

DON'T BRING ZIKA HOME

USE EPA-REGISTERED
INSECT REPELLENT.

REMOVE STANDING
WATER AROUND YOUR
HOME.

WEAR PROTECTIVE
CLOTHING.

AVOID GOING
TO AREAS AT-RISK
FOR ZIKA.

Zika is a virus that is spread through the bite of an infected mosquito, or unprotected sex with an infected partner.

Most people don't get symptoms. But symptoms can include fever, rash, joint pain and/or red eyes. While there is no treatment or vaccine for Zika, you can protect yourself, your family, and your community.

protect
yourself.
