

SOLAR PANELS: LIFT THEM SAFELY!

YES!

Ladder Hoist

Truck-Mounted Crane

NO!

Never climb ladders while carrying solar panels.

Always use lifting equipment whenever possible, such as ladder hoists, swing hoists, or truck-mounted cranes/conveyors.

If lifting equipment is not used, manually lift panels to the roof using ropes, platforms, or other methods in accordance with best manual materials handling practices.

FACE stands for "Fatality Assessment and Control Evaluation." The purpose of the FACE program is to find problems that may cause work-related deaths so that employers and employees can help prevent them.

FACE is a public health program run by the California Department of Public Health, Occupational Health Branch, and funded by the National Institute for Occupational Safety and Health.
