

Help keep schools safe

Parents play an important role in preventing the spread of COVID-19 and keeping kids at school for in-person learning.

Teach your child how to properly wear a mask and wash their hands.

If they're feeling sick, keep them at home, contact the school, talk to their doctor and get them tested for COVID-19.

Get vaccinated for COVID-19 along with anyone in your household who is eligible for the vaccine.

Working together, parents and schools can help support our children's wellbeing with safe in-person learning.

Visit schools.covid19.ca.gov/pages/parent-page to learn more about school safety measures.

STAY INFORMED AND ENGAGED
