Time Studies must be performed for one full week during each fiscal quarter. Each agency must select the week per Quarter that Title V 30/30 Time Studies will be completed. For example if County "A" chooses "Week 4" time studies must be completed for all relevant staff during the weeks of July 15, 2013; October 14, 2013; January 13, 2014; and April 14, 2014.

If an agency fails to select a week to complete its required Title V time studies then MCAH will assign a week for the agency to time study.

Failure to document Title V activities (i.e. the timely submission of Title V time studies) may lead to the reduction of funding available to the deficient agency.
