

## WIC ISIS CHANGE RELEASE NOTICE

**Purpose** This ISIS Change Release Notice provides updated information to all CDPH, WIC and Local Agency staff about new features, enhancements to existing features, and defects fixed that are now available in production.

The table below contains the ISIS system schedule for **ONE** Change Release that was deployed to production including the effective date.

Schedule	DESCRIPTION	DAY	DATE	CHANGE CYCLE ID	
	1	Change Cycle	Saturday	December 20, 2014	10328
		Effective Date	Monday	December 22, 2014	

### Fixes

This section is used to describe fixes to existing features that were a result of a defect.

1. Food Packages CT4L and CP4L were not alternating correctly

<b>PROBLEM:</b>	When double or triple issuing a CT4L or CP4L food package, the milk FI's were not alternating correctly.
<b>RESOLUTION:</b>	The milk FI's are now alternating correctly for CT4L and CP4L food packages. Month one receives three half-gallons of milk, month two receives two half gallons of milk.

2. IT4L, IT4S and IT4W Packages were Displaying P when changed but Printing Beans

<b>PROBLEM:</b>	When you change an Infant's Food Package in Prescribe or Change from an IC2, IF2 or IO2 package to an IT4L, IT4S or IT4W package and change the B to a P, the P displayed on the screen, but when you F2 View and Print, Beans was displayed on the screen as the food item and the bean combo FI was printed.
<b>RESOLUTION:</b>	Peanut butter is displayed on the screen after F2 is selected and the peanut butter combo FI is printed.

3. ALT COMBO ITEM WAS NOT FOUND IN FOOD SUBSTITUTE TABLE Error

<b>PROBLEM:</b>	When choosing Food choice 'P' for Peanut Butter for Packet id's IT4P or IT4G on the IRX49M01, CHANGE/BROWSE PRESCRIPTION menu and pressing F2=VIEW the following message was displayed on the IRX32, VIEW FOOD PACKAGE menu 'ALT COMBO ITEM NOT FOUND IN FOOD SUBSTITUT table.
<b>RESOLUTION:</b>	The error message is no longer displayed when the user selects F2.

4. When changing an infant food package from IT4L, IT4S or IT4W to CT4L, CT4S or CT4W, change "B" to "P". F2 View - beans displayed, food items printed beans.

<b>PROBLEM:</b>	When an IT4L, IT4S or IT4W package is transitioned to CT4L, CT4S or CT4W package within the same certification period, and the "P" (Peanut Butter) displayed on the Beans/Peanut Butter question on the Change/Browse Prescription screen, but when F2 View and Print is used, Beans were displayed on the screen as the food item and the bean combo food instrument was printed.
<b>RESOLUTION:</b>	ISIS now correctly displays Peanut Butter when F2-View is used and prints the Peanut Butter combo food instrument.
