Fixes

This section is used to describe fixes to existing features that were the result of a defect.

- The "Food Stamps" program has been renamed and is now known as "CalFresh."

PROBLEM:	There were many references to "Food Stamps" in the WIC MIS.
RESOLUTION:	References to "Food Stamps" have been removed and now replaced with "CalFresh."

Enhancements

This section is used to describe changes to current existing features that were not a result of a defect.

- Abbott Nutrition has changed the can size from 16 oz to 12.1 oz and removed the wording of "EXPERT CARE" from the name of their Similac Alimentum therapeutic infant formula product. Effective July 25, 2016, food instruments (FIs) can now be issued for both the new 12.1 oz can size and the discontinued 16 oz can size. Although the new 12.1 oz can size is the default choice, both sizes will be made available in the WIC MIS for approximately one year, or until the stock of the old product is exhausted.

PROBLEM:	The verbiage printed on the FI's was "SIMILAC EXPERT CARE ALIMENTUM," with a can size available of "16 OZ."
RESOLUTION:	When the new sized product is selected on the "Prescribe Food Package" screen or on the "Change/Browse Prescription" screen, the verbiage printed on the FIs is now "SIMILAC ALIMENTUM," with a can size of "12.1 OZ."
