

**SURGICAL SITE INFECTIONS IN
CALIFORNIA GENERAL ACUTE CARE
HOSPITALS,
APRIL 2011 THROUGH JUNE 2011**

Jon Rosenberg for Karla van Meter

Data

- Data submitted to NHSN
- Procedures consistent with AFL 11-32
 - 2 procedures per hospital
 - CABG and hip prosthesis if submitted
 - SIR if generated
 - Number of infections and procedures if no SIR and procedures ≥ 20
 - Acknowledgement of reporting if procedures < 20

Presentation

- Standard text/PDF
- Interactive map-based program in collaboration with California Healthcare Foundation
 - Flash program will be embedded in CDPH HAI web page, currently under construction
 - Will show same data for each hospital as text version, but accessed either through scroll-through list or point on map.
