Fixes

This section is used to describe fixes to existing features that were the result of a defect.

1. Cursor was incorrectly placed on the "Browse Food Package" screen. Also, screen should be renamed to "Browse Prescription."

PROBLEM:	Cursor was incorrectly placed on the "Beans/Peanut Butter" choice on the IRXBPM01 "Browse Food Package" screen.
RESOLUTION:	Cursor now correctly goes to the command line. Also, the screen has been renamed to "Browse Prescription."

2. Pop-up boxes/options did not display for Home/Mailing addresses when F4 was selected in any of the Home or Mailing Address fields on the transfer screens.

PROBLEM:	Pop-up boxes/options did not display when F4 was selected in any of the Home or Mailing Address fields on ITR10M01, ITR20M01, and ITR50M01 transfer screens. The functionality should be the same as the Enrollment and Change screens.
RESOLUTION:	Pop up options will now display when F4 is selected on the transfer screens.

3. The heading on all reports displayed "Department of Health Services," instead of "Department of Public Health."

PROBLEM:	The heading on all reports displayed "Department of Health Services."
RESOLUTION:	The heading on all reports has been corrected to display "Department of Public Health."
