

My Vaccine Record

[My Vaccine Record](#) allows Californians to download a digital version of their CDC COVID-19 vaccine card.

The digital record includes the same information as the paper vaccine card. The QR code confirms the vaccine record is officially issued by the State of California.

Easy to Access

Enter in name, date of birth, mobile phone or email, and create a 4-digit PIN.

Retrieve the record by re-entering the PIN.

Save the record to the camera roll or in an app.

Easy to Use

Present the record wherever proof of vaccination is requested.

The digital record includes the scannable QR code and details that can be confirmed visually without a QR reader.

How it Works

The portal draws records from California's official immunization registry. By matching name, date of birth, and contact information, the portal can retrieve proof of California vaccination, privately, conveniently, and securely.

Troubleshooting

Residents who are unable to retrieve their records should contact their provider or CDPH for [assistance](#).
