

THE ADSB TEAM

ADSB is really its people; a team of highly trained and talented analysts, programmers, and system software specialists who are proud of their role in helping the Department fulfill its mission of a healthy California.

These dedicated staff take supporting the Departments' applications seriously, knowing that by providing great customer service to the CDPH programs, they are enriching the lives of all Californians.

Support
Branch (ADSB)

ADSB: solutions that work for your program.

Part of the Information Technology Services Division.

Business-driven technology solutions that enables CDPH

to deliver public health services to the residents of California.

Note from our Chief:

"I am pleased to report that over the past year the application development and support branch (ADSB) has continued to expand upon its customer-focused strategy and over the next year, ADSB will continue to foster a culture that places our customers first and continues to improve upon how we are providing services to our customers. The dynamic and constantly-changing public health environment and the ever-evolving world of technology present the ADSB team with new opportunities and challenges almost daily. In response, the ADSB staff, the management team and I are continually committed to providing the best services possible to our customers." - David Fisher

The Application Development and Support Branch (ADSB) takes great pride in providing all the internal programming needs for the numerous diverse programs throughout the Department. Once a project has been approved, the ADSB staff assists and supports all aspects of the application development process from the gathering of initial project requirements to the maintenance & operations of the fully implemented system.

flexible solutions for your business needs

PRIMARY OBJECTIVES

- Promote service-driven partnerships between ITSD and the Program areas.
- Support a consistent, systematic, repeatable approach to application development.
- Ensure IT application development processes are in compliance with best practices, meeting OCIO, SDLC, and IEEE standards.

SERVICES OFFERED

- Evaluate system proposals
- Application refresh
- Professional development seminars
- Mobile web application development
- New application development
- System maintenance and operations
- Technical specifications development for feasibility study reports

CUSTOM SOLUTIONS

ADSB staff will analyze program needs and build applications tailored to your requirements, whether mainframe, server, or mobile based.

WEB SOLUTIONS

Deliver your program information to your customers with searchable databases; accept applications and receive forms all over the Internet.

BUSINESS SOLUTIONS

ADSB staff engineer applications that streamline processes, enabling programs to dramatically improve customer service, cut costs, and improve speed.

WE'VE WORKED WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?

At ADSB, we succeed when you succeed. Contact us at 916.552.8213 or by e-mail to David.Fisher@cdph.ca.gov.
