Date and time when given _____
mm dd yyyy (military, hh:mm)

If date/time not available, age in hrs when given _____

If date/time not available, age in hrs when given _____

Reasons for error (check all that apply)

HBsAg testing

- Mother's status was not known at the time of admission
 - Hospital did not test mother
 - Hospital tested mother but the results were delayed
- Mother's HBsAg status was misinterpreted
 - By a clinician at the hospital
 - By the treating provider who provided incorrect information to the hospital
- Original lab result was not available in the hospital record
 - Mother's HBsAg result was communicated verbally to the hospital
 - Mother's HBsAg result was communicated in writing to the hospital
- Mother had multiple HBsAg tests and hospital only had documentation of a negative test
- Hospital did not assess mother's HBsAg status
- Other (if so, please specify) _____

PEP Availability

- Pharmacy was closed/delay in the pharmacy
- Pharmacy did not have HBIG in stock
- Pharmacy did not have HBV vaccine in stock

Compliance

- Parent refused PEP for infant
- Physician did not provide PEP to infant
- Parent did not present child to care for PEP (e.g. in the event of a home birth where the infant might receive PEP in an ED or other planned facility)

Patient Care

- Staff miscommunication or poor recordkeeping of administration/receipt of PEP
- Short-staffed; patient census high; could not provide PEP within time frame
- Change of shift

Infant Medical Reason

- Infant medical emergency
- Physician or other clinician refused to provide PEP to infant because of infant's medical condition

PLEASE SUBMIT ANY INFANT UPDATES AND POST-VACCINATION SEROLOGIC TESTING RESULTS USING FORM CDPH 8546

Please describe why the PEP error occurred in as much detail as possible. Attach any lab reports and relevant medical records available for this mother and infant.

NOTE: If further comments are necessary, please attach a separate page with additional information
