

**ANTIMICROBIAL STEWARDSHIP/ANTIMICROBIAL RESISTANCE SUBCOMMITTEE
HEALTHCARE-ASSOCIATED INFECTIONS ADVISORY COMMITTEE**

Thursday April 21, 2016

3pm-4pm

Teleconference

Attendance:

Members of Subcommittee:

Brian Lee, MD, Subcommittee Chair, Infectious Disease Specialist, UCSF Benioff
Children's Hospital Oakland
Karen Anderson, MT, MPH, CIC, Infection Control , University of California, San
Francisco
OlgaDeTorres, PharmD, FASHP, BCPS-ID, Department of Pharmacy, O'Connor Hospital
Jeff Silvers, MD, Infectious Disease Specialist, Medical Director Quality Management,
Sutter Eden Medical Center
Carole Moss, Patient Advocate
Michael Butera, MD, California Medical Association
Marisa Holubar, MD, MS, Associate Medical Director Stanford Antimicrobial Safety and
Sustainability Program University School of Medicine
Samantha Tweeten, PhD, MPH, San Diego County Department of Public Health
Phillip Robinson, MD, Infectious Disease Association of California

Absent:

Dan Uslan, Associate Clinical Professor, Infectious Diseases at University of California
Los Angeles
Dawn Terashita, MD, MPH Acute Communicable Disease Control, LA County
Department of Public Health
Catherine Liu, MD, Infectious Disease Specialist, University California, San Francisco
Matthew Zahn, MD, MPH, California Association of Communicable Disease Controllers
Stan Deresinski, MD, Infectious Disease Specialist, Stanford University

CDPH Staff:

Lanette Corona, Associate Healthcare Program Analyst

ACTION TAKEN:

See Attached Minutes

ACTION REQUIRED BY HAI ADVISORY COMMITTEE:

ACTION REQUIRED BY ADMINISTRATION:

Brian Lee, MD, Subcommittee Chair

| TOPIC | DISCUSSION | ACTION/ OUTCOME | NEXT REVIEW |
|--|--|--|-------------|
| | Prevention Collaborative of Sacramento occurred on 4/8 and was well received by many GACH, SNF and one LTACH. | | |
| <p><i>V. Discussion Items: Antimicrobial stewardship education for future prescribers via curriculum requirement in medical/dental/pharmacy/nursing/veterinary/podiatry/optometry schools and residency training programs and for current practicing clinicians (physicians, pharmacist, dentists, nurse practitioners, physicians assistants, podiatrists, optometrists, etc.) via continuing education requirement in antimicrobial resistance/stewardship for licensure</i></p> <ul style="list-style-type: none"> • List of Schools • List of residency training programs <p>Components of ASP for skilled nursing facilities: SB361: On or before 1/1/17, each skilled nursing facility, as defined in subdivision © of Section 1250, shall adopt and implement an antimicrobial</p> | <p>Members were informed the lists of schools and list of training programs is still pending and is currently being developed.</p> <p>This list will be given to CDPH for the purpose of surveying the schools/programs about their stewardship education/training. A suggestion was made to contact Alicia Cole who has been working with the Combating Antibiotic Resistance Bacteria (CARB) taskforce who has been looking into these professional schools.</p> <p>A suggestion was made to have this subcommittee draft a template letter/survey questions that CDPH could use or edit for contacting these schools/residency training programs. Discussion ensued regarding getting more stakeholder buy-in on the motion from various professional medical associations. If this is done, when CDPH is ready we can begin including and talking with the medical board to find supporters on this topic. That way all decision makers are on the same level to have more than just a one-sided view of only certain experts supporting us and attempt to limit issues later in legislation.</p> <p>Discussion ensued to develop basic, intermediate and advanced components of a tiered ASP for SNFs. Members reviewed the draft consolidated document of suggestions put forth by our subcommittee SMEs as previously submitted individual tiered component documents. The document contains a preface for SNF ASPs followed by suggestions for both basic and intermediate tiers. Discussion ensued regarding combining Basic Tier bullet #2, 3, 5 and 6. Members discussed the need</p> | <p>Alicia Cole to be contacted for potential list of schools and residency training programs she has obtained from working with CARB.</p> <p>Create a letter CDPH can send out to programs and residencies as well as, developing survey questions.</p> <p>Outreach to various groups that may be stakeholders in this process to ensure all are on board.</p> <p>Chair to update draft and continue the discussion at the next meeting.</p> | |

|---|--|---|-------------|
| <i>stewardship policy that is consistent with antimicrobial stewardship guidelines developed by CDC and CMS, SHEA or similar recognized professional organizations</i> | for leadership to either confirm their support for ASP through their mission statement, strategic plan or signed documentation from their administration/governing entity in addition to evidence of adequate budget and staffing of the ASP to support the required services. It was agreed to use the CDC verbiage but add “written”; written leadership commitment dedicating necessary human, financial and information technology resources to the ASP. Members agreed bullet #4 should remove “infection preventionist” from requiring training and add IDSA to the list of organizations that offer continuing education for ASP. | | |
| VI. Action items to bring to HAI-AC: | None discussed. | | |
| VII. Tabled Items | None discussed. | | |
| VIII. Next meeting | TBD – May 2016 | Doodle poll to be sent to members to suggest May 2016 meeting dates | |
| IX. Adjournment | A motion for adjournment was made. | Meeting adjourned at 4pm | |
