

# WIC-MIS POST CHANGE RELEASE NOTIFICATION

---

**Purpose** The Post Change Release Notification provides the latest information to all CDPH WIC and Local Agency staff about new features, enhancements to existing features, and defects fixed with the latest changes made to the WIC-MIS system. In addition, this document will also be used to provide workarounds to address identified issues.

---

The table below contains the WIC-MIS Change Release Effective Dates.

Schedule	1	DESCRIPTION	DAY	DATE	CHANGE RELEASE ID
		Effective Date	Monday	March 28, 2016	10358

---

**Who to Contact** If you have questions regarding this notification or encounter problems after the change release, please contact the WIC/ITSD Technical Support Help Desk and reference the Change Release ID Number listed in the table above.

Telephone: (800) 224-7472

## POST CHANGE RELEASE NOTIFICATION

Effective Date:	MAR 28, 2016	Change Release ID#:	10358
-----------------	--------------	---------------------	-------

### Enhancements

This section is used to describe changes to current existing features that are not as a result of a defect.

#### 1. WIC Authorized Food List Shopping Guide Revisions

Revisions to the WIC Authorized Food List Shopping Guide (WAFL SG), effective March 28, 2016.

<b>CURRENT:</b>	The major changes to foods in this revision, affecting infant formula, breakfast cereal, and fruits and vegetables.
<b>CHANGE:</b>	The major changes to foods in this revision, affecting infant formula, breakfast cereal, and fruits and vegetables are listed below and in the March 28, 2016 WAFL SG.

#### 2. Pink CVV message will begin to display on the Prepare Family Packages screen beginning on the infant's 5<sup>th</sup> month

<b>CURRENT:</b>	There is no option in prescription for a choice of Fruit and Vegetable check in place of some Baby Food presently.
<b>CHANGE:</b>	<p>In the Infant's 5th month of their certification period, the following message will display in pink on the IFI40 – Prepare Family Packages screen. The message below will display for the remainder of the certification period whenever the IFI40 screen is accessed for the family.</p> <p style="color: magenta;">“AT 9 MO. WOULD YOU LIKE A FRUIT AND VEG CHECK IN PLACE OF SOME BABY FOOD?”</p>
<b>WORKAROUND</b>	Issue the default food package for the infant and tailor out the solid food FIs from the package before printing.

Effective Date:	MAR 28, 2016	Change Release ID#:	10358
-----------------	--------------	---------------------	-------

3. At certification, an automatic hold will be placed on the month in which the infant turns 9 months of age

<b>CURRENT:</b>	There is no automatic hold placed at certification in WIC-MIS currently.
<b>CHANGE:</b>	At Certification, automatically insert an “H” in the HOLD column of the WIC_PRESCRIPTION table in the month in which the infant turns 9 months of age.  There is an issue with the Hold currently. See the workaround
<b>WORKAROUND</b>	If the 9 <sup>th</sup> month hold is removed from the Prescribe screen and then the Prescribe screen is accessed again either through Change/Browse or from the Prepare Packages to Print screen (using S, F6), the Hold will reappear. To avoid this, please do not access the Prescription screen again until after you have printed the participant’s FIs.

4. If there is an F8=FWD key on any of the Change Food Package pick lists, a message will display

<b>CURRENT:</b>	There is not currently, a message displayed when the F8=FWD key is selected on any of the Change Food Package pick lists.
<b>CHANGE:</b>	If there is an F8=FWD key on any of the Change Food Package pick list, display the message below in red.  “PRESS F8=FWD TO VIEW ADDITIONAL FOOD PACKAGES”
