Governor

Short-Term Out-of-State Travel for Nonhuman Primates (Re-Entry)

Animals subject to these provisions may re-enter California under a wild animal importation permit issued by the California Department of Public Health (CDPH), Veterinary Public Health Section (VPHS), and upon payment of a \$10.00 per animal permit fee. Nonhuman primates (NHP) may not re-enter California until the consignee receives a permit issued by CDPH-VPHS. Persons wishing to import NHPs shall complete and submit to CDPH-VPHS a permit application no less than ten business days prior to importation. The following supplementary documentation must be provided to CDPH-VPHS no less than five business days prior to importation:

1. A certificate of veterinary inspection (aka. health certificate) signed/dated no more than 30 days prior to the first day of travel, certifying that the NHP has been examined by a veterinarian accredited by the United States Department of Agriculture and is free of signs of infectious diseases, and
2. Veterinary records of the NHP--or the parents if less than six months of age--reflective of the 180 days prior to importation, and
3. A signed statement from the consignor describing the date and location of acquisition if the NHP has been in the consignor's possession less than 180 days, and
4. A signed statement describing the manner in which the NHP will be maintained to preclude public and other animal contact while traveling, and
5. A detailed itinerary inclusive of the dates spent out-of state, and
6. A negative tuberculin test administered by intradermal injection. This test must be administered by a veterinarian not more than 30 days prior to the first day of travel.

NHPs approved for out-of-state travel must remain in isolation except while the animal is being exhibited.

NHPs permitted entry under these provisions shall not be sold, traded, or given away without notification and prior approval by CDPH-VPHS and the California Department of Fish & Wildlife.

Local Restrictions: An importation permit shall not be issued where local ordinances (city or county) prohibit the possession of the species. Importers must provide CDPH-VPHS with any applicable permit or licenses required by a local ordinance prior to the issuance of a wild animal importation permit.
