network* is

working to address gaps in nutrition education services for young, FSNE-eligible children and their families.

#### **INTRA- AND INTER-GOVERNMENTAL INFRASTRUCTURE TO COORDINATE EFFORTS AMONG PROGRAMS**

\* **California Conference of Local Health Officers (CCLHO)** – The mission of CCLHO, a statutorily-established advisory body to CDPH that convenes the 61 legally appointed physician Health Officers in California, is to prevent disease and improve the health of all California residents. The Conference provides a state/local forum for the discussion of significant health issues in order to develop recommendations for appropriate health policy and programs. One of CCLHO’s priority areas is the promotion of healthful behavior, including healthy eating and physical activity, to prevent chronic diseases such as heart disease, cancer, and diabetes. The CCLHO Chronic Disease Committee brings together Health Officers and local health department staff from a variety of programs to discuss chronic illness prevention, learn from State and other experts, and share best practices.

\* **California Conference of Local Health Department Nutritionists (CCLHDN)** – CCLHDN is an affiliate of CCLHO. Its members lead local public health nutrition program planning and services. Duties typically include administering a variety of federal, state and locally-determined nutrition and physical activity promotion programs. CCLHDN advises CCLHO and CDPH on public health nutrition policies, programs, and issues. It works with the *Network* on increasing nutritionists’ technical capacity to build county-wide nutrition-related infrastructures, especially for services and environmental conditions that promote fruit and vegetable consumption, physical activity, food security, and obesity prevention among low-income groups and in geographical areas. Several counties are also implementing CNAPs, County Nutrition Action Plans, to promote consumption of fruits and vegetables through partnerships and collaborative interventions between the nutrition assistance programs and other related groups. The CNAPs are supported through SNAP and the annual CCLHDN conference.

\* **Steering Committee of the Network for a Healthy California** — The *Network* Steering Committee (NSC) provides a unique and necessary function for the efficient, cost-effective delivery, coordination, and collaboration of FSNE projects across the state. The NSC also provides a key venue to receive program guidance from CDSS and USDA, coordinate with UC Davis FSNEP and other FNS programs serving food stamp eligible Californians. Quarterly meetings and teleconferences are conducted to highlight best practices and support the collaboration of FSNE funded programs by maximizing planning; coordinating *Network* and *Fruit, Vegetable, and Physical Activity Campaign* FSNE activities; and providing support for program administration, partnership and organizational development.

\* **Interagency Food Assistance Committee, IFAC** -- Convened by CDSS, the quarterly IFAC meetings provide an opportunity for interagency dialogue to support increased participation in the Food Stamp Program and to advance the delivery of Food Stamp

Nutrition Education. Participants include EFAP and research in CDSS, the *Network* and WIC in CDHS, UC Davis's Food Stamp Nutrition Education Program, and CDE's Nutrition Services Division.

**\* Food Stamp Nutrition Education and Outreach Participation Committee,**

**FANOut** – Convened quarterly by CDPH, FANOut includes external stakeholders and government agencies, including USDA, to work together on Food Stamp outreach, promotion and Food Stamp Nutrition Education. In addition to the four departments serving on IFAC, FANOut participants include representatives from USDA, community based organizations, county Food Stamp directors, the Center for Advanced Studies in Nutrition and Social Marketing, and representatives from the *Network's* local food and nutrition projects.

**\* The Coordinating Office for Obesity Prevention** – CDPH has established the Coordinating Office for Obesity Prevention (CO-OP) to coordinate and track the multiple and diverse efforts of the various state agencies, departments, industry and the public sector. CO-OP builds on the strengths of existing department programs and helps plan and coordinate strategic policy development, and leverage new program resources within the public and private sectors. CO-OP works to track obesity prevention activities and efforts to highlight best practices and promote efficiencies and improved outcomes. Working with the CDPH Obesity Prevention Group (OPG), an interdepartmental advisory committee, CDPH monitors progress toward implementation of the California Obesity Prevention Plan and support the Governor's Health Care Reform Initiative (HCR) proposals as they relates to obesity prevention.

**\* State Nutrition Action Plan (SNAP)** – Since 2004, California's state level FNS-funded partners have collaborated in the development and implementation of the State Nutrition Action Plan (SNAP) to strengthen their collaboration on nutrition education and promotion efforts. The California team identified one common statewide nutrition education goal and developed a collaborative cross-program plan that FNS-funded programs work together to plan, implement, and achieve. The goal selected for California's SNAP continues to be "to promote consumption of fruits and vegetables through partnerships and collaborative interventions between the nutrition assistance programs and other related groups". State agencies collaborating to implement SNAP include: California Department of Public Health (WIC, *Network*), California Department of Social Services (Food Stamps, Emergency Food Assistance Program), California Department of Education (Nutrition Services Division), University of California (Food Stamp Nutrition Education), and California Department of Food and Agriculture. A Memorandum of Understanding defines roles of each agency. A federal augmentation of WIC's budget supports leadership for the quarterly collaboration. Funding to implement planned activities is drawn from each program's ongoing budget. In addition, SNAP is implemented at the county level as the County Nutrition Action Plan (CNAP). At this time there are nine counties currently implementing CNAP. Specifics are found on the USDA website.

**\* Strategic Assessment of the Child Care Nutrition Environment**

The California Health and Human Services Agency (CHHSA) and CDE brought together child care stakeholders from various state agencies, local child care and development agencies, and various advocacy groups to undertake a strategic assessment and develop policy recommendations for improving nutrition and physical activity in preschools and child care facilities. Efforts to change the child care nutrition and physical activity environments in a state as large and diverse as California can not be effectively pursued by only one agency or organization. Therefore, CHHSA and CDE convened this multi-agency stakeholder advisory group to develop policy recommendations designed to combat childhood overweight.

During a series of meetings that began in August 2007, the advisory group has (1) discussed the latest scientific evidence related to factors contributing to childhood overweight and reviewed successful interventions designed to prevent or reduce the problem; (2) reviewed results from stakeholder surveys describing knowledge and attitudes relating to childhood overweight and perceived barriers to change; and (3) developed and prioritized 10 high level draft policy recommendations for improving nutrition and physical activity in preschools and child care facilities. The advisory group finalized draft policy recommendations in February 2008. A summary of the recommendations will be provided to CHHSA Secretary Kim Belshé and Superintendent Jack O'Connell for their review and action in Summer 2008.

**\* Governor's Council of Physical Fitness and Sport** – Re-established in 2005 by Governor Schwarzenegger, this leadership group of celebrity athletes will provide a visible focal point for statewide promotion and advocacy. In the past, the Council took a special interest in promoting sport among inner city and disadvantaged youth. The Council challenges school students to be physically active and provide yearly spotlight awards to highlight local physical activity efforts. The Council does not receive any State funding.

**\* California Task Force on Youth and Workplace Wellness** – Established by State Senator Tom Torlakson, this Task Force has provided a focal point for raising awareness of low-income nutrition and physical activity issues, initiating the annual *Fit Business Awards* that recognize best practices, and otherwise advancing nutrition, physical activity and obesity prevention. By serving on this Task Force, CDPH staff has helped to implement special low-income efforts as part of the Task Force's priority.
