# WIC ISIS CHANGE RELEASE NOTICE

Scheduled Date:	OCT 24, 2015	Effective Date:	<b>OCT 26, 2015</b>	Change ID#:	10349
-----------------	--------------	-----------------	---------------------	-------------	-------

## Fixes

This section is used to describe fixes to existing features that were the result of a defect.

1. An ISIS error occurred when a food package change was made.

<b>CURRENT:</b>	If a CT4L Food Package was prescribed and the Food Package changed to a CP4L in a double or triple issuance, ISIS was failing with an ASRA ABEND 'RECORD NOT FOUND (IDJ642A).'
<b>CHANGE:</b>	ISIS now allows the food package changes to be made.

## Enhancements

This section is used to describe changes to existing features that were not a result of a defect.

1. Added a column to the ISIS No Show Appointment Report to list the No Show Appointment Code.

<b>CURRENT:</b>	The No Show Appointment Report did not list the No Show Appointment Code.
<b>CHANGE:</b>	The No Show Appointment Code now appears on the No Show Appoint Report and Screens.

2. Removed obsolete Checkstock Inventory Reports.

<b>CURRENT:</b>	The following reports were no longer used but were still listed on the State Admin Inventory Reports screen: <ul style="list-style-type: none"> <li>• Option 4 - Shipping Order</li> <li>• Option 5 - Checkstock Shipped To Agency From WIC Branch, But Not Received</li> <li>• Option 6 - List of Voided Checkstock</li> </ul>
<b>CHANGE:</b>	These obsolete reports no longer appear on the State Admin Inventory Reports screen. The report previously available as Option 7, "Checkstock Shipped," is now renumbered as Option 4.
