

**VERIFICATION  
OF  
OYSTER TREATMENT PROCESS  
TO REDUCE VIBRIO VULNIFICUS TO NON-DETECTABLE LEVELS**

Title 17, California Code of Regulations  
Sections 13675 and 13676

Pursuant to Title 17, California Code of Regulations (CCR) Section 13675(g), the Department of Health Services has determined that oysters harvested from the Gulf of Mexico and processed by,

**MOTIVATIT SEAFOODS, INC.**

412 Palm Street  
Houma, LA 70361

**Shellfish Certification Number: LA 479 SP**

Using a High Hydrostatic Pressure Process has been scientifically validated to reduce the level of *Vibrio vulnificus* in raw Gulf oysters to "non-detectable" (<3 MPN/g) levels and are not subject to the restrictions for sale required by Section 13675 (c) (5) or written warnings required in Section 13675 (b).

Section 13675 (h) requires that the oyster processor provide a copy of this exemption letter to any dealer or retail food facility in California to whom the processor sells or provides processed Gulf of Mexico oysters.

**Notice Expires: November 1, 2013**
